This is the book of abstracts for the Migration Conference 2020 8 to 11 September We are pleased to welcome you to the 8th Migration Conference The Migration Conference 2020 is held online via Microsoft Teams platform due to COVID 19 Pandemic restrictions We have as usual covering a wide array of topics in this year's edition too There are about 350 presentations and debates running over 4 days from 8th to 11th September 2020 We have tried to address the time zone differences by moving sessions towards mid day and grouping presentations where possible according to time zones However we believe this is not perfect to accommodate hundreds of colleagues from Brazil to Japan and Australia to Canada PLEASE NOTE all times are GMT +1 British Summer Time BST MS Teams will normally show the times according to your computers local time Our all women keynote speakers line up this year features Nissa Finney Jelena Dzankic Martina Cvajner Elli Heikkila Agnes Igoye and Helena Nilsson Although the main language of the conference is English this year we will have linguistic diversity as usual and there will also be some sessions in Spanish and Turkish We thank all participants invited speakers and conference committees for their efforts and contribution We are particularly grateful to hundreds of colleagues who served as reviewers and helped the selection process

Turkish Migration Conference 2015 Selected Proceedings Ibrahim Sirkeci, Güven Şeker, Ali Tilbe, Mustafa Ökmen, Pınar Yazgan, Deniz Eroğlu, 2015 This book is a collection of selected papers presented at the 3rd Turkish Migration Conference TMC TMC 2015 was hosted by Charles University Prague Czech Republic from 25 to 27 June 2015 The TMC 2015 was the third event in the series that we were proud to organise and host at Charles University Prague This selection of papers presented at the conference are only a small portion of contributions Many other papers are included in edited books and submitted to refereed journals in due course There were a total of about 146 papers by over 200 authors presented in 40 parallel sessions and three plenary sessions at Jinonice Campus of Charles University Prague About a fifth of the sessions at the conference were in Turkish language although the main language was English Therefore some of the proceedings are in Turkish too The keynote speakers included Douglas Massey of Princeton University Caroline Brettell of Southern Methodist University and Nedim Gürsel of CNRS

Domestic and Regional Uncertainties in the New Turkey Alessio Chiriatti, Ozgur Tufekci, 2017-06-20 Turkey has faced in the last two decades a number of critical events like wars conflicts and frictions in the Balkans the Caucasus and the Middle East that have represented a huge challenge for its foreign policy and civil and economic interventions Turkish multi directionality and multidimensionality have been tested by these occurrences demonstrating that what some scholars and experts had defined as a model contained failures as well as success This book examines these dynamics through case

studies of the humanitarian cultural economic and political dimensions of Turkey's role in a diffuse neighbourhood in which the country has tried to exert its power in recent decades Starting from the questions that the Cold War and the arrival of the AKP in government have opened for Ankara the volume illustrates two of the most important sides of the Turkish strategic repositioning in the international system The first part is focused on the main humanitarian and political struggles in contemporary Turkish society while the second explores the main fault lines in Turkey's regional policy and the development of the country's foreign policy As such the book represents a valuable resource for both graduate and undergraduate students academics and researchers in the areas of Turkish studies foreign policy regional politics Middle Eastern studies security political economy and European studies as well as for the general public

Turkish Foreign Policy Pinar Gözen Ercan, 2017-04-07 Rich in its spatial scope this edited collection provides an extensive and detailed overview of contemporary Turkish foreign policy From the founding principles of foreign policy in the early republic to changing patterns during the second half of the 20th century this text not only charts underexplored periods in Turkish foreign policy history but also offers a fresh analysis of recent events with new challenges ever emerging in this region This volume is essential reading for students scholars and professionals of International Relations foreign policy and international law who would like to study Turkish foreign policy

Strategic Perspectives on Sustainable Development and Migration Issues in Turkey and Abroad Nigar Pösteki, 2019-08-06 The purpose of this book is to share the output of recent multidisciplinary research in Turkey performed by several academics regarding four main themes urban studies and sustainability local governments environmental and migration issues These are a significant agenda not only in Turkey but also in other countries One of the important elements that makes this book interesting and original is that it explains the problems by addressing specific issues through examples

It intends to bring from different perspectives innovative approaches to finding solutions to current problems A thread that runs through the study is the idea that the making and implementation of public policies at the local level will increase the success of achieving sustainability on a wider scale The book will have an intellectual impact not only on researchers students policy makers and bureaucrats but also on more general readers as an academic resource Political Science Abstracts ,2013-03-07 The 1996 Supplement of Political Science Abstracts contains 10 000 carefully prepared abstracts of materials from public affairs magazines major newspapers professional journals and books devoted to politics and political analysis The organization of the proceeding volumes has been retained intact as has the recently added list of subdisciplinary descriptors Users of earlier volumes will be on familiar ground while those new to Political Science Abstracts will find the instructions on page ix easy to master CONTENTS Volume 1 This Volume How to Use This Supplement ix Political Science Subdisciplinary Descriptors xi Index of Terms xiii Abstracts of Documents in This Supplement Volume 2 Bibliographic Index to the Abstracts ABILITY MINNESOTA 821 Volume 3 Bibliographic Index to the Abstracts MINORITY ZULU 1565 Author Index 2119 List of Periodicals Abstracted in This Supplement 2121 HOW TO USE THIS SUPPLEMENT Three simple steps are all that are needed to introduce the user to this easily accessible indexing system STEP 1 Turn to the Index of Terms and locate as many terms as possible that deal with your subject If you are interested in coverage of a more generic nature you may instead turn to the next page where key descriptors are listed that are associated with the major subject areas in political science and with their subdivisions Note that the index includes methodological as well as topical terms Numerical listings e g 24TH PAR C are located at the end of the alphabetical listing The Possibility and Limit of Liberal Middle Power Policies Kohei Imai,2017-12-13 This book is a comprehensive analysis of Turkish foreign policy through the concept of middle power The author explores why and how Turkey has constructed middle power identity based on liberal foreign policies in order to illuminate the change in post Cold War Turkish state identity in relation to foreign policy behaviors The author further explores state identity and how changes of circumstances norms state self perception and the perceptions of others effects that identity This is done first through a policy analysis of Turgut zal Necmettin Erbakan and Ismail Cem and second through an examination of AKP s foreign policy experiences and ideas especially in relation to Ahmet Davutoglu

Turkey and EU Integration Çigdem Nas,Yonca Özer,2017-05-18 What has been achieved regarding Turkey s efforts at integration to the EU and what obstacles remain to it achieving full membership Like other developing countries Turkey displays visible signs of advancement with rapid increases in living standards greater mobility and the rapid spread of technology Much of its legislation and political economic and administrative systems are also now aligned to the EU and this process has undoubtedly contributed to democratization and modernization At the same time problems in politics and society persist the Gezi protests limitations of freedom of expression frequent occupational accidents in the mining and construction sectors honour killings and political upheaval which has manifested itself most starkly with the recent coup attempt all call

attention to the challenges facing a country in the process of change Charting the political legal and economic relations between Turkey and the European Union since 1959 this book explores the relationship through phases such as association customs union and candidacy Each chapter covers a particular period in the relations and or a theme which has both current and overall relevance to the conduct of the relations In this way the authors examine the impact of the EU in affecting change what has been achieved and the obstacles that remain *The Political Economy of Narcotics* Julia

Buxton,2013-07-04 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America s strategic interest As a result US policy approaches emerge as a decisive factor in accounting for the failure of prohibition [The Migration Conference 2019 - Book of Abstracts and Programme](#) Fethiye

Rights of Migrant Workers: An Analysis of Migration Policies in Contemporary Turkey Sureyya Sonmez Efe, 2021-01-01 This insightful book discusses how policymakers define migrant workers status and rights at international and national levels Assessing the evolution of the language of rights for migrant workers in international law definition of migrant workers in Turkish legislation key political and economic factors on Turkish migration policies protection mechanisms that safeguard migrant workers rights it critically examines the policymaking processes at international regional and national levels and evaluates the impact of the values such as universal

or ethnocentric values on the definitions of status and rights of migrant workers The chapters evaluate the status and rights of migrant workers through the lens of cosmopolitan moral constructivism and examine the law making procedures and illustrate the dynamism of these processes with the inclusion of various conditions and actors The book dissects the key universal and national values that impact on rights of migrant workers This timely book challenges the rising right wing ethnocentric policy approaches to labour migration to migrant workers rights and problematises the existing legal definitions within migration policies that place the rights of migrant workers into a precarious policy sphere By entering the controversial political debate for labour migration and the policy making realm this book is ideal for scholars and researchers of political science international relations and social policy particularly those focusing on international labour migration and migration policies It will further benefit the policymakers and practitioners working on migration such as UN agencies NGOs civil societies and local authorities

Routledge Handbook of Public Diplomacy Nancy Snow, Nicholas J. Cull, 2020-01-20 The second edition of the Routledge Handbook of Public Diplomacy co edited by two leading scholars in the international relations subfield of public diplomacy includes 16 more chapters from the first Ten years later a new global landscape of public diplomacy has taken shape with major programs in graduate level public diplomacy studies worldwide What separates this handbook from others is its legacy and continuity from the first edition This first edition line up was more military focused than this edition a nod to the work of Philip M Taylor to whom this updated edition is dedicated This edition includes US content but all case studies are outside the United States not only to appeal to a global audience of scholars and practitioners but also as a way of offering something fresher than the US UK centric competition In Parts 1 4 original contributors are retained many with revised editions but new faces emerge Parts 5 and 6 include 16 global case studies in public diplomacy expanding the number of contributors by ten The concluding part of the book includes chapters on digital and corporate public diplomacy and a signature final chapter on the noosphere and noopolitik as they relate to public diplomacy Designed for a broad audience the Routledge Handbook of Public Diplomacy is encyclopedic in its range and depth of content yet is written in an accessible style that will appeal to both undergraduate and postgraduate students

Turkey and Greece Deniz Bölükbaşı, 2012-12-06 The Aegean disputes between Turkey and Greece represent one of the longest standing contemporary conflicts in existence These disagreements encompass a wide range of issues including the seabed maritime areas and airspace of the Aegean The territorial status of a number of islands and rocks as well as specific demilitarization conferred upon Greek islands in the Eastern Aegean under international treaties is also a matter of dispute The Aegean disputes which still remain unresolved are a major source of tension and conflict in Turkish Greek relations The stalemate in reaching a settlement is liable to give rise to new frictions resulting in an acute strain on relations From time to time the disputes have erupted into crisis bringing the two countries to the verge of confrontation These disputes are immensely complex and involve a broad range of interrelated issues with complicated political and legal aspects This study

represents the first attempt of its kind providing in a single volume a comprehensive review and analysis of the legal and political aspects of the Aegean disputes which constitute a unique case study in international law involving two neighbours in the Aegean that share a unique history and geography *Collective Securitization and Crisification of EU Policy Change* Christian Kaunert, Sarah Léonard, 2022-08-22 This book represents the first attempt to evaluate the first two decades of the EU counterterrorism policy It aims to assess the collective securitization process in EU counterterrorism evaluating this as a process between a construction of security threats and the development of supranational governance through crisification Compared to the lack of shared perception of the terrorist threat and the virtual absence of counterterrorism cooperation amongst European states in the 1970s and 1980s the existence of EU wide debates legislative instruments and practical cooperation nowadays is particularly remarkable The chapters in this volume explore this change and seek to explain it by drawing upon the concept of collective securitization The book posits that EU counterterrorism needs to be analysed as a process driven by collective securitization as part of an ongoing process of crisification that leads to increased supranational governance The book is both extremely relevant and timely for readers outside the area of research for several reasons First of all EU counterterrorism is often argued to be at the forefront of the EU s response to new security threats The EU acquis on the Area of Freedom Security and Justice AFSJ has grown significantly over the last years Consequently it is crucial and very timely to examine EU counterterrorism exactly 20 years after the first significant measures were adopted in the wake of 9 11 The chapters in this book were originally published in the journal *Global Affairs* Turkey and the Soviet Union During World War II Onur Isci, 2019-11-28 Based on newly accessible Turkish archival documents Onur Isci s study details the deterioration of diplomatic relations between Turkey and the Soviet Union during World War II Turkish Russian relations have a long history of conflict Under Ataturk relations improved he was a master balancer of the great powers During the Second World War however relations between Turkey and the Soviet Union plunged to several degrees below zero as Ottoman era Russophobia began to take hold in Turkish elite circles For the Russians hostility was based on long term apathy stemming from the enormous German investment in the Ottoman Empire for the Turks on the fear of Russian territorial ambitions This book offers a new interpretation of how Russian foreign policy drove Turkey into a peculiar neutrality in the Second World War and eventually into NATO Onur Isci argues that this was a great reversal of Ataturk era policies and that it was the burden of history not realpolitik that caused the move to the west during the Second World War
