Was it just pure luck coincidence fate or a guardian angel that was looking after me Why had I escaped death on several occasions Was it my own quick thinking process and reaction time that was my salvation Could it possibly be a higher power imposing HIS will on my body and its destruction time table then quickly interceding I couldn't for the life of me figure out why in the eminent fate that was to befall me that I had escaped it grasp I couldn't figure out why I had a near death experience on several occasions only still to be here Was not my number up yet Was there a Divine power controlling my life's time table I needed to realize if I was unique in this experience or was it happening to others as well as surely logic and common sense would say that this is the case In looking into this quest I discovered not only had other people had near death experiences but also other people had actually died They had come back to life only to tell of the wonderful experience and the site and the people who had passed on previously from their life and how it all seemed so real Is this the circle of life after death that we all hope for the connection to eternal life
