The Way According To Luke Hearing The Whole Story Of Luke Acts:

The Way According to Luke Paul Borgman, 2006-03-10 Among the classics of ancient Greek and Jewish literature the story of Luke Acts has few rivals Yet we moderns miss much of the meaning of Luke s two part drama because we read it like any other text and not as it would have been heard by ancient listeners in public performance by a skilled storyteller The Way according to Luke unlocks the big picture of Jesus mission by attending to the repetition patterns and other clues of oral narrative In this single volume Paul Borgman lays out a holistic view of the organic unity between Luke and Acts while demonstrating that the meaning of Luke Acts is uniquely embedded in its narrative Borgman s distinctive work makes available both the satisfying pleasure of reading the Bible as great literature and the rewarding insight gained from receiving Scripture as it was originally delivered The Death of the Messiah and the Birth of the New Covenant Michael J.

Gorman, 2014-06-27 In this groundbreaking book Michael Gorman asks why there is no theory or model of the atonement called the new covenant model since this understanding of the atonement is likely the earliest in the Christian tradition going back to Jesus himself Gorman argues that most models of the atonement over emphasize the penultimate purposes of Jesus death and the mechanics of the atonement rather than its ultimate purpose to create a transformed Spirit filled people of God The New Testament s various atonement metaphors are part of a remarkably coherent picture of Jesus death as that which brings about the new covenant and thus the new community promised by the prophets which is also the covenant of peace Gorman therefore proposes a new model of the atonement that is really not new at all the new covenant model He argues that this is not merely an ancient model in need of rediscovery but also a more comprehensive integrated participatory communal and missional model than any of the major models in the tradition Life in this new covenant Gorman argues is a life of communal and individual participation in Jesus faithful loving peacemaking death Written for both academics and church leaders this book will challenge all who read it to re think and re articulate the meaning of Christ s death for us

Church as Fullness in All Things Mark W. Birkholz, Jonathan Mumme, Richard J. Serina, Jr., 2019-06-25 What is Lutheran ecclesiology The Lutheran view of the church has been fraught with difficulties since the Reformation Church as Fullness in All Things reengages the topic from a confessional Lutheran perspective Lutheran theologians and clergy who are bound to the Holy Scriptures and the Lutheran Confessions explore the possibilities and pitfalls of the Lutheran tradition s view of the church in the face of contemporary challenges The contributors also take up questions about and challenges to thinking and living as the church in their tradition while looking to other Christian voices for aid in what is finally a common Christian endeavor The volume addresses three related types of questions faced in living and thinking as the church with each standing as a field of tension marked by disharmonized though perhaps not inherently opposite poles the individual and the communal the personal and the institutional and the particular and the universal Asking whether de facto prioritizations of given poles or unexamined assumptions about their legitimacy impinge the church Lutherans seek the volume closes with

David, Saul, and God Paul Borgman, 2008-04-16 The biblical story of King David and his conflict with King Saul 1 and 2 Samuel is one of the most colorful and perennially popular in the Hebrew Bible In recent years this story has attracted a great deal of scholarly attention much of it devoted to showing that David was a far less heroic character than appears on the surface Indeed more than one has painted David as a despicable tyrant Paul Borgman provides a counter reading to these studies through an attentive reading of the narrative patterns of the text He focuses on one of the key features of ancient Hebrew narrative poetics repeated patterns taking special note of even the small variations each time a pattern recurs He argues that such hearing cues would have alerted an ancient audience to the answers to such questions as Who is David and What is so wrong with Saul The narrative insists on such questions says Borgman slowly disclosing answers through patterns of repeated scenarios and dominant motifs that yield finally the supreme work of storytelling in ancient literature Borgman concludes with a comparison with Homer s storytelling technique demonstrating that the David story is indeed a masterpiece and David as Baruch Halpern has said the first truly modern human

Ierousalem or Hierosolyma Krzysztof Mielcarek, 2023-12-04 There is no doubt that Jerusalem in the Bible is a city of great historical and theological significance However many modern readers are unaware that authors writing in Greek used its two names Ierousalem and Hierosolyma Among the few who used both names simultaneously is Luke the Evangelist Commentators of this onomastic phenomenon have tried to explain this fact in various ways referring to Luke's literary and theological choices or denying its meaning altogether Krzysztof Mielcarek's monograph proposes a new view and explanation of this phenomenon in a theological historical key In his opinion Luke's choices may be underpinned by his deep immersion in the world and terminological richness of the Septuagint as well as important historical events that influenced the perception of the Holy City by the Hellenistic Jewish community and later also by the early Christians

The Fourth Gospel in First-Century Media Culture Anthony Le Donne, Tom Thatcher, 2013-05-03 Werner

Kelber's *The Oral and the Written Gospel* substantially challenged predominant paradigms for understanding early Jesus traditions and the formation of written Gospels. Since that publication a more precise and complex picture of first century media culture has emerged. Yet while issues of orality, aural performance and mnemonics are now well voiced in Synoptic Studies, Johannine scholars remain largely unaware of such issues and their implications. The highly respected contributors to this book seek to fill this lacuna by exploring various applications of orality, literacy, memory and performance theories to the Johannine Literature in hopes of opening new avenues for future discussion. Part 1 surveys the scope of the field by introducing the major themes of ancient media studies and noting their applicability to the Fourth Gospel and the Johannine Epistles. Part 2 analyzes major themes in the Johannine Literature from a media perspective while Part 3 features case studies of specific texts. Two responses by Gail O'Day and Barry Schwartz complete the volume. , From Orality to Orality James A. Maxey, 2009-09-15 In this groundbreaking work Bible translation is presented as an expression of contextualization that explores the neglected riches of the verbal arts in the New Testament. Going beyond a historical study of media in antiquity, this book explores a renewed interest in oral performance that informs methods and goals of Bible translation today. Such exploration is concretized in the New Testament translation work in central Africa among the Vute people of Cameroon. This study of contextualization appreciates the agency of local communities, particularly in Africa, who seek to express their Christian faith in response to anthropological pauperization. An extended analysis of African theologians demonstrates the ultimate goals of contextualization: liberation and identity. Oral performance exploits all the senses in experiencing communication while performer, text and audience negotiate meaning. Performance not only expresses but also shapes identity as communities express their faith in varied contexts. This book contends that the New Testament compositions were initially performed and not restricted to individualized silent reading. This understanding encourages a reexamination of how Bible translation can be done. Performance is not a product but a process that infuses biblical studies with new insights, methods and expressions.
