EXCERPT FROM THE BOOK A man drowns Let's say that a man is in danger of drowning and you are the only one around who can help The moral course of action would be to assist only if the danger to one's self is minimal It is a sign of lowered self-esteem to deem a stranger's life just as valuable as your own by risking yours to save theirs This would not be the case if the drowning person were someone you loved deeply In this scenario risking your life to save this person is not seen as a sacrifice at all The reason because saving a loved one is rooted in a certain selfishness no one wants to watch a loved one drown knowing they could have done something to prevent it from happening Buy a copy to keep reading

The Virtue of Selfishness Ayn Rand,1964 **The Virtue of Selfishness, Etc** Ayn Rand,1964 **The Virtue of Selfishness, with Additional Articles of Nathaniel Branden** Syn Rand,1964 **Ayn Rand** Hector Davidson, Ayn Rand s philosophy known as Objectivism centers around a few key principles Metaphysics Rand asserts the primacy of existence She argues that reality exists independent of our perceptions or beliefs and that it is knowable through reason Epistemology She champions reason as the only means of acquiring knowledge According to Rand reason is the faculty that identifies and integrates the material provided by our senses Ethics Rand s ethical theory is based on rational self interest or egoism She argues that individuals should act in their own best interest and that this is both moral and practical The virtue of selfishness as she terms it means pursuing one s own happiness as the highest moral aim Politics Rand advocates for laissez faire capitalism as the ideal political system She believes that the government s sole role should be to protect individual rights through the police military and judiciary but not to interfere in the economy or individual choices Aesthetics In her view art is a reflection of an artist s values and vision of life She supports Romantic Realism where art is a representation of life as it could be and should be celebrating human potential and achievement

After Multiculturalism John F. Welsh,2008 After Multiculturalism The Discourse on Race and the Dialectics of Liberty provides a unique critique of multiculturalist thought in social theory and public policy from an individualist perspective Contemporary academic and policy discourse on race and racism in the United States is dominated by collectivist social theories that are founded on the idea that the only meaningful challenges to racism are those that foster collective social identities and seek to influence and direct the use of state power in the interest of particular racial and ethnic groups Multiculturalism is the prevailing incarnation of anti racist thought that informs and mediates political process and organizational life in the United States The multicultural discourse on race has become tribalist anti western anti market and statist After Multiculturalism challenges the notion that collectivist and statist ideologies own racism as an educational and public policy issue Welsh demonstrates that individualist philosophies entail critiques of racism that follow directly from their anti collectivist and anti statist foundations He argues that multiculturalism is unlikely to promote the types of social action and changes essential to overcoming racism and that the individualist and libertarian ideas discussed in the book make important contributions toward the realization of a world free of racial domination To this end the ideas of Ayn Rand Murray Rothbard Benjamin Benjamin Tucker Lysander Spooner Max Stirner and contemporary libertarian scholars are discussed to the lay the foundation for a critique of multiculturalism The book explores the concepts of post ethnicity and transracialism as individualist and libertarian expressions of a society after multiculturalism Welsh s discussions of transracialism and post ethnicity constitute unique and important contributions to social thought This book will hold great interest for scholars and students concerned with race ethnicity political theory or individualist thought as well as scholars and students of the history of ideas
