The Will to Believe by William James THE WILL TO BELIEVE AND OTHER ESSAYS IN POPULAR PHILOSOPHY. HUMAN IMMORTALITY: 2 SUPPOSED OBJECTIONS TO THE DOCTRINE William James, 1956 **Ecomysticism** Carl von Essen, 2010-10-19 Explores the philosophy, science, and spirituality of nature mysticism and its Green calling. Offers a solid bridge between spiritual practice and environmental activism. Reveals how we can heal the environment by renewing our connection to it. Shows how spiritual encounters in nature are healing the Nature Deficit Disorder of our psyches and bodies. Many have been struck by a majestic moment in nature: a sole illuminated flower in a shady grove, an owl swooping silently across a wooded path, or an infinitely starry sky, and found themselves in a state of expanded awareness so profound they can feel the interconnectedness of all life. These trance-like moments of clarity, unity, and wonder often incite a call to protect and preserve the earth to support Nature as she supports us. Termed nature mysticism, people from all cultures have described such experiences. However, the ever-increasing urbanization of the world's population is threatening this ancient connection as well as the earth itself. In *Ecomysticism*, Carl von Essen explores nature mysticism through the recorded experiences of outdoor enthusiasts as well as scientific studies in biology, psychology, and neuroscience. Citing consciousness scholar William James and a variety of well-known nature lovers such as Ansel Adams, Henry David Thoreau, and Ralph Waldo Emerson, von Essen shows how the spiritual transcendence from an encounter in nature, like other mystical experiences, is healing the Nature Deficit Disorder of our psyches and bodies, leading to an expansion of our worldview and a clearer understanding of our self and of our natural world. Offering a solid bridge between spiritual practice and environmental activism, von Essen's spiritual ecology reveals how only through a renewal of humanity's spiritual connection to nature can we effect true environmental healing.

The Idea of the Miraculous T C Williams, 1990-07-19 **One Hundred Twentieth-Century Philosophers** Stuart Brown, Diane Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2008-02-20 *One Hundred Twentieth Century Philosophers* offers biographical information and critical analysis of the life, work, and impact of some of the most significant figures in philosophy this century. Taken from the acclaimed *Biographical Dictionary of Twentieth Century Philosophers*, the 100 entries are alphabetically organised from Adorno to Zhang Binglin and cover individuals from both continental and analytic philosophy. The entries have an identical four-part structure, making it easy to compare and contrast information comprising biographical details, a bibliography of major works, a listing of relevant secondary and critical literature, an appraisal of the philosopher's thoughts and achievements. A separate glossary provides an introduction to the origins, development, and main features of major philosophical schools and movements, and offers select bibliographies to guide the reader to further research.

American Philosophy John Kaag, 2016-10-11 The epic wisdom contained in a lost library helps the author turn his life around. John Kaag is a dispirited young philosopher at sea in his marriage and his career when he stumbles upon West Wind, a ruin of an estate in the hinterlands of New Hampshire that

belonged to the eminent Harvard philosopher William Ernest Hocking Hocking was one of the last true giants of American philosophy and a direct intellectual descendent of William James the father of American philosophy and psychology with whom Kaag feels a deep kinship It is James s question Is life worth living that guides this remarkable book The books Kaag discovers in the Hocking library are crawling with insects and full of mold But he resolves to restore them as he immediately recognizes their importance Not only does the library at West Wind contain handwritten notes from Whitman and inscriptions from Frost but there are startlingly rare first editions of Hobbes Descartes and Kant As Kaag begins to catalog and read through these priceless volumes he embarks on a thrilling journey that leads him to the life affirming tenets of American philosophy self reliance pragmatism and transcendence and to a brilliant young Kantian who joins him in the restoration of the Hocking books Part intellectual history part memoir American Philosophy is ultimately about love freedom and the role that wisdom can play in turning one s life around

[Making Our Ideas Clear](#) Philip Rosenbaum,2015-01-01 This book brings pragmatic theory and praxis into dialogue with contemporary psychodynamic ideas practitioners and clinical issues Generally considered as a historical footnote to psychoanalysis the chapters in this volume demonstrate pragmatism s continued relevance for contemporary thought Not only does pragmatism share many of the values and sensibilities of contemporary psychodynamics its rich philosophical and theoretical emphasis on active meaning making and agentic being in the world complements and extends current thinking about the social nature of self and mind how we occupy space in the world non linear development and processes of communication

God of Love and God of Reason David R. Mason,2016-02-18 These homilies lectures and essays vigorously champion the author s conviction that it is reasonable to believe in a God of pure unbounded love and also that the best religion is a reasonable religion That is the God of Love is the God of Reason and as a seventeenth century Cambridge preacher put it If you would be religious be rational in your religion Thus these essays challenge both the

New Atheists and Fundamentalists who are twins like Tweedledum and Tweedledee And they aim positively to unpack the meaning and implications of Jesus dictum You shall love the Lord your God with all your heart and with all your soul and with all your mind This is the greatest and first commandment And the second is like it You shall love your neighbor as yourself On these two commandments hang all the law and the prophets **Writing the Lives of Writers** Warwick Gould,T. Staley,1998-07-15 Writing the Lives of Writers ponders that strange ventriloquized dialogue between biographers and their subjects a dialogue all the stranger when the subject is a writer It contains 22 essays by internationally distinguished scholars and biographers including Martin C Battestin Isobel Grundy John Haffenden Hermione Lee Lawrence Lipking Ray Monk Hazel Rowley Max Saunders Martin Stannard and John Worthen They tackle the lives of Chaucer Tyndale More Fielding and Lady Mary Wortley Montagu Wordsworth Henry James Ford Madox Ford Yeats Lawrence Dorothy Richardson Virginia Woolf Malcolm Lowry F R Leavis Richard Wright and Brian Penton The Philosophy of William James Howard Vicenté Knox,1914 **Is Truth the Primary Epistemic Goal?** Markus Patrick Hess,2013-05-02 This book is focused on a problem that has aroused the most controversy in recent epistemological debate which is whether the truth can or cannot be the fundamental epistemic goal Traditional epistemology has presupposed the centrality of truth without giving a deeper analysis To epistemic value pluralists the claim that truth is the fundamental value seems unjustified Their central judgement is that we can be in a situation where we do not attain truth but something else that is also epistemically valuable In contrast epistemic value monists are committed to the view that one can only attain something of epistemic value by attaining truth It was necessary to rethink the long accepted platitude that truth is our primary epistemic goal once several objections about epistemic value were formulated The whole debate is instructive for understanding how the epistemic value domain is structured *The Concept of Religious Passion* Albert Mitchell, Ph.D,2013-08-08 The concept of religious passion is examined according to the teachings of that great Father of Modern Reason Immanuel Kant both as a philosophical concept and with respect to its place in Ethics specifically Kantian ethics Kant s strong aversion to religious passion is presented in view of the Enlightenment movement and Reason versus the Emotions argument
