Turkmenistan Strategies Of Power Dilemmas Of Development:

Turkmenistan: Strategies of Power, Dilemmas of Development Sebastien Peyrouse, 2015-02-12 This book is the first comprehensive introduction to contemporary Turkmenistan in English *Informal Power in the Greater Middle East* Luca Anceschi, Gennaro Gervasio, Andrea Teti, 2014-02-05 Over the last decade or so academic and non academic observers have focussed mainly if not exclusively on the institutions and places of formal power in the Greater Middle East depicting politics in the region as a small area limited to local authoritarian rulers In contrast this book aims to explore the hidden geographies of power i e the political dynamics developing inside in parallel to and beyond institutional forums arguing that these hidden geographies play a crucial role both in support of and in opposition to official power By observing less frequented spaces of power co option and negotiation and particularly by focusing on the interplay between formal and informal power this interdisciplinary collection provides new insights in the study of the intersection between policy making and practical political dynamics in the Greater Middle East Contributing a fresh perspective to a much discussed topic *Informal Power in the Greater Middle East* will be an invaluable resource for students scholars and those interested in the politics of the region

Soft Power in Central Asia Kirill Nourzhanov, Sebastien Peyrouse, 2021-05-25 Central Asia often evokes images of imperial power rivalry dating back to the 19th century Yet as the region s international politics becomes more complex in the age of globalization the need for new ways of looking at its many actors is more pressing than ever Today even the traditional great powers rely increasingly on subtle forms of influence to augment their military might and economic clout in order to achieve their objectives in Central Asia Bearing this in mind *Soft Power in Central Asia* examines the patterns of attraction and persuasion that help shape the political choices of countries in the region Starting with an investigation of soft power projection by the US Russia and China it sheds light on normative transfer and public diplomacy of the European Union Turkey and Israel and concludes with a discussion of the Central Asian republics active stance in the competition for the hearts and minds Containing original chapters contributed by leading experts in the field the volume will appeal to scholars and professionals with interest in international relations political science and Central Asian studies **Symbolism and Politics** Graeme Gill, Luis F. Angosto-Ferrandez, 2020-05-21 *Symbolism and Politics* is a timely intervention into ongoing debates around the function of political symbols in a historical period characterized by volatile electoral behaviour fragmented societies in search of collective identifications and increasingly polarized political models Symbols are central features of organized human life helping to define perception shaping the way we view the world and understand what goes on within it But despite this key role in shaping understanding there is never a single interpretation of a symbol that everyone within the community will accept and the way in which symbols can mobilize antagonistic political factions demonstrates that they are as much a central element in power struggles as they are avenues to facilitate processes of identification This dual potential is the object of discussion in the chapters of this book which sheds new light on our

understanding of the political function of symbols in a historical period Symbolism and Politics will be of great interest to scholars working on Political Symbols Nationalism Regime Change and Political Transitions The chapters originally published as a special issue of Politics Religion Ideology **Central Asia Today** Sunatullo Jonboboev, Mirzokhid Rakhimov, Reimund Seidelmann, 2014-06-16 This collection of descriptions and analyses from scholars from Central Asia Xinjiang Kashmir and Siberia gives first a general overview about the geopolitics economics and politics of the Central Asian countries Kazakhstan Kyrgyzstan Tajikistan Turkmenistan Uzbekistan plus a details description of their foreign policy towards their neighborhood the region and the further abroad Russia India China This is complemented by studies on the relations between Central Asia on the one side and China India and Russia on the other hand Secondly the history problems and perspectives of the Central Asian regionalization and trans regional SCO OSCE process is discussed and evaluated Third problems such as Islamism in Central Asia are studied The book is not only a coherent handbook on Central Asia but presents the views of the academic generation of the newly independent Central Asian countries It gives a comprehensive overview about foreign policies and Central Asian relations with the big neighbors China Russia and India as well as a differentiated discussion on the regionalization process Neue Bücher und Aufsätze in der Bibliothek Germany. Bundestag. Bibliothek, 2012 **Peace Strategies in Central Asia** Tabasum Firdous, 2009 The present study offers an assessment of security concerns and sources of unrest and possible threats to the peace following the Soviet collapse in 1991 It deals with the transition period of the five Central Asian States from a Communist system to a democratic one Economic difficulties border issues and global competition pose risks to regional security Other volatile and widespread elements that manifest in ethno national and ethno territorial conflicts poverty unemployment arms smuggling and drug trafficking have also been dealt with The book focuses on the growing influence of USA Russia China Iran and Turkey in the Central Asian states The book would be of great interest to scholars policy makers and academics involved in the research on the Central Asian studies *Potential for the Deployment of Oil and Gas Revenues in the Caspian Sea Countries-- Azerbaijan, Kazakhstan, and Turkmenistan* Igor Alexander Lukashov, 2000 *PAIS International in Print* Catherine Korvin, 2003-05 This book contains bibliographic references with abstracts and subject headings to public and social policy literature and to world politics published in print and electronic formats international focus *Sociological Abstracts* Leo P. Development Programme Turkmenistan. Treaties, etc. United Nations Development Programme. 1993 Oct. 5. United Nations Development Programme. World Development,1993 Turkmenistan and Central Asia After Niyazov Stephen Blank,2007 President Sapirmurat Niyazov the all powerful leader of Turkmenistan suddenly died on December 21 2006 Because Central Asia is a cockpit of great power rivalry and a potential theater in the Global War on Terrorism no sooner had Niyazov died than the great powers were all in Turkmenistan seeking to influence its future policies away from the neutrality that had been Niyazov s policy Turkmenistan s importance lies almost exclusively in its large natural gas holdings and proximity to the Caspian Sea and Iran Because energy is regarded as a strategic asset as much if not more than as a mere lubricant or commodity Russia Iran China and the United States have all been visibly engaged in competition for influence there The outcome of this competition and of the domestic struggle for power will have repercussions throughout Central Asia if not beyond The author shows the linkage between energy and security policies in Central Asia and in the policies of the major powers towards Central Asia Beyond this analysis he provides recommendations for U S policymakers as to how they should conduct themselves in this complex situation *Turkmenistan and Central Asia After Niyazov* Stephen Blank,ARMY WAR COLL STRATEGIC STUDIES INST CARLISLE BARRACKS PA.,2007-09-29 Sapirmurat Niyazov ruled Turkmenistan a small Central Asian country with enormous natural gas holdings like a sultan or latter day Stalin Therefore his sudden death on December 21 2006 opened the way not just to a domestic power struggle but also to fears of instability in Turkmenistan and Central Asia and to a major international struggle among the great powers Russia China Iran and the United States for influence over the new leadership This monograph examines the dimensions of the succession to Niyazov the great power struggle for influence in this key Central Asian state and concludes with recommendations for American policymakers It examines the ways in which the succession has been arranged and what its likely course is going to be one of very cautious and moderated reforms from the top It also takes account of the issue of succession in Central Asian regimes all of which are despotic and often dominated by families and clans Turkmenistan may be or serve as a kind of precedent of what we should soon expect elsewhere in Central Asia given the age of its leaderships Thus the dynamics of this succession are viewed in their regional as well as domestic context In similar fashion this monograph examines in detail Niyazov s energy policies and the rivalry among the key players Russia Iran China and America for influence over the future disposition of those holdings and the destination of future pipeline projects either to China Iran Russia Azerbaijan through the Caspian Sea and to Afghanistan India and Pakistan This great power rivalry also encompasses Russian and Iranian if not Chinese efforts to persuade Turkmenistan to renounce in deed or in rhetoric the neutrality that was Niyazov s consistent policy and join one or another of the regional security blocs that they are proposing On the other side of the ledger Washington is seeking to ensure that Turkmenistan s gas goes to states and markets other than exclusively to Russia and supports new

pipelines like those to China a projected pipeline to India through Afghanistan and Pakistan and a Trans Caspian pipeline to Azerbaijan Therefore the rivalries over Turkmen energy and security policies are entwined with each other and the examination of the nature of the great powers policy programs underscores the importance of Central Asia in global energy and security agendas Finally the monograph also makes specific recommendations to American policymakers as to how they should proceed in trying to ensure and even widen Turkmenistan s effective sovereignty and advance American interests in behalf of a Central Asian energy or security system that is not monopolized by Moscow
