Liberal Racism Jim Sleeper, 2002 With uncompromising clarity Jim Sleeper discusses what liberals need to do to return their political movement to the vital center He challenges us to transcend race to reject the foolish policies and attitudes that have only reinforced racial divisions and to weave a social fabric sturdy enough to sustain the values upon which this country was founded

Great Delusion John J. Mearsheimer, 2018-09-25 A renowned scholar argues that liberal hegemony the policy America has pursued since the Cold War ended is doomed to fail Named a Financial Times Best Book of 2018 Idealists as well as realists need to read this systematic tour de force Robert D Kaplan author of *The Return of Marco Polo's World* It is widely believed in the West that the United States should spread liberal democracy across the world foster an open international economy and build international institutions The policy of remaking the world in America's image is supposed to protect human rights promote peace and make the world safe for democracy But this is not what has happened Instead the United States has become a highly militarized state fighting wars that undermine peace harm human rights and threaten liberal values at home In this major statement the renowned international relations scholar John Mearsheimer argues that liberal hegemony the foreign policy pursued by the United States since the Cold War ended is doomed to fail It makes far more sense he maintains for Washington to adopt a more restrained foreign policy based on a sound understanding of how nationalism and realism constrain great powers abroad *The Great Delusion* is a lucid and compelling work of the first importance for scholars

policymakers and everyone interested in the future of American foreign policy What Liberal Media? Joseph S. Nye, Eric Alterman, 1990 Argues that the nature of economic power has changed and that the U S must develop the will and the flexibility to regain its international leadership role Liberal Workers of the World, Unite? Magaly Rodriguez Garcia, 2010 The history of international free trade union organisations during the first two decades of the Cold War is an important but often neglected aspect of the development of post war labour and liberalism In this path breaking book Rodriguez Garcia fills this void in the historical literature by offering a comparative analysis of two cases the European Regional Organisation ERO and the Inter American Regional Workers Organisation ORIT which were created in the early 1950s as regional branches of the International Confederation of Free Trade Unions ICFTU The author employs the term labour liberalism to describe their wide variety of functions She argues that social democratic and reformist trade unions which made up the bulk of ICFTU members were fundamentally shaped by liberal values even while calling for the active participation of organised labour in the planning and implementation of projects promoting liberal democracy and socio economic development at home and abroad By placing international free trade unionism centre stage this book adds significantly to our understanding of post war labour and liberalism The Liberal , 1822 **Liberal Magazine** , 1898
