narrative levels In order to reformulate the greater narrative the Magisterium of the Roman faith beyond what is revealed in Scripture the Spiritual Exercises require their exercitant to become an active participant in this narrative through constant visual contact with orders of corruption that is spaces in which virtue can be confronted with physical decay and sin Through these spaces Counter Reformation Rome La Roma Ignaziana would redefine the economy of salvation and diffuse the visual dynamics of the Spiritual Exercises throughout the Catholic world In their writings Spanish Golden Age authors Miguel de Cervantes and Baltasar Graci n use the rising modernity of the novel to transform Loyola s notion of orders of corruption by adapting it to the secular world Their encoded criticism of Loyolan imagination contributed to the epistemological crisis that marks the Baroque age but also prepared the way for the crucial debates that would take place during the Enlightenment such as the deconstruction of the Catholic greater narrative reflected in Loyola This book concludes with a discussion of the eventual negation of Loyolan imagination in the novels of the Marquis de Sade which undermine the Roman faith by parodying the Baroque forms of spiritual visual experience and negate the Loyolan projection into orders of corruption
