Liberty for All Elizabeth Price Foley,2008-10-01 divIn the opening chapter of this book Elizabeth Price Foley writes The slow steady and silent subversion of the Constitution has been a revolution that Americans appear to have slept through unaware that the blessings of liberty bestowed upon them by the founding generation were being eroded She proceeds to explain how by abandoning the founding principles of limited government and individual liberty we have become entangled in a labyrinth of laws that regulate virtually every aspect of behavior and limit what we can say read see consume and do Foley contends that the United States has become a nation of too many laws where citizens retain precious few pockets of individual liberty With a close analysis of urgent constitutional questions abortion physician assisted suicide medical marijuana gay marriage cloning and U S drug policy Foley shows how current constitutional interpretation has gone astray Without the bias of any particular political agenda she argues convincingly that we need to return to original conceptions of the Constitution and restore personal freedoms that have gradually diminished over time

DIV The Contraception Deception: Catholic Teaching on Birth Control Patrick Coffin,2018-05-01 The Contraception Deception Catholic Teaching on Birth Control by author Patrick Coffin is a comprehensive assessment of the Church s sexual ethic In this expanded revised edition of Sex Au Naturel What It is and Why It s Good for Your Marriage Coffin demonstrates how the rejection of Humanae Vitae impacts more than just our national birthrates With relevant insight into the development and reception of Paul VI s landmark 1968 encyclical Coffin explains why Humanae Vitae is more timely than ever In The Contraception Deception you ll learn where exactly the Bible teaches against birth control the differences between contraception and natural family planning hint they re more profound than you think why other reproductive technologies fall short of God s vision for marriage and family and most importantly how to rely on the ever present grace of God rather than your own strength in faithfully following this challenging life giving aspect of Christian discipleship From Truth and truth Francis Etheredge,2016-01-14 We begin philosophising cf Fides et Ratio 3 30 without realising that we are

philosophers but in time we discover our own identity as philosophers and at the same time come to critically examine it. What therefore is the interrelationship between reason and sense indeed is not sense subtly sensitive through reason. Questions then arise out of our life, our observations and from what we learn. But it is not only about being ready, well trained or perfect in our reasoning; rather it is about taking up the impulse and the task of seeking the truth. On the one hand then we can question everything and end up with nothing; but on the other hand there are many points of departure: experience, maxims and the wisdom which comes through many advisers. Prov 15:22: Ideas abound about what might be the case, but a philosophical investigation is also about coming into the presence of being. Many people have gone before and go with us and will come after us and therefore this book marks a contribution to understanding both the activity of philosophising and the conversation about what is. *cf Fides et Ratio* 44. We discover that to exist is to search through the apparent contradictions in our experience and to find eventually that there are both good foundations and buildings begun and also great unanswered or unsatisfactorily answered questions. There is an ongoing work too to establish the mystery of the person implicated in human action. Therefore there is both the inveterate call of the subject to be investigated and at the same time the ever present need of the grace of perseverance to pursue it. This book is also about the slow discovery of the beautiful but inadequate nature of natural truth. The wonder of natural truth is that it exists like the literal sense, a kind of foundational reasoning; however just as Revelation perfects natural truth so the human person is a living expression of the whole literal and spiritual sense of created being. Hence the title of this volume, *Faithful Reason*, makes explicit a witness to what is beyond itself.

Life, Love, and Sex Joseph H. Casey S.J., 2004-04-12. People are being forced today to take a stand on same sex marriage, assisted suicide and capital punishment. As they ponder how to vote on these issues a critical question emerges: Is this morally right? At the same time people have become confused about the morality of sex in general. What should they teach their teenagers and how talk with their older sons and daughters about living together? Undergirding current sexual practice is the unquestioned acceptance of contraception. Should contraception be explicitly examined? Besides clarifying each issue I let the reader know what the Church teaches using the Catechism of the Catholic Church and Pope John Paul II's encyclicals. And I show how reasonable the Church's position is utilizing the writings of Germain Grisez, a distinguished lay moral theologian and philosopher. To ensure readers understand Grisez's solutions to these diverse issues I explain in simple terms his ethical approach. Non-Catholics will find especially significant the human reasoning behind such teachings. They and Catholics can dialogue on this level. The Pope's early writings on conjugal love may prove impressive. People just do not discuss abortion today for positions seem hardened and unbreachable. By posing a series of fundamental questions logically interrelated I hope to breach the unbreachable. At least it will be clear precisely where participants part company from one another. The most sensitive issue I find to be homosexuality I have rewritten the treatment a number of times in an effort to be clear, fair and sensitive.

Eugenics, 1928 Sex Au Naturel Patrick Coffin, 2010. *Sex Au Naturel* What It Is and Why It Is

Good For Your Marriage by radio host Patrick Coffin is a bracing ride across the landscape of the Catholic sexual ethic. If you're looking for intellectual ammo with which to defend and explain the teaching of *Humanae Vitae* or if you reject it altogether, you'll agree that Coffin approaches the topic from a wide array of new and persuasive angles. With humor and enthusiasm and a total absence of moralizing, you'll learn why Paul VI's landmark 1968 encyclical was widely rejected a generation ago and why it's gaining new respectability now. Where exactly the Bible teaches against birth control. The differences between contraception and natural family planning hint they're more profound than you think. The meaning of the natural law and how it applies to birth control. How the dogma of the Blessed Trinity implicitly condemns birth control. That every single Protestant denomination rejected birth control until 1930. Why the myth of overpopulation is used against the Church and how to answer it. How faithful adherence to the teaching of *Humanae Vitae* is causally related to marital happiness and longevity. Why it's not too late to start over even if you've been sterilized. How to rely on the ever-present grace of God rather than your own strength in faithfully following this challenging life-giving aspect of Christian discipleship. Much, much more.

Contraception Anna Glasier, Beverly Winikoff, 2005. A detailed guide to currently available methods of birth control.

Medical Ethics in the Catholic Tradition Margaret M. Hogan, Edward M. Hogan, Annique K. Hogan, Matthew J.D.

Hogan, 2025-08-08. This book is a comprehensive survey and a sustained treatment of the major topics in contemporary medical ethics from within the Roman Catholic tradition. It brings together perspectives from philosophy, theology, medicine, and law to explore the traditions that undergird Catholic medical ethics. The authors of this book are respectively a philosopher, theologian, physician, and attorney. Their commitment to the Roman Catholic tradition provides the foundational principles for addressing a wide range of issues in contemporary medical ethics. These topics include abortion, reproduction, cloning to produce children, cloning for biomedical research, embryonic stem cell use, genetics as screening, testing, therapy, enhancement, engineering, specific special relations such as maternal-fetal, physician-patient, mentally ill caretakers, health care, and end-of-life issues. Furthermore, the book elaborates on the ways in which the authors' professions and disciplines act in service to medicine as an instrument for real human flourishing. *Medical Ethics in the Catholic Tradition* is for the physician who would like to know more about the philosophical, theological, legal traditions that undergird the Catholic position. It is for the attorney who would like to know more about the philosophical, theological, medical traditions that undergird the Catholic position. Similarly, the philosopher or theologian can find here the appropriate information to understand how science and law contribute to the development of the Catholic position on major issues in medical ethics.

A Catechism for Health Care Stephen Napier, John M. Travaline, 2024-06. The Catholic Church's teachings on ethical issues arising in healthcare delivery and biomedical science are distributed across a plethora of different places ranging from papal allocutions, encyclicals, instructions by the Congregation for the Doctrine of the Faith, and guidance documents authored by various congregations of bishops. Furthermore, they are distributed throughout time ranging from, for example,

the Didache or teaching of the 12 apostles circa 1st Century to Pope Pius XII's address in 1954 addressing ethical issues in transplantation and onto the 2009 instruction entitled *Dignitas personae*. It is difficult for a wider audience to make sense of these sources on the various issues arising in healthcare delivery and scientific research but the editors of *A Catechism for Health Care* have collated them in a way that makes them easier to understand. The purpose of this book is to present the teachings of the Catholic Church as they pertain to ethical issues arising in the healthcare and biomedical sciences. The premise of the project is that the Catholic Church's teaching speaks in an accessible way to a wide range of people concerned about healthcare ethics. It is important to present these teachings concisely. The book is ordered around numerous questions concerning the most common practices in health care that have ethical dimensions. It then provides concise answers to these questions as are found in various magisterial Church documents. These answers are refreshingly clear and to the point.

The New Age Arthur Moore, 1928 *Living the Mystery of Marriage* Dr. Perry J. Cahall, 2020-02-20 This unique book will assist those called to marriage to live out the wonderful beautiful and challenging mystery of married love by presenting a theology, spirituality and morality of marriage in a widely accessible level. **Sex and the Marriage Covenant** John Kippley, 2014-01-23

The thesis of this book is that God intends that sexual intercourse should be at least implicitly a renewal of the marriage covenant. From this it follows that the marriage covenant provides the criterion to evaluate the morality of every sexual act. Thus the title *Sex and the Marriage Covenant* is an appropriate description of the book's contents. Marriage comes into being by a couple unreservedly entering God's covenant of marriage. Contraceptive intercourse contradicts the very essence of the marriage covenant. From these considerations Kippley developed the covenant theology of sexuality described in this book. **Reproductive Ethics in Clinical Practice** Julie Chor, Katie Watson, 2021-06-29

This volume collects essays by the United States leading authorities on reproductive ethics: lawyers, doctors and social scientists, offering clinicians, students and lay readers guidance on a broad range of cutting edge issues such as reproductive justice, religion in reproductive health care, abortion, assisted reproduction and fetal surgery, all framed by the co-editors' overviews and study questions. *The Mystery of Marriage: A Theology of the Body and the Sacrament* Perry J. Cahall, 2014-12-01

This remarkable study offers a comprehensive explanation of the Catholic Church's teaching on the sacrament of marriage. Incorporating the rich insights found in St John Paul II's *Theology of the Body*, Dr Cahall presents a theology of marriage that incorporates the biblical, systematic, pastoral and historical traditions which have shaped our understanding of this sacrament.

Theology of the Body Explained Christopher West, 2003 Christopher West makes John Paul II's theology of the body available for the first time to people at all levels within the Christian community. Love, sexuality and human flourishing are inseparable. Those who doubted this will find West's book a transforming experience and those who have been wounded will find liberation and peace. A wonderful education on the meaning of being human. Christopher West teaches the theology of the body and sexual ethics at St John Vianney Theological Seminary in Denver. He is also visiting faculty member of the John
