Geest, 2020-12-15 This open access collection of essays examines the literary advice industry since its emergence in Anglo American literary culture in the mid nineteenth century within the context of the professionalization of the literary field and the continued debate on creative writing as art and craft Often dismissed as commercial and stereotypical by authors and specialists alike literary advice has nonetheless remained a flourishing business embodying the unquestioned values of a literary system but also functioning as a sign of a literary system in transition Exploring the rise of new online amateur writing cultures in the twenty first century this collection of essays considers how literary advice proliferates globally leading to new forms and genres **Robert K. Greenleaf** Don Frick, 2004-06-09 Thousands if not millions of people have heard the term servant leadership introduced by Robert K Greenleaf in his landmark essay The Servant as Leader published in 1970 There are now Centers for Servant Leadership in ten countries and counting His work is regularly cited by some of the most prominent business writers and leaders in the world such as Ken Blanchard Stephen Covey Peter Senge Margaret Wheatley and Peter Block And yet until now there has been no biography of the man who first developed this revolutionary idea Don

Frick was given unfettered access to all of Greenleaf's papers and correspondence. The result is a fascinating book that details the sources of Greenleaf's thought, describes his friendships with dozens of well-known people, and shows how he influenced business history well before his first book was published at the age of 73 and lived his own life as a servant leader.

Foundations of Korean Martial Arts: Masters, Manuals and Combative Techniques Michael DeMarco, M.A., et al., 2017-01-29. Most of what are referred to as Korean martial art styles are actually derived from Japanese Okinawan karate systems or find their roots in Chinese boxing. The Korean peninsula has existed as a fragile territory between China and Japan and thus shared many cultural elements from their neighbors. To what degree has the Japanese and Chinese arts influenced those practiced in Korea over the centuries? Can we distinguish any original Korean martial art style? Chapters in this anthology are derived from the Journal of Asian Martial Arts specifically in response to such questions as asked above. The authors provide great detail on the military martial manuals that recorded both battlefield arts and personal combative arts and use these sources to give a picture of the martial traditions practiced in Korea for hundreds of years. In chapter one Stanley Henning provides an excellent overview of martial arts in Korea since the earliest dynasties. These include bare hand arts as well as those with weaponry. His overview illuminates the time and place of highly influential military manuals as discussed in the chapter by Manuel Adrogu. John Della Pia's two chapters focus on a particular manual, the Muye Dobo Tongji 1790, providing details of open hand and weapons training in particular with the unique Korean native sword. Two chapters provide the theory and practice of qigong methods for health and martial effectiveness. Dr. Patrick Massey et al. offer results on the use of breathing methods affecting lung capacity. Sean Bradley's chapter goes deeply into the medical theories that parallel the practice of Sinmoo Hapkido's qigong methods. The final two chapters focus on practical fighting applications from Hapkido. Marc Tedeschi's chapter provides sound advice for self-defense against multiple opponents. In addition to detailing principles that give any defender a helpful advantage, Tedeschi shows nineteen examples of techniques against two, three, and four opponents that include pressure point striking, throws, arm bars, locks, and a variety of kicks. In the closing chapter, Sean Bradley discusses a few of his favorite techniques where he learned them and why they are memorable. Rich in historical details and practical advice, this anthology will prove to be a prized reference work to all interested in the Korean martial traditions.
