The Week The World Stood Still Inside The Secret:

The Week the World Stood Still Sheldon M. Stern, 2005-01-18 The Cuban missile crisis was the most dangerous confrontation of the Cold War and the most perilous moment in American history In this dramatic narrative written especially for students and general readers Sheldon M Stern longtime historian at the John F Kennedy Library enables the reader to follow the often harrowing twists and turns of the crisis Based on the author s authoritative transcriptions of the secretly recorded ExComm meetings the book conveys the emotional ambiance of the meetings by capturing striking moments of tension and anger as well as occasional humorous intervals Unlike today s readers the participants did not have the luxury of knowing how this potentially catastrophic showdown would turn out and their uncertainty often gives their discussions the nerve racking quality of a fictional thriller As President Kennedy told his advisers What we are doing is throwing down a card on the table in a game which we don t know the ending of Stern documents that JFK and his administration bore a substantial share of the responsibility for the crisis Covert operations in Cuba including efforts to kill Fidel Castro had convinced Nikita Khrushchev that only the deployment of nuclear weapons could protect Cuba from imminent attack However President Kennedy a seasoned Cold Warrior in public was deeply suspicious of military solutions to political problems and appalled by the prospect of nuclear war He consistently steered policy makers away from an apocalyptic nuclear conflict measuring each move and countermove with an eye to averting what he called with stark eloquence the final failure

With Stars in Their Eyes Jim Bernard Breckinridge, Alec M. Pridgeon, 2022 The incredible story of the Meinel's has never been told nor have their accomplishments and contributions ever been adequately recounted in one publication This book is an effort to redress that oversight using interviews from those who knew them best their own prodigious body of work including an unpublished autobiography and documentation in Presidential libraries as well as universities and the National Archives

Russian Foreign Policy toward Missile Defense Bilyana Lilly, 2014-08-21 This book is devoted to one of the central issues in U S Russian and NATO Russian relations ballistic missile defense Drawing on more than 2 000 primary sources interviews with Russian and NATO officials and a variety of Russian and Western publications this book offers an unparalleled in depth analysis of the reasons behind Russia s policy towards the construction of a U S ballistic missile defense in Europe It provides a critical assessment of the decision making mechanisms that shape Russia s position on ballistic missile defense as well as Russia s strategic relations with the United States and Russia s interaction with European and non European powers Lilly argues that contrary to Moscow s official claims during the Putin era Russian objections to the construction of ballistic missile defense in Europe have not been wholly dictated by security concerns To Russia missile defense is not purely an issue in and of itself but rather a symbol and

instrument of broader political considerations At the international level the factors that have shaped Russia's response include Moscow's perception of the overall state of U S Russian relations the Kremlin's capacity to project influence and power abroad and NATO's behavior in the post Soviet space Domestically the issue of missile defense has been a facilitating instrument for strengthening Putin's regime and justifying military modernization Taken together these instrumental considerations and their fluctuating intensity in different periods prompt the Russian leadership to pursue contradictory policy approaches simultaneously On the one hand the Kremlin seeks U S cooperation while on the other hand it threatens retaliation and reinforces Russian offensive capabilities The result is Moscow's incoherence inconsistency and double speak over the issue of missile defense
