Taylor Worley, 2019-11-28 This book explores how four contemporary artists Francis Bacon Joseph Beuys Robert Gober and Damien Hirst pursue the question of death through their fraught appropriations of Christian imagery Each artist is shown to not only pose provocative theological questions but also to question the abilities of theological speech to adequately address current attitudes to death When set within a broader theological context around the thought of death Bacon's works invite fresh readings of the New Testament's narration of the betrayal of Christ and Beuys's works can be appreciated for the ways they evoke Resurrection to envision possible futures for Germany in the aftermath of war Gober's immaculate sculptures and installations serve to create alternative religious environments and these places are both evocative of his Roman Catholic upbringing and virtually haunted by the ghosts of his excommunication from that past Lastly and perhaps most problematically Hirst has built his brand as an artist from making jokes about death By opening fresh arenas of dialogue and meaning making in our society and culture today the rich humanity of these artworks promises both renewed depths of meaning regarding our exit from this world as well as how we might live well within it for the time that we have As such it will be a vital resource for all scholars in Theology the Visual Arts Material Religion and Religious Studies *Christoph Schlingensief* Anna Teresa Scheer, 2018-02-22 The first book to

focus specifically on the late German artist Christoph Schlingensiefel's theatre work it subversively merges art politics and everyday life to imbue his productions both inside and outside the theatre with a re energized concept of the political in art Scheer traces Schlingensiefel's artistic lineage as a filmmaker with no formal training in theatre whose work does not correspond to theoretical frameworks such as postdramatic theatre Regietheater or established categories of political theatre such as Brechtian community and agit prop theatre She explores how his work instead draws upon the highly performative gestures of the historical and post Cold War avant gardes as well the happenings and event based practices of the sixties Comprehensive case studies of six diverse theatrical and activist events are offered to demonstrate both the immediacy of Schlingensiefel's response to contemporary social and political events and his use of a range of artistic influences and different genres Rocky Dutschke 68 1996 Save Capitalism Throw the Money Away 1999 The Berlin Republic or the Ring in Africa 1999 Hamlet 2001 Atta Atta Art Has Broken Out 2003 and the Church of Fear 2003 Key questions such as how his theatre functions as a provocation and how an artist can insert themselves into the powerful flows of imagery produced by the perpetual global news cycle form a coherent line of enquiry throughout each of the chapters The significance of Schlingensiefel's artistic legacy of politicized theatre making that pioneers new modes of active aesthetic and public engagement in the political realm remains pertinent to topical socio political debates and is of relevance to an international audience across a diversity of disciplines
