The Virtual American Empire War Faith And Power

Edward N. Luttwak

The Virtual American Empire War Faith And Power:

The Virtual American Empire Edward N. Luttwak, 2017-09-08 This is Edward Luttwak's third and arguably finest collection of essays. In a challenge to the intellectual backbone of those who write about peace as something one wishes into existence through mediation and good will, Luttwak's view of warfare is bracing. An unpleasant truth often overlooked is that although war is a great evil, it does have a great virtue: it can resolve political conflicts and lead to peace. Luttwak articulates positions shared by military figures and political heroes who have their feet on the ground rather than in the sand. He shares his thoughts in essays covering America at war and the new Bolshevism in Russia, ranging in place from the Middle East to Latin America and stopping along the way to Byzantium. Luttwak examines military reform, great powers grown small, and drugs, crime, and corruption as part of the common culture of the West. Though his message is sometimes delivered in a light tone, he is never foolish and never trivial. Luttwak develops the bracing thesis that ceasefires and armistices in states of war, while sometimes inconclusive, are lesser evils than prospects for a nuclear meltdown. Even in arenas of geopolitical antagonism, neither Americans nor Russians have been inclined to intervene competitively in wars of lesser powers. As a consequence, intermittent war persists and greater dangers to the world are averted. It is no exaggeration to compare Luttwak to Clausewitz in the nineteenth century and Herman Kahn in the twentieth century. This volume deserves to be read and digested by all who would understand contemporary geopolitics.

The Virtual American Empire Edward N. Luttwak, 2017 This is Edward Luttwak's third and arguably finest collection of essays. In a challenge to the intellectual backbone of those who write about peace as something one wishes into existence through mediation and good will, Luttwak's view of warfare is bracing. An unpleasant truth often overlooked is that although war is a great evil, it does have a great virtue: it can resolve political conflicts and lead to peace. Luttwak articulates positions shared by military figures and political heroes who have their feet on the ground rather than in the sand. He shares his thoughts in essays covering America at war and the new Bolshevism in Russia, ranging in place from the Middle East to Latin America and stopping along the way to Byzantium. Luttwak examines military reform, great powers grown small, and drugs, crime, and corruption as part of the common culture of the West. Though his message is sometimes delivered in a light tone, he is never foolish and never trivial. Luttwak develops the bracing thesis that ceasefires and armistices in states of war, while sometimes inconclusive, are lesser evils than prospects for a nuclear meltdown. The British Empire Jeremy Black, 2016-03-09 What was the course and consequence of the British Empire? The rights and wrongs, strengths and weaknesses of empire are a major topic in global

history and deservedly so. Focusing on the most prominent and wide ranging empire in world history the British empire Jeremy Black provides not only a history of that empire but also a perspective from which to consider the issues of its strengths and weaknesses and rights and wrongs. In short this is history both of the past and of the present day discussion of the past that recognises that discussion over historical empires is in part a reflection of the consideration of contemporary states. In this book Professor Black weaves together an overview of the British Empire across the centuries with a considered commentary on both the public historiography of empire and the politically charged character of much discussion of it. There is a coverage here of social as well as political and economic dimensions of empire and both the British perspective and that of the colonies is considered. The chronological dimension is set by the need to consider not only imperial expansion by the British state but also the history of Britain within an imperial context. As such this is a story of empires within the British Isles Europe and later world wide. The book addresses global decline decolonisation and the complex nature of post colonialism and different imperial activity in modern and contemporary history. Taking a revisionist approach there is no automatic assumption that imperialism empire and colonialism were bad things. Instead there is a dispassionate and evidence based evaluation of the British empire as a form of government an economic system and a method of engagement with the world one with both faults and benefits for the metropole and the colony.

War and the Cultural Turn Jeremy Black, 2013-05-08. In this stimulating new text renowned military historian Jeremy Black unpacks the concept of culture as a descriptive and analytical approach to the history of warfare. Black takes the reader through the limits and prospects of culture as a tool for analyzing war while also demonstrating the necessity of maintaining the context of alternative analytical matrices such as technology. Black sets out his unique approach to culture and warfare without making his paradigm into a straightjacket. He goes on to demonstrate the flexibility of his argument through a series of case studies which include the contexts of rationale Gloire strategy early modern Britain's organizations the modern West and ideologies the Cold War. These case studies drive home the point at the core of the book culture is not a bumper sticker it is a survival mechanism. Culture is not immutable it is adaptable. Wide ranging international and always provocative *War and the Cultural Turn* will be required reading for all students of military history and security studies.

Revisiting the Byzantine Commonwealth, 2025-08-03. Pinning down Byzantium or East Rome is as difficult today as it was for contemporaries during its 1 000 year long existence. Dimitri Obolensky sought to characterize its impact on Eastern Europe in his classic *The Byzantine Commonwealth* focusing on the elements of religious doctrine rites and law which ruling elites there took from the emperor acting in tandem with the Constantinopolitan patriarchate. Chapters in this volume *Revisiting the Byzantine Commonwealth* address such basic questions as who the Byzantines thought they were and how they managed to maintain their hegemonial stance for so long. Other chapters reappraise the uses of Byzantium to elites and also to other sectors of societies from the Upper Adriatic to the Volga. Surveys are offered of three spheres which functioned independently of and in one case expressly in antithesis to

Byzantium yet which overlapped and were constantly interacting with it the Latin west the Islamic Christian east and the world of the steppes Candidates for Commonwealth membership can be found within these spheres too along with transregional networks which functioned regardless of political borders Aspects of Byzantium appealed to the variegated societies and cultures around it in very different ways with the imperial elite taking keen interest in neighbouring peoples and making the most of Soft Power as material resources dwindled from the thirteenth century on Some periods of outsiders engagement with the empire were short lived but others proved long lasting underpinned by ecclesiastical institutions and monastic networks The volume aims to foster a more rounded approach to the phenomenon of Byzantium and a better understanding of how and why it impinges on so many Eurasian cultures and polities to this day **Encyclopedia of Military Science** G. Kurt Piehler,2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization traditions training purpose and functions of today s military Entries in this four volume work include coverage of the duties responsibilities and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political social legal economic and technological factors A large component is devoted to issues of leadership group dynamics motivation problem solving and decision making in the military context Finally this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations the First Persian Gulf War the events surrounding 9 11 and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events *Transactions of the Royal Historical Society: Volume 21* Ian W. Archer,2012-01-05 A collection of major articles representing some of the best historical research by some of the world s most distinguished historians **Insurgency Warfare** Jeremy Black,2023-06-22 This timely book offers a world history of insurgencies and of counterinsurgency warfare Working beyond traditional Western centric narrative arguing that it is crucial to ground experiences in Afghanistan and Iraq in a global framework Unlike other studies that begin with the American and French revolutions this book reaches back to antiquity to trace the pre modern origins of war Interweaving thematic and chronological narratives Black probes the enduring linkages between beliefs events and people on the one hand and changes over time on the other hand He shows the extent to which politics technologies and ideologies have evolved creating new parameters and paradigms that have framed both governmental and public views Tracing insurgencies ranging from China to Africa to Latin America Black highlights the widely differing military and political dimensions of each conflict He weighs how and why lessons were learned or rather asserted in both insurgency and counterinsurgency warfare At every stage he considers lessons learned by contemporaries the ways in which norms developed within militaries and societies and their impact on doctrine and policy His sweeping study of insurrectionary warfare and its counterinsurgency counterpart will be essential reading for students of military history Between Security Markets and Protection Rackets Marc von Boemcken,2013-02-20 Security is a social practice which constitutes different

formations of political order Developing a political economy of security practice the author distinguishes these formations with a view to the actual exchanges between various providers and receivers of security services He thus departs from a popular perspective in political science which charts ongoing transformations in the global security landscape along a series of categorical divisions between state and non state or between the public and the private A more rewarding analytical perspective conceives the two most dominant security formations in the contemporary world as either based on commercial or on compulsory relations

Insurgency and Counterinsurgency Jeremy Black, 2016-07-29 This timely book offers a world history of insurgencies and of counterinsurgency warfare Jeremy Black moves beyond the conventional Western centric narrative arguing that it is crucial to ground contemporary experiences in Afghanistan and Iraq in a global framework Unlike other studies that begin with the American and French revolutions this book reaches back to antiquity to trace the pre modern origins of war within states Interweaving thematic and chronological narratives Black probes the enduring linkages between beliefs events and people on the one hand and changes over time on the other hand He shows the extent to which power politics technologies and ideologies have evolved creating new parameters and paradigms that have framed both governmental and public views Tracing insurgencies ranging from China to Africa to Latin America Black highlights the widely differing military and political dimensions of each conflict He weighs how and why lessons were learned or rather asserted in both insurgency and counterinsurgency warfare At every stage he considers lessons learned by contemporaries the ways in which norms developed within militaries and societies and their impact on doctrine and policy His sweeping study of insurrectionary warfare and its counterinsurgency counterpart will be essential reading for all students of military history

Byzantine Matters Averil Cameron, 2019-09-24 A renowned historian addresses misconceptions about Byzantium suggests why it is so important to integrate the civilization into wider histories and lays out why Byzantium should be central to ongoing debates about the relationships between West and East Christianity and Islam Catholicism and Eastern Orthodoxy and the ancient and medieval periods

Insurrection and Intervention Ned Dobos, 2011-10-27 Domestic sovereignty the right of a government not to be resisted by its people and international sovereignty the moral immunity from outside intervention have both been eroded in recent years but the former to a much greater extent than the latter An oppressed people's right to fight for liberal democratic reforms in their own country is treated as axiomatic as the international responses to the revolutions in Tunisia Egypt and Libya illustrate But there is a reluctance to accept that foreign intervention is always justified in the same circumstances Ned Dobos assesses the moral cogency of this double standard and asks whether intervention can be consistently and coherently opposed given our attitudes towards other kinds of political violence His thought provoking book will interest a wide range of readers in political philosophy and international relations

Suffering in Anglophone Literatures Charles I. Armstrong, Martina Domines, 2024-10-15 Suffering in Anglophone Literatures engages with postclassical Trauma Studies and opens the traumatic envelope to embrace concepts such as

toleration mourning nostalgia vulnerability and existential Angst The first section explores insomnia in Shakespeare testimonial suffering in Richardson nostalgia in Clare work as a form of suffering in Tennyson and pleasurable suffering in Trollope The second section deals with suffering as expressed in blues by August Wilson intergenerational healing by Rosanna Deerchild systemic pain in war fiction from World War One to the Vietnam War personal and historical nostalgia by John Banville and literary non commitment to suffering by Joyce and Philip Kerr The final section turns to more recent literary texts ranging from the poetry of Derek Mahon Philip Metres and Solmaz Sharif to novels on intergenerational trauma by Kate Morton the sexual abuse of women by Miriam Toews and growing up in poverty by Douglas Stuart Choice ,2009

The British National Bibliography Arthur James Wells,2009 **Critical Digital Studies** Arthur Kroker,Marilouise Kroker,2008-01-01 Since its initial publication Critical Digital Studies has proven an indispensable guide to understanding digitally mediated culture Bringing together the leading scholars in this growing field internationally renowned scholars Arthur and Marilouise Kroker present an innovative and interdisciplinary survey of the relationship between humanity and technology The reader offers a study of our digital future a means of understanding the world with new analytic tools and means of communication that are defining the twenty first century The second edition includes new essays on the impact of social networking technologies and new media A new section New Digital Media presents important new articles on topics including hacktivism in the age of digital power and the relationship between gaming and capitalism The extraordinary range and depth of the first edition has been maintained in this new edition Critical Digital Studies will continue to provide the leading edge to readers wanting to understand the complex intersection of digital culture and human knowledge

American Empire in the Pacific Arthur Power Dudden,2004 American Empire in the Pacific explores the empire which emerged from the Oregon Treaty of 1846 with Great Britain and the outcome of the Mexican War in 1848 Together they signalled the mastery of the United States over the continent of North America the Pacific Ocean and the ancient civilizations of Asia at last lay within reach England s East India Company in the 17th and 18th centuries had introduced Asian wares including tea to the American colonists but wars against France and then the struggle for American independence held back expansion by Yankee entrepreneurs until 1783 Thereafter from the Atlantic seaboard American ships began regularly to reach China Merchants sailors and missionaries motivated toward trade and redemption like the Europeans they met along the way encountered the exotic peoples and cultures of the Pacific Would be empire builders projected a manifest destiny without limits Russian Alaska the native kingdom of Hawai i Japan Korea Samoa and Spain s Philippine Islands as well as a transcontinental railroad and an isthmian canal acquired strategic significance in American minds in time to outweigh both commerce and conversion *The Great War* Herbert Wrigley Wilson,Sir John Alexander Hammerton,1916 **Lincoln Herald** ,1989 **The Disjunctive Empire of International Relations** Leong Yew,2003 Yew imparts that contemporary forms of imperialism revolve around a disjunctive logic allowing cultural civilizing and solipsistic feelings of classical

European imperialism to interoperate with newer and morally rectified strains of American superpower dominance In order to explore how such an interoperability is possible this book begins with a theoretical overview of how imperialism should be conceptualized how it operates and how it produces a type of economy that allows it to evolve in accordance with historical transformations without losing sight of its ongoing emphasis of Western hegemony ambivalent form of US imperialism is constituted leading to the inability within American society to effectively handle non state political opposition There are therefore a number of intended readerships which include researchers and academics interested in new ways of thinking about imperialism and international relations and a wider audience in cultural studies postcolonial studies and critical theory
