

A surrealist painting by Marc Chagall titled 'What is Existential Anthropology?'. The painting features several large, stylized birds with long beaks, rendered in a variety of colors including white, yellow, orange, and blue. Interspersed among the birds are human figures in various poses: a woman in the upper left, a man in a transparent helmet in the center, a man in a red garment in the middle, a man in the lower left, and a child in the lower right. The background is a textured, mottled green. The title is written in large, white, sans-serif capital letters across the top.

What Is Existential Anthropology:

What Is Existential Anthropology? Michael Jackson, Albert Piette, 2015-04-01 What is existential anthropology and how would you define it What has been gained by using existential perspectives in your fieldwork and writing Editors Michael Jackson and Albert Piette each invited anthropologists on both sides of the Atlantic to address these questions and explore how various approaches to the human condition might be brought together on the levels of method and of theory Both editors also bring their own perspective while Jackson has drawn on phenomenology deploying the concepts of intersubjectivity lifeworld experience existential mobility and event Piette has drawn on Heidegger's Dasein analysis and developed a phenomenographical method for the observation and description of human beings in their singularity and ever changing situations

Existential Anthropology Michael Jackson, 2005-06-01 Inspired by existential thought but using ethnographic methods Jackson explores a variety of compelling topics including 9/11 episodes from the war in Sierra Leone and its aftermath the marginalization of indigenous Australians the application of new technologies mundane forms of ritualization the magical use of language the sociality of violence the prose of suffering and the discourse of human rights Throughout this compelling work Jackson demonstrates that existentialism far from being a philosophy of individual being enables us to explore issues of social existence and coexistence in new ways and to theorise events as the sites of a dynamic interplay between the finite possibilities of the situations in which human beings find themselves and the capacities they yet possess for creating viable forms of social life

Existence in the Details Albert Piette, 2015-07-29 **Lifeworlds** Michael Jackson, 2012-11-22 Michael Jackson's *Lifeworlds* is a masterful collection of essays the culmination of a career aimed at understanding the relationship between anthropology and philosophy Seeking the truths that are found in the interstices between examiner and examined world and word and body and mind and taking inspiration from James Dewey Arendt Husserl Sartre Camus and especially Merleau Ponty Jackson creates in these chapters a distinctive anthropological pursuit of existential inquiry More important he buttresses this philosophical approach with committed empirical research Traveling from the Kuranko in Sierra Leone to the Maori in New Zealand to the Warlpiri in Australia Jackson argues that anthropological subjects continually negotiate imaginatively practically and politically their relations with the forces surrounding them and the resources they find in themselves or in solidarity with significant others At the same time that they mirror facets of the larger world they also help shape it Stitching the themes peoples and locales of these essays into a sustained argument for a philosophical anthropology that focuses on the places between Jackson offers a pragmatic understanding of how people act to make their lives more viable to grasp the elusive to counteract external powers and to turn abstract possibilities into embodied truths

Between Life and Thought Don Seeman, Devaka Premawardhana, 2024-03-26 Existential anthropology is an approach inspired by existential and phenomenological thought to further our understanding of the human condition Its ethnographic methodology emphasizes embodied experience and

focuses on what is at stake for people amid the contingencies struggles and uncertainties of everyday life While anthropological research on religion abounds there has been little systematic attention to the ways anthropology and religious studies might benefit from better consideration of one another or from the adoption of a shared existential perspective Between Life and Thought gathers leading anthropologists and religion scholars including some of existential anthropology s most recognized advocates and thoughtful critics The collection opens with a comprehensive introduction to phenomenology and existentialism in anthropology and religious studies and concludes with an analysis of how existential anthropology might address the long standing problem of constructivism and perennialism in religious studies The chapters altogether present existential anthropology as an especially generative paradigm with which to rethink and remake both anthropology and the academic study of religion A timely and significant intervention across multiple areas of research Between Life and Thought is an invaluable source for critically exploring the prospects as well as the limits of an anthropological approach to religion grounded in experiential ethnography and existential thought

The Routledge International Handbook of Existential Human Science Huon Wardle,Nigel Rapport,Albert Piette,2023-08-01 This volume is the first handbook to explore existentialism as epistemology and method Transdisciplinary in scope it considers the nature of human subjectivity and how human experience ought to be studied examining the connections that exist between the individual s imagining of the world and their everyday practice within it With attention to the question of whether humans are ultimately alone in their self knowledge or whether what they know of themselves is constructed in common with others it enables the reader to recognize core questions that frame the methods and orientation of an existential inquiry In addition to historical exposition it offers a variety of chapters from around the world that explore the diverse global spaces for and different types of existential focus and discussion thus questioning the view that the existential problem may be singularly a matter for the post enlightenment West The fullest and most comprehensive survey to date of what human beings can and should make of themselves The Routledge International Handbook of Existential Human Science will appeal to scholars across the humanities and social sciences with interests in anthropology sociology philosophy and research methods

The Routledge Handbook of Contemporary Existentialism Kevin Aho,Megan Altman,Hans Pedersen,2024-04-18 Of the philosophical movements of the twentieth century existentialism is one of the most powerful and thought provoking Its engagement with the themes of authenticity freedom bad faith nihilism and the death of God captured the imagination of millions However in the twenty first century existentialism is grappling with fresh questions and debates that move far beyond traditional existential preoccupations ranging from the lived experience of the embodied self intersectionality and feminist theory to comparative philosophy digital existentialism disability studies and philosophy of race The Routledge Handbook of Contemporary Existentialism explores these topics and more connecting the ideas and insights of existentialism with some of the most urgent debates and challenges in philosophy today Eight clear sections explore the following topics

methodology and technology social and political perspectives environment and place affectivity and emotion death and freedom value existentialism and Asian philosophy aging and disability As well as chapters on key figures such as Kierkegaard Nietzsche Heidegger Sartre and Beauvoir the Handbook includes chapters on topics as diverse as Chicana feminism ecophilosophy and the environment Latina existentialism Black nihilism the Kyoto school and southeast Asian existentialism and the experiences of aging disability and death Essential reading for students and researchers in the areas of existentialism and phenomenology The Routledge Handbook of Contemporary Existentialism will also be of interest to those studying ethics philosophy and gender philosophy of race the emotions and philosophical issues in health and illness as well as related disciplines such as Literature Sociology and Political Theory Methodological and Ontological Principles of Observation and Analysis François Cooren, Fabienne Malbois, 2018-10-16 In our daily experiences we feel perceive designate invoke or comment on a plurality of beings people artifacts technologies institutions projects animals divinities emotions cultures ideologies or opinions that are part of our world While these beings are all part of our world they present various forms of existence Echoing recent developments in existential anthropology Communication as Constitutive of Organization CCO research and Actor Network Theory here scholars from a variety of disciplines discuss how they study the types of beings that have been at the core of their respective research Reflecting on the specific mode of existence presence and action of the being they follow they reveal the methodological innovations they deploy in order to analyze excerpts of field notes filmed interactions conversations pictures newspapers narratives etc *Cultural-Existential Psychology* Daniel Sullivan, 2016-04-07 Cultural psychology and experimental existential psychology are two of the fastest growing movements in social psychology In this book Daniel Sullivan combines both perspectives to present a groundbreaking analysis of culture's role in shaping the psychology of threat experience The first part of the book presents a new theoretical framework guided by three central principles that humans are in a unique existential situation because we possess symbolic consciousness and culture that culture provides psychological protection against threatening experiences but also helps to create them and that interdisciplinary methods are vital to understanding the link between culture and threat In the second part of the book Sullivan presents a novel program of research guided by these principles Focusing on a case study of a traditionalist group of Mennonites in the midwestern United States Sullivan examines the relationship between religion community guilt anxiety and the experience of natural disaster **The Role of Phenomenology in Existential Anthropology** Omar Ibrahim, 2020-06-10 Academic Paper from the year 2020 in the subject Pedagogy Theory of Science Anthropology grade 6 University of Bern Institut für Sozialanthropologie language English abstract The present essay explores the question of how philosophical phenomenology can be integrated into anthropology and especially into existential anthropology Phenomenology will be analyzed in terms of its methods and demands in order to apply them to the field of Existential Anthropology In doing so some points have to be changed which are necessary for the philosophical as well as for the

anthropological perspective Philosophical phenomenology is a discipline which can be examined in terms of its tradition its method and its demands There is little point in dealing with the tradition here This is due to two reasons First some positions of the phenomenological thinkers will be introduced in the following chapters anyway An overview of the entire tradition however would lead too far away from the topic Secondly philosophical phenomenology must be distinguished from existentialism Not all phenomenologists such as Scheler or Merleau Ponty for example have dealt with existentialism And not all existentialists such as De Beauvoir or Camus have dealt with phenomenology
