The War On Human Trafficking Us Policy Assessed:

The War on Human Trafficking Anthony DeStefano, 2007-08-14 The United States has taken the lead in efforts to end international human trafficking the movement of peoples from one country to another usually involving fraud for the purpose of exploiting their labor Examples that have captured the headlines include the 300 Chinese immigrants that were smuggled to the United States on the ship Golden Venture and the young Mexican women smuggled by the Cadena family to Florida where they were forced into prostitution and confined in trailers The public's understanding of human trafficking is comprised of terrible stories like these which the media covers in dramatic but usually short lived bursts The more complicated long term story of how policy on trafficking has evolved has been largely ignored In *The War on Human Trafficking* Anthony M DeStefano covers a decade of reporting on the policy battles that have surrounded efforts to abolish such practices helping readers to understand the forced labor of immigrants as a major global human rights story DeStefano details the events leading up to the creation of the Trafficking Victims Protection Act of 2000 the federal law that first addressed the phenomenon of trafficking in persons He assesses the effectiveness of the 2000 law and its progeny showing the difficulties encountered by federal prosecutors in building criminal cases against traffickers The book also describes the tensions created as the Bush Administration tried to use the trafficking laws to attack prostitution and shows how the American response to these criminal activities was impacted by the events of September 11th and the War in Iraq Parsing politics from practice this important book gets beyond sensational stories of sexual servitude to show that human trafficking has a much broader scope and is inextricable from the powerful economic conditions that impel immigrants to put themselves at risk

The Handbook of Measurement Issues in Criminology and Criminal Justice Beth M.

Huebner, Timothy S. Bynum, 2016-04-28 This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology The work as a whole includes chapters on the measurement of criminal typologies the offenders offending and victimization criminal justice organizations and specialized measurement techniques Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area More importantly each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research The goal of this volume is to provide a definitive reference for professionals in the field researchers and students This volume in the *Handbooks in Criminology and Criminal Justice* series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues In each chapter authors provide a summary of the prominent data collection efforts in the topical area provide an overview of the current

methodological work discuss the challenges in the measurement of central concepts in the subject area and identify new horizons emerging in data collection and measurement We encouraged authors to discuss work conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate

Trafficked Children and Youth in the United States Elzbieta M. Gozdzia, 2016-05-10 Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in *Trafficked Children in the United States* the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers In many instances parents or smugglers paid by family members brought the girls to the U S Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities Following them from the time they were trafficked to their years as young adults Gozdzia gives the children a voice so they can offer their own perspective on rebuilding their lives getting jobs learning English developing friendships and finding love Gozdzia looks too at how the children's perspectives compare to the ideas of child welfare programs noting that the children focus on survival techniques while the institutions focus not helpfully on vulnerability and pathology Gozdzia concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked children Breaking new ground *Trafficked Children in the United States* offers a fresh take on what matters most to these young people as they rebuild their lives in America

The Routledge International Handbook of the Crimes of the Powerful Gregg Barak, 2015-06-05 Across the world most people are well aware of ordinary criminal harms to person and property Often committed by the powerless and poor these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations In contrast the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals groups and national states are neither calculated by governmental agencies nor annually reported by the mass media As a result most citizens of the world are unaware of the routinized crimes of the powerful even though they are more likely to experience harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless Research on the crimes of the powerful brings together several areas of criminological focus involving organizational and institutional networks of powerful people that commit crimes against workers marketplaces taxpayers and political systems as well as acts of torture terrorism and genocide This international handbook offers a comprehensive authoritative and structural synthesis of these interrelated topics of criminological concern It also explains why the crimes of the powerful are so difficult to control Edited by internationally acclaimed criminologist Gregg Barak this book reflects the state of the art of scholarly

research covering all the key areas including corporate global environmental and state crimes The handbook is a perfect resource for students and researchers engaged with explaining and controlling the crimes of the powerful domestically and internationally

The New Slave Narrative Laura T. Murphy, 2019-09-17 A century and a half after the abolition of slavery in the United States survivors of contemporary forms of enslavement from around the world have revived a powerful tool of the abolitionist movement first person narratives of slavery and freedom Just as Frederick Douglass Harriet Jacobs and others used autobiographical testimonies in the fight to eradicate slavery today's new slave narrators play a crucial role in shaping an antislavery agenda Their writings unveil the systemic underpinnings of global slavery while critiquing the precarity of their hard fought freedom At the same time the demands of antislavery organizations religious groups and book publishers circumscribe the voices of the enslaved coopting their narratives in support of alternative agendas In this pathbreaking interdisciplinary study Laura T Murphy argues that the slave narrative has reemerged as a twenty first century genre that has gained new currency in the context of the memoir boom post 9 11 anti Islamic sentiment and conservative family values politics She analyzes a diverse range of dozens of book length accounts of modern slavery from Africa Asia the United States the United Kingdom and Europe examining the narrative strategies that survivors of slavery employ to make their experiences legible and to promote a reinvigorated antislavery agenda By putting these stories into conversation with one another The New Slave Narrative reveals an emergent survivor centered counterdiscourse of collaboration and systemic change that offers an urgent critique of the systems that maintain contemporary slavery as well as of the human rights industry and the antislavery movement

Sex, Drugs, and Body Counts Peter Andreas, Kelly M. Greenhill, 2010 In this book political scientists anthropologists sociologists and policy analysts critically examine the murky origins of misleading or inaccurate statistics used in global policy and traces their remarkable proliferation

The Nation, 2007 **Syracuse Journal of International Law and Commerce**, 2010 *Regulating Sex / Work* Jane Scoular, Teela Sanders, 2010-03-29 *Regulating Sex Work From Crime Control to Neo liberalism* addresses the rise in sexual commerce and consumption by challenging traditional responses and offering a fresh approach to sex industry regulation Examines different forms of sex regulation by utilizing examples from a range of sex markets in the UK France USA Australia and India Theorizes the apparent paradox that the increase in punitive approaches to regulating the sex industry is fueling a rise in supply demand and diversification of the sex industry

Tradeoffs of Candor, 2009 *New Books on Women, Gender and Feminism*, 2008

The Devil, the Lovers, & Me Kimberlee Auerbach, 2007 The author describes her survival of an abusive relationship her mother's mid life sexual proclivities and the interference of friends and her father during a promising new romance challenges that prompted her visit to an atypical tarot card reader
