Spaces and Fictions of the Weird and the Fantastic Julius Greve, Florian Zappe, 2019-11-18 This collection of essays discusses genre fiction and film within the discursive framework of the environmental humanities and analyses the convergent themes of spatiality climate change and related anxieties concerning the future of human affairs as crucial for any understanding of current forms of weird and fantastic literature and culture Given their focus on the culturally marginal unknown and other these genres figure as diagnostic modes of storytelling outlining the latent anxieties and social dynamics

that define a culture's structure of feeling at a given historical moment. The contributions in this volume map the long and continuous tradition of weird and fantastic fiction as a seismograph for eco-geographical turmoil from the nineteenth to the twenty-first century, offering innovative and insightful ecocritical readings of H.P. Lovecraft, Harriet Prescott Spofford, China Miéville, N.K. Jemisin, Thomas Ligotti, and Jeff VanderMeer among others. **Atlantic Automobilmism** Gijs Mom, 2014-12. Offering a sweeping transatlantic perspective, this book explains the current obsession with automobiles by delving deep into the motives of early car users. It provides a synthesis of our knowledge about the emergence and persistence of the car using a broad range of material including novels, poems, films, and songs. *Books in Print*, 1979. **The Secret Teachers of the Western World** Gary Lachman, 2015-12-08. Running alongside the mainstream of Western intellectual history, there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy, inferior position somewhere underground. This other stream forms the subject of Gary Lachman's epic history and analysis, *The Secret Teachers of the Western World*. In this clarifying, accessible, and fascinating study, the acclaimed historian explores the Western esoteric tradition, a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living, spiritual, meaningful being and humankind as having a unique obligation and responsibility in it. The historical roots of our counter tradition, as Lachman explores, have their beginning in Alexandria around the time of Christ. It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally. Here, in this remarkable city filled with teachers, philosophers, and mystics from Egypt, Greece, Asia, and other parts of the world, in a multi-cultural, multi-faith, and pluralistic society, a synthesis took place, a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today. Joseph L. Tucker Edmonds, 2020-12-02 *The Other Black Church* Alternative Christian Movements and the Struggle for Black Freedom examines the movements led by Father Divine Charles Mason and Albert Cleage later known as Jaramogi Abebe Agyeman as alternative Christian movements in the middle of the twentieth century that radically re envisioned the limits and possibilities of Black citizenship These movements not only rethink the value and import of Christian texts and reimagined the role of the Black Christian prophetic tradition but they also outlined a new model of protest that challenged the language and logic of Black essentialism economic development and the role of the state By placing these movements in conversation with the long history of Black theology and Black religious studies this book suggests that alternative Christian movements are essential for thinking about African American critiques of and responses to the failures of U S based democracy These prophets of Black theological thought and their attention to the limits of the state and traditional Black religious formations are most fully appreciated when studied in light of their conversations and interactions with other key Black prophetic and theological figures of the mid twentieth century Ultimately *The Other Black Church* will use those conversations and archives from these movements to highlight their protest of the racial state to explore the limits of the Black church and to argue for their continued significance for thinking about the variety and vibrancy of Black protest specifically Black religious protest during the twentieth century
