What Is Natural Coral Reef Crisis:

What is Natural? Jan Sapp,2023

Geological Approaches to Coral Reef Ecology Richard B. Aronson,2007-03-09

This book provides a unique perspective on the destruction both natural and human caused of coral reef ecosystems
Reconstructing the ecological history of coral reefs the authors evaluate whether recent dramatic changes are novel events or part of a long term trend or cycle The text combines principles of geophysics paleontology and marine sciences with real time observation examining the interacting causes of change hurricane damage predators disease rising sea level nutrient loading global warming and ocean acidification Predictions about the future of coral reefs inspire strategies for restoration and management of ecosystems Useful for students and professionals in ecology and marine biology including environmental managers

Environmental Law and Contrasting Ideas of Nature Keith H. Hirokawa,2014-07-17 Law s ideas of nature appear in different doctrinal and institutional settings historical periods and political dialogues Nature underlies every behavior contract or form of wealth and in this broad sense influences every instance of market transaction or governmental intervention Recognizing that law has embedded discrete constructions of nature helps in understanding how humans value their relationship with nature This book offers a scholarly examination of the manner in which nature is constructed through law both in the hard sense of directly regulating human activities that impact nature and in the soft manner in which law s ideas of nature influence and are influenced by behaviors values and priorities Traditional accounts of the intersection between law and nature generally focus on environmental laws that protect wilderness This book will build on the constructivist observation that when considered as a culturally contingent concept nature is a self perpetuating and self reinforcing social creation

Implications for Coral Reef Management and Policy Barbara A. Best,Robert S.

Pomeroy,Cristina M. Balboa,2002 The purpose of this report is to synthesize some of the best scientific and management information presented at ICRS for use by those in positions to conserve protect and rehabilitate coral reefs Preface p 11
