"Trusting in the Pensions Promise" Great Britain. Department for Work and Pensions, 2006 Trusting in the Pensions Promise Great Britain: Parliamentary and Health Service Ombudsman, 2006-03-14 This report sets out the results of the Ombudsman's investigation into over 200 complaints about the security of final salary occupational pension schemes and alleged delays in the winding up of certain such schemes and the involvement of public bodies in this matter Chapter 1 explains the Ombudsman's role and jurisdiction and the background to the investigation Chapter 2 details the complaints and the Government's initial response chapter 3 sets out the results of further enquiries to help understand the context of the complaints The fourth chapter provides the evidence that the investigation has disclosed through consideration of departmental files official publications and other documentary sources Chapters 5 and 6 contain the findings and the recommendations The seventh chapter gives the Ombudsman's assessment of the Government response appendix D to the report and the final chapter is the Ombudsman's conclusion The Ombudsman makes three findings of maladministration by public bodies i official information about the security that members of final salary schemes could expect from the minimum funding requirement MFR was sometimes inaccurate often incomplete largely inconsistent and therefore potentially misleading ii the response by DWP to the actuarial profession's recommendation that disclosure should be made to pension scheme members of the risks of wind up and the risks to accrued pension rights iii the decision in 2002 by DWP to approve a change to the MFR basis This maladministration was a significant contributory factor in the creation of the financial losses suffered by individuals amounting to injustice Recommendations include restoration of the core pension and non core benefits and some consolatory payments to those fully covered by the recommendations an apology to scheme trustees for the effects of the maladministration and a review with the pensions industry to improve the time taken to wind up schemes The Government however is minded not to comply with all of the recommendations and so the Ombudsman reports to both Houses of Parliament that she has identified injustice caused by maladministration which the Government does not propose to remedy Pensions and Legal Policy Amanda Cooke, 2021-02-11 This book explores the historical position of pensions law in the UK and the recent influences which have led to the introduction of Auto Enrolment and subsequent reforms Alternative models such as the US and Australia are also considered as well as the function of law in bringing about political changes The question of saving for retirement is of national and international importance and many governments are wrestling with the issue of how to deal with the pension funding crisis Consequently political policy has in many cases combined with behavioural science to inform new laws which have acted to shift the burden from the state into the private sector Around the world responsibility is being moved onto individuals and employers as the state retreats from provision of state support in retirement this book offers a sophisticated analysis of the role of legal intervention to facilitate this shift The book explores the work of behavioural economics its global influence on understanding financial decision making and its application to

legislation which seeks to influence consumer outcomes Drawing on qualitative empirical research to explore the experience of implementation of Auto Enrolment this timely work considers the interaction with the work of behavioural science to highlight the social costs of the new regulatory regime This title is included in Bloomsbury Professional s Pensions Law online service

Automatic enrolment in workplace pensions and the National Employment Savings Trust Great Britain: Parliament: House of Commons: Work and Pensions Committee,2012-03-15 The Government established NEST as a low cost pension scheme to help deliver the auto enrolment programme and to address a market failure in the pensions industry which meant that many employers and employees were unable to access low cost good quality pension provision However the Committee believes that certain restrictions placed on NEST will create complexity for employers and will disadvantage some employees The Committee s report recommends that if state aid rules allow the Government should remove the following restrictions the cap on the annual contributions an individual can make to a NEST scheme and the ban on individuals transferring existing pension pots into NEST The Committee further urges the Government to proceed with its plans for State Pension reform introducing a flat rate State Pension and reducing the level of means testing without delay The report also highlights the difficulties and complexity employers and employees currently face in comparing the fees and charges applied by pension providers and recommends that from 2013 onwards if some auto enrolment schemes still have hidden charges or charges that represent poor value for money the Government should use its powers to intervene Auto enrolment will impose new costs and may be particularly challenging for small employers however the Committee considers that the Government has taken appropriate steps to minimise the impact on businesses through its gradual and flexible approach staging and phasing to implementation Exempting small employers would create significant complexity as well as excluding many employees from the benefits of workplace pension saving
