What Excellent Community Colleges Do Preparing All Students For Success:

What Excellent Community Colleges Do Joshua S. Wyner, 2019-01-02 In *What Excellent Community Colleges Do* Joshua S. Wyner draws on the insights and evidence gained in administering the inaugural Aspen Prize for Community College Excellence. This book identifies four domains of excellence: degree completion, equity, student learning, and labor market success, and describes in rich detail the policies and practices that have allowed some community colleges to succeed in these domains. By starting with a holistic definition of excellence, measuring success against that definition, and then identifying practices and policies that align with high levels of student success, the author seeks to contribute to the growing body of knowledge about improving student success in community colleges. **Student Success in the Community**

College Terry U. O'Banion, Marguerite M. Culp, 2020-12-15 For much of the twentieth century, the definition of success for most community colleges revolved around student retention and graduation. This definition no longer works if it ever did. In *Student Success in the Community College: What Really Works*, respected community college leaders, researchers, and innovators argue that student success is about redesigning community colleges in a manner that is consistent with each college's mission, goals, student population, and resources. Concluding that there is no one-size-fits-all approach to increasing student success, chapter authors analyze national, state, and regional efforts to increase student success, identify principles institutions can use to frame student success initiatives, and outline specific actions community colleges can take to increase student and institutional success. *Student Success in the Community College: What Really Works* also provides concrete examples of effective student success initiatives in a variety of community college settings. **Enhancing Performance**

Enhancing Performance Sandra J. Balkema, Roberta C. Teahen, 2021-06-01 *Enhancing Performance: A Best Practices Guide for Innovations in Community Colleges* is a collection of essays from community college leaders across the country addressing challenges facing today's community colleges and providing practical, successful solutions their institutions have implemented. Some of the essays address foundational issues, including the role of innovation, strategic enrollment management, and campus safety strategies on the future of community colleges. In the essays, leaders suggest ways campuses can create opportunities for intentional student-faculty connections, provide revitalized advising services, and support the needs of marginalized student populations. The essays also address the role of community colleges in promoting civic engagement, responding to community crises, and addressing critical need. Each essay challenges us to delve deeper into the issues and find workable solutions. The essay authors are community college leaders who are alumni, faculty, or advisory board members in the doctoral program in Community College Leadership (DCCCL) Program at Ferris State University, Michigan. **Understanding the Work of Student Affairs Professionals at Minority Serving Institutions** Robert T. Phelan, 2016-04-08

Arguably the nation's community colleges have experienced more change in the last several years than they have over the prior 115 years of their existence Rapid changes in technology external pressures for accountability and student completion aggressive competition from other higher education institutions i.e. public for profit and private changes in enrollment demographics as well as new economic market and operational models stand to completely disrupt this relatively young enterprise Unrelenting Change provides useful practical examples for community college leaders as they seek to thoughtfully and strategically align their organization for the new dynamic in higher education Furthermore Unrelenting Change offers insights into the change process including institutional assessment and readiness consideration of cultural implications strategic intentions toward innovation as well as risk failure and success Rather than perceiving change and disruptive innovation as merely happenstance or luck the author provides discernment into the topic so as to give community college leaders solid guidance if not improved odds in undertaking this important competitive edge for the future of their intuitions and by extension their students Complete the Agenda in Higher Education Lee Ann Nutt, Latoya Hardman, 2019-01-12

Ellis, Linda Garcia, 2017-03-08

The American Association of Community Colleges AACC reports over 900 presidential transitions in the last five years It also estimated that nearly 50% of presidents will retire in the next 5 years The flood of imminent retirements of sitting presidents and other senior leaders from community colleges is widely known As community colleges are facing unprecedented challenges with the exodus of successful presidents Generation X leaders are stepping in to fulfill the vacant leadership positions This book is about them their views on the community college presidency new challenges facing community colleges balancing work and other obligations tapping future rock star leaders and what every president needs to know that was not taught in graduate school *Academic and Student Affairs in Collaboration* Mitchell A. Seymour, 2015-12-07 An era of accountability has swept over the higher education landscape Everyone it seems legislatures think tanks newspapers magazines books and bloggers wants to hold colleges and universities accountable They are attaching strings to budgets producing reports that read like expos s developing clever systems to rank and sort us and writing books and articles that describe the end of college as we know it According to them we need to be reformed reimagined and rebooted *Momentum* changes the conversation from how others are holding higher education accountable to

why colleges and universities need to embrace the need to demonstrate their own responsibility The responsibility paradigm that emerges fundamentally shifts the dialogue from fixing to preventing from reacting to creating from surviving to thriving To implement this new paradigm the dynamics of virtuous cycles are introduced and described These upward spirals build on their own successes and result in growing confidence a sense of vitality and resilience The future of these institutions isn't the result of outside pressure or reformers The future is something that can and should be created by those who take responsibility for it
