Conspiracy Ryan Holiday, 2019-06-25 An NPR Book Concierge Best Book of 2018 A Sunday Times of London Pick of the Paperbacks A stunning story about how power works in the modern age the book the New York Times called one helluva page turner and The Sunday Times of London celebrated as riveting an astonishing modern media conspiracy that is a fantastic read Pick up the book everyone is talking about In 2007 a short blogpost on Valleywag the Silicon Valley vertical of Gawker Media outed PayPal founder and billionaire investor Peter Thiel as gay Thiel's sexuality had been known to close friends and family but he didn't consider himself a public figure and believed the information was private This post would be the casus belli for a meticulously plotted conspiracy that would end nearly a decade later with a 140 million dollar judgment against Gawker its bankruptcy and with Nick Denton Gawker's CEO and founder out of a job Only later would the world learn that Gawker's demise was not incidental it had been masterminded by Thiel For years Thiel had searched endlessly for a solution to what he'd come to call the Gawker Problem When an unmarked envelope delivered an illegally recorded sex tape of Hogan with his best friend's wife Gawker had seen the chance for millions of pageviews and to say the things that others were afraid to say Thiel saw their publication of the tape as the opportunity he was looking for He would come to pit Hogan against Gawker in a multi year proxy war through the Florida legal system while Gawker remained confidently convinced they would prevail as they had over so many other lawsuits until it was too late The verdict would stun the world and so would Peter's ultimate unmasking as the man who had set it all in motion Why had he done this How had no one discovered it What would this mean for the First Amendment For privacy For culture In Holiday's masterful telling of this nearly unbelievable conspiracy informed by interviews with all the key players this case transcends the narrative of how one billionaire took down a media

empire or the current state of the free press It s a study in power strategy and one of the most wildly ambitious and successful secret plots in recent memory Some will cheer Gawker s destruction and others will lament it but after reading these pages and seeing the access the author was given no one will deny that there is something ruthless and brilliant about Peter Thiel s shocking attempt to shake up the world
