What Is Art Penguin Classics:

What Is Art? Leo Tolstoy, 2023-07-22 What Is Art is an 1897 philosophical treatise by Leo Tolstoy that lays out his philosophy of aesthetics Rejecting notions of aesthetics that center around beauty Tolstoy instead posits that art is defined by its role in transmitting feelings between human beings Furthermore he argues that the quality of art is not assessed by the pleasure it gives but whether the feelings the art evokes align with the meaning of life revealed by a given society's religious perception In line with his spiritual views set out in The Kingdom of God Is Within You Tolstoy argues that the proper purpose of art is to transmit feelings of human unity and to set up in place of the existing reign of force that kingdom of God i.e. of love which we all recognize to be the highest aim of human life Tolstoy makes a number of unconventional aesthetic judgments in the course of the book dismissing such works as Wagner's operas Romeo and Juliet and his own past works like War and Peace and Anna Karenina as bad art In turn he praises such works as Dickens A Christmas Carol and Hugo's Les Misérables as examples of the highest art flowing from the love of God and the love of man

What Is Art? (Classic Reprint) Leo Tolstoy,2017-11-20 The essayWhat Is Art written in 1897 by Leo Tolstoy is an

inspiring piece of work that is both profound yet simple simultaneously making it an interesting read on the subject Tolstoy's view of art is quite remarkable changing the way you view art as a part of society forever His simple lexicon is understandable and unassuming as well as being informative Within this text Tolstoy explores how art affects its audience and the emotional link that forms as a result In order correctly to define art it is necessary first of all to cease to consider it as a means to pleasure and to consider it as one of the conditions of human life Viewing it in this way we cannot fail to observe that art is one of the means of intercourse between man and man Leo Tolstoy What Is Art is full of strong opinions and it is clear from how Tolstoy wrote that he believed most art of his time to be unethical and decadent with most artists being deluded The true purpose of this essay is to define art itself and Tolstoy approaches this in a number of ways throughout the book He considers the influence that religion philosophy and social conditions all have on art going into great detail explaining these factors About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
