The Wire And Philosophy The Wire And Philosophy:

The Wire and Philosophy David Bzdak, Joanna Crosby, Seth Vannatta, 2013 By many accounts HBO's The Wire was and remains the greatest and most important television drama of all time Conceived by writers David Simon and ex Baltimore homicide detective Ed Burns this five season sixty episode tour de force has raised the bar for compelling intelligent television production With each season addressing a different arena of life in the city of Baltimore and each season's narratives tapping into those from previous seasons The Wire was able to reveal the overlapping criss crossing and colliding realities that shape if not control the people institutions and culture of the modern American city The Wire and Philosophy celebrates this show's realism as well as its intellectual and philosophical clarity Selected philosophers who are fans of The Wire tap into these conflicts and interconnections to expose the underlying philosophical issues and assumptions and pursue questions such as can cops really tell whether they are smarter than their perps Or do they fall victim to intellectual vanity Do individuals really have free will to resist the temptations of gangs of drugs or corruption that surround them Is David Simon a modern day Marx who sees capitalism leading ultimately to its own collapse or is Baltimore's story uniquely its own

Cop Shows Roger Sabin, Ronald Wilson, Linda Speidel, 2015-03-07 From cops who are paragons of virtue to cops who are as bad as the bad guys from surly loners to upbeat partners from detectives who pursue painstaking investigation to loose cannons who just want to kick down the door the heroes and anti heroes of TV police dramas are part of who we are They enter our living rooms and tell us tall tales about the social contract that exists between the citizen and the police Love them or loathe them according to the ratings we love them they serve a function They've entertained informed and sometimes infuriated audiences for more than 60 years This book examines Dragnet Highway Patrol Naked City The Untouchables The F B I Columbo Hawaii Five O Kojak Starsky Hutch Hill Street Blues Cagney Lacey Miami Vice Law Order Homicide Life on the Street NYPD Blue CSI The Shield The Wire and Justified It's time to take another look at the perps the vics and the boys and girls in blue and ask how their representation intersects with questions of class gender sexuality and race What is their socio cultural agenda What is their relation to genre and televisuality And why is it that when a TV cop gives a witness his card and says call me that witness always ends up on a slab *Corners in the City of God* Jonathan Tran, Myles Werntz, 2013-10-24 David Simon's The Wire lays out before us a city in which people struggle under the weight of poverty political corruption economic despair educational collapse and the drug trade This volume explores the various theological ethical and philosophical challenges presented by The Wire As each season of The Wire unfolds the moral complexities of life in the city deepen as the failures of one system have unforeseen effects in other corners of the city Fleshing out the ongoing tension between the earthly city and the City of God *Corners in the City of God* is a theological companion to David Simon's masterpiece inviting the reader to wrestle with the implications of belonging fully to the cities of the world in all of their splendor and tragedy *Watching the Cops* Marcus K. Harmes, Barbara Harmes, Meredith A. Harmes, 2023-10-10 Globally

police officers are the object of unprecedented visual scrutiny The use of mobile phones CCTV and personal body cams means that police are not only being filmed on the job but are also filming themselves In popular culture police have featured heavily on the big screen since the era of silent shorts and on television since the 1930s Their fictional portrayals today take on added significance in light of social unrest surrounding cases of police brutality and discrimination These essays explore 21st century portrayals of police on film and television Chapters often emphasize the Black Lives Matter movement and consider the tone quality appropriateness and intention of film and television featuring police activity Extensively covered works include *Mindhunter* *Brooklyn Nine Nine* *Cops* *Criminal Minds* and *RoboCop* and among the major topics addressed are policing communities hunting serial killers police animals and police in historic settings ranging from the 19th century through the present day and into science fiction futures **The Oxford review; or, Literary censor**, 1807 **African**

Americans on Television David J. Leonard, Lisa Guerrero, 2013-04-23 A comprehensive look at the history of African Americans on television that discusses major trends in black TV and examines the broader social implications of the relationship between race and popular culture as well as race and representation Previous treatments of the history of African Americans in television have largely lacked theoretical analysis of the relationship between representations and social contexts *African Americans on Television* Race ing for Ratings fills the existing void by supplying fundamental history with critical analyses of the racial politics of television documenting the considerable effect that television has had on popular notions of black identity in America since the inception of television Covering a spectrum of genres comedy drama talk shows television movies variety shows and reality television including shows such as *Good Times* *The Oprah Winfrey Show* and *Chappelle's Show* this insightful work traces a cultural genealogy of African Americans in television Its chronological analysis provides an engaging historical account of how African Americans entered the genre of television and have continued to play a central role in the development of both the medium and the industry The book also tracks the shift in the significance of African Americans in the television market and industry and the changing but enduring face of stereotypes and racism in American television culture **Better Living through TV** Steven A. Benko, 2022-03-25

Watching television need not be a passive activity or simply for entertainment purposes Television can be the site of important identity work and moral reflection Audiences can learn about themselves what matters to them and how to relate to others by thinking about the implicit and explicit moral messages in the shows they watch *Better Living through TV* *Contemporary TV and Moral Identity Formation* analyzes the possibility of identifying and adopting moral values from television shows that aired during the latest Golden Era of television and Peak TV The diversity of shows and approaches to moral becoming demonstrate how television during these eras took advantage of new technologies to become more film like in both production quality and content The increased depth of characterization and explosion of content across streaming and broadcast channels gave viewers a diversity of worlds and moral values to explore The possibility of finding a moral in the

stories told on popular shows such as The Sopranos Breaking Bad The Wire and The Good Place as well as lesser known shows such as Letterkenny and The Unicorn are explored in a way that centers television viewing as a site for moral identity formation

What Journalists Are Owed Fred Vultee, Lee Wilkins, 2020-05-21 The study of news and news practice is rich in examinations of what journalists owe to society However this book looks at what journalists can expect from society what roles ownership structures colleagues governments and audiences should play so journalists can do their jobs well and safely What Journalists Are Owed draws on a variety of research perspectives legal and ethical analysis surveys interviews and content analysis in different national settings to look at how those relationships among stakeholders are developing in a time of rapid and often unsettling change to the political and economic environments that surround journalism Journalism can be a risky business This book opens some discussions on those risks can be described and mitigated There is no shortage of writing about what journalists owe society but if society wants journalism done well what does it owe journalists in return This volume opens a discussion on the cultural legal system and professional agreements that societies should provide so journalists can do their jobs in increasingly hostile political environments This book was originally published as a special issue of Journalism Studies

The Encyclopaedia Britannica: Edwardes-Evangelical Association, 1910 The last great work of the age of reason the final instance when all human knowledge could be presented with a single point of view Unabashed optimism and unabashed racism pervades many entries in the 11th and provide its defining characteristics Despite its occasional ugliness the reputation of the 11th persists today because of the staggering depth of knowledge contained within its volumes It is especially strong in its biographical entries These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten except by the historians scholars The Guardian <https://www.theguardian.com/books/booksblog> 2012 apr 10 encyclopedia britannica 11th edition [Library of Congress Subject Headings](#) Library of Congress, Library of Congress. Office for Subject Cataloging Policy, 2012 [Musical Encounters with Deleuze and Guattari](#) Pirkko Moisala, Taru Leppänen, Milla Tiainen, Hanna Väättäinen, 2017-01-12 This is the first volume to mobilize encounters between the work of Gilles Deleuze and Félix Guattari and the rich developments in cultural studies of music and sound The book takes seriously the intellectual and political challenge that the process philosophy of Deleuze and Guattari poses for previous understandings of music as permanent objects and primarily discursive texts By elaborating on the concepts of Deleuze and Guattari in innovative ways the chapters of the book demonstrate how musical and sonic practices and expressions can be reconsidered as instances of becoming actors in assemblages and actualizations of virtual tendencies The collection pushes notions of music and sound beyond such long term paradigms as identity thinking the privileging of signification and the centrality of the human subject The chapters of the volume bring a range of new topics and methodological approaches in contact with Deleuze and Guattari These span from movement improvisation jazz and western art music studies sound and performance art and reality TV talent shows to deaf musicians and indigenous music

The book also highlights such fresh ways of doing analysis and shaping the methodological tools of music and sound studies that are enabled by Deleuze and Guattari's philosophy. Their philosophy too gains renewed capacities and potential when responding to ethnographic cultural ethnomusicological participatory aesthetic new materialist feminist and queer perspectives to music and sound. Strangely however philosophers have tended to ignore genocide. Even more problematic philosophy and philosophers bear more responsibility for genocide than they have usually admitted. In *Genocide and Human Rights: A Philosophical Guide* an international group of twenty five contemporary philosophers work to correct those deficiencies by showing how philosophy can and should respond to genocide particularly in ways that defend human rights. LOUGHBOROUGH, 1849 *The Pacific Telegraph and Railway* John Loughborough, 1849 *New Television* Martin Shuster, 2017-11-24 Even though it's frequently asserted that we are living in a golden age of scripted television television as a medium is still not taken seriously as an artistic art form nor has the stigma of television as chewing gum for the mind really disappeared. Philosopher Martin Shuster argues that television is the modern art form full of promise and urgency and in *New Television* he offers a strong philosophical justification for its importance. Through careful analysis of shows including *The Wire*, *Justified* and *Weeds* among others and European and Anglophone philosophers such as Stanley Cavell, Hannah Arendt, Martin Heidegger and John Rawls Shuster reveals how various contemporary television series engage deeply with aesthetic and philosophical issues in modernism and modernity. What unifies the aesthetic and philosophical ambitions of new television is a commitment to portraying and exploring the family as the last site of political possibility in a world otherwise bereft of any other sources of traditional authority. Consequently at the heart of new television are profound political stakes.
