The Venice Chronicles:

The Venice Chronicles Enrico Casarosa, 2008 Cartoonist Enrico Casarosa chronicles his trip to Venice Italy

Chronicling History Sharon Dale, 2007-01-01 Literally thousands of annals chronicles and histories were produced in Italy during the Middle Ages ranging from fragments to polished humanist treatises This book is composed of a set of case studies exploring the kinds of historical writing most characteristic of the period We might expect a typical medieval chronicler to be a monk or cleric but the chroniclers of communal and Renaissance Italy were overwhelmingly secular Many were jurists or notaries whose professions granted them access to political institutions and public debate The mix of the anecdotal and the cosmic of portents and politics makes these writers engaging to read While chroniclers may have had different reasons to write and often very different points of view they shared the belief that knowing the past might explain the present Moreover their audiences usually shared the worldview and civic identity of the historians so these texts are glimpses into deeper cultural and intellectual contexts Seen more broadly chronicles are far more entertaining and informative than narratives They become part of the very history they are describing The Making of the Modern Greeks Petros T.

Pizani, 2020-11-19 How is a society historically formed How are its historical references its economy its social structures and its language shaped This book explores these general questions with reference to the case of the Modern Greeks Who were they How did they re emerge on the historical stage after centuries of obscurity since the decline of Antiquity How was the phenomenon described as New Hellenism historically shaped What were the historical processes that enabled the New Hellenes to differentiate themselves from the Ottoman system of rule and become distinct from the other Balkan national and cultural groups This text examines the emergence and formation of various social groups and populations that shaped the historical phenomenon of New Hellenism It shows that the Modern Greeks were historically formed by way of successive differentiations from the Ottoman frames without initially appearing as homogenous The book scrutinizes the making of all such differentiations for every social group in each separate geographical area The activities of these groups in each area eventually formed a distinct economic and cultural space within the confines of the Ottoman Empire the space of the New Hellenism Don Owen Steve Gravestock, Toronto International Film Festival Group, 2005-10-06 Don Owen perhaps best known as the director of the seminal 1964 feature *Nobody Waved Goodbye* is one of the central figures in the development of English Canadian cinema Owen spent much of his career at the National Film Board of Canada working on both short documentary films including *Runner Cowboy and Indian* and *You Don't Back Down* and feature length works such as *The Ernie Game* which sparked a scandal in Parliament the innovative Godard influenced short features *Notes for a Film about Donna and Gail* and *Ladies and Gentlemen Mr Leonard Cohen* a portrait of the poet co directed with Donald Brittain In *Don Owen Notes on a Filmmaker and His Culture* the first book length treatment of themes and motifs in Owen's work Steve Gravestock situates Owen within a cultural context while focusing on the development of the English Canadian film industry

in the 1960s and beyond The book also features interviews with Owen and many of his principal collaborators Published by the Toronto International Film Festival and distributed in Canada by Wilfrid Laurier University Press Distributed outside Canada by Indiana University Press **Decoding Debate in the Venetian Senate** Grabiela Rojas Molina,2022-08-29 Debate within the Venetian Senate at turn of the fifteenth century has long been opaque as only an elite few were allowed access to Senate proceedings their participation bound to secrecy This volume offers a new interpretation of scribal intent enabling hidden aspects of those discussions to come to light By using documentation related to Venice s involvement in Albanian territories as a case study this study unfolds the systematic yet secretive method by which scribes classified Senate discussions The registers emerge as triumphs of precise and pragmatic codification within a milieu of information overflow

Report of the Work of the Public Archives ... Public Archives of Canada,1884 Civil Blood Amanda G.

Madden,2025-11-15 Civil Blood is a study of the practice of vendetta among the civic elites in sixteenth century Italy and illustrates the complex and integral role that vendetta violence played in civic life and state formation on the winding path to state centralization At many temporal geographic and political points in early modern Italy vendetta appears to have not only disrupted but also constituted the processes by which the modern state emerged Amanda G Madden examines vendetta as both central to politics and as an engine of change and illustrates the degree to which key phenomena of the period state centralization growing bureaucracies institutional reforms and the process of state formation were interpenetrated by and not simply opposed to ongoing factional violence among civic elites Madden further illuminates in Civil Blood how elites utilized violent enmities to maintain a grip on political control and negotiated with the duke concerning political power and civic prerogatives As a result ruling elites not only defined their own place in governance but also shaped the function and definition of government A Twice-told Tale Santiago Juan-Navarro,Theodore Robert Young,2001 Essays on Iberian views of the age of conquest through literature and cinema
