The Warsaw Convention Annotated The Warsaw Convention Annotated:

The Warsaw Convention Annotated: A Legal Handbook Lawrence Goldhirsch, 2000-09-28 For fast authoritative answers to questions of liability for international air transportation this newly updated enormously useful and timesaving legal resource is without peer In one volume it provides an incomparable wealth of case law and commentary conveniently arranged as article by article annotation to the Warsaw Convention This new edition brings the case law up to 1999 and includes the all important new judicial developments derived to date from such recent air mishaps as KAL 007 Lockerbie TWA 800 and Swissair 111 The cases summarized and analyzed under each article come from scores of jurisdictions worldwide with decisions that in many instances have built on case law from a number of different countries The author's treatment encompasses the subsequent agreements and protocols that have amended the original 1929 Convention and cites those significant minority viewpoints both juridical and scholarly that serve to clarify some of the more difficult issues that arise in this complex field of international law The text used is the English US translation of the Convention Appendices include the authentic original French text of the Warsaw Convention and the English UK translation as well as the three official Spanish texts Spain Argentina and Mexico the official French English and Spanish texts of the Hague Protocol and the Guadalajara Convention texts of the Montreal Agreement the Guatemala Protocol and the four Montreal Protocols pertinent excerpts from the United States Code of Federal Regulations and the International Air Transport Association IATA rules and up to date listings of parties signatory to the Warsaw instruments A table of cases with supplemental case citations is also included

[The Warsaw Convention Annotated](#) Lawrence B. Goldhirsch, 1988-11-02 The book gives a comprehensive overview of the American German constitutional regimes of affirmative action for women It describes international European Community rules which encourage limit affirmative action taken by States Comparison of the legal orders reveals a paradox Affirmative action for women in America has existed longer is more widespread more institutionalized although the spirit of the American Constitution conflicts with such policies more than the German Constitution The American Constitution contains no clause explicitly guaranteeing gender equality It establishes a principle of containment that the government is prohibited from certain action does not acknowledge positive governmental duties Individual freedom is of primary importance the socially dependent nature of the individual is barely recognized In contrast the German Constitution contains a gender specific equality clause Article 3 2 passed in 1949 amended in 1994 which is interpreted by some to allow quotas as a form of preferential treatment German constitutional law also includes the principle that the state has affirmative duties the principle of the social state Sozialstaat the merit principle for hiring promotion within the civil service The discrepancy between policy constitutional principle suggests that the formulation of policy is driven less by constitutional principles than by exterior elements such as the political social situation which apparently have led the United States to implement affirmative action despite a relatively weak constitutional basis Germany to refrain from implementing affirmative action

despite relatively strong constitutional support The book also inquires into the utility of comparative law its scope its limits It concludes that one should not overestimate the utility of comparative law as a tool of social engineering that prepares the adaptation of foreign policies to solve the apparently similar problems of different countries The strength of comparative law lies rather in its critical potential Thus legal comparison mirrors the limits of law as a vehicle of social reform limits particularly obvious in the context of overcoming discrimination against women
