Turbo Taal Van Socio Babble Tot Yuppie Speak:

Postmodifying Clauses in the English Noun Phrase Pieter De Haan, 1989 This book reports on the results of a project whose aim was to give a detailed description of a number of syntactic properties of postmodifying clauses in the English NP and study the way in which some of these properties are related to each other in a variety of text types The study is based on an examination of the Nijmegen Corpus which consists of slightly over 130 000 words of running text The structure of the NP is described basically in terms of four constituents DeterminerPremodifierHeadPostmodifier No fewer than 2 430 occurrences of postmodifying clauses in NPs were analysed A numerical coding scheme was designed in which 26 different variable features were encoded describing the properties the postmodifying clauses These were processed and statistically analysed The book discusses the methodology adopted and the results of the statistical analyses Among the properties described are the function of NPs with postmodifying clauses the structure of these NPs the realisation and reference of the heads of these NPs the specific types of postmodifying clause the actual link words used the clause patterns occurring in the postmodifying clauses and the verb phrases in the postmodifying clauses **Turbo-taal** Jan Kuitenbrouwer, 1987 Korte beschrijving van diverse vormen van modieuze taalgebruik Speaking from the Margin Anna Duszak, Urszula Okulska, 2004 The papers in this volume analyze the language situation under globalization in several European countries How does the spread of Global English affect the integrity of the local systems Changes in lexical and discursive repertoires are evidenced and discussed It is shown how new social identities are linguistically constructed and redefined in the social consciousness of the various local communities The authors see globalization as a major change in progress that sets in relief the dual capacity of language communication and identification The collection reconciles empirical data analysis with profound attention to a host of theoretical issues such as a new ecology for language under globalization or a new interdiscursivity of globalizing communications It is argued that globalization as recontextualization of meanings poses a serious challenge for a new science of language The spatial imagery of center margin is chosen to expound on the complex interaction between the global and the local The concept of a glocal view on language affords a new perspective for coping with massive linguistic change **Towards New Ways of Terminology Description** Rita Temmerman, 2000-06-15 Based on an empirical study of categorisation and lexicalisation processes in a corpus of scientific publications on the life sciences Rita Temmerman questions the validity of traditional terminology theory Her findings are that the traditional approach impedes a pragmatic and realistic description of a large number of categories and terms Inspired by the cognitive sciences she develops an alternative The main principles of this new theory imply a combined semasiological and onomasiological perspective only few categories can be clearly delineated form and content of definitions vary according to category types and user's requirements synonymy and polysemy are functional in special language and a diachronic approach is unavoidable This last principle implies the varying importance of historical information in definitions the non arbitrariness of lexicalisation and the

importance of cognitive models In a last chapter the author shows how the methods and principles of the alternative approach are applicable in terminography and how this is going to have an impact on software for terminological database construction This book will be valuable for specialists in terminology theory practising terminographers and for anybody interested in special language cognitive models and prototype theory Geschiedenis van de Nederlandse syntaxis Joop van der Horst, Jan van der Horst, 2008 Leren van beroepservaring + CD-ROM / druk 4 / ING, 2005 Werkcahier voor het aanleren van reflectieve vaardigheden aan de hand van voorbeelden uit de gezondheidszorg en welzijnszorg *Canadian Journal of Netherlandic Studies*, 2000 **Monumenten van beleid** Sjoerd Keulen, 2014 Monumenten van Beleid laat zien hoe topambtenaren politici en sociale wetenschappers vanaf de wederopbouw tot de opkomst van Pim Fortuyn gezamenlijk het rijksoverheidsbeleid ontwikkelden De grote veranderingen in de Nederlandse verzorgingsstaat worden aan de hand van ideaaltypes van beleid op het gebied van landbouw ontwikkelingssamenwerking gevangenenzorg en milieubeleid geduid Gebaseerd op omvangrijk archiefonderzoek biedt deze studie een inkijk in de besloten burelen van de overheid en de achterkamertjes van de politiek Zo wordt duidelijk hoe tijdens de wederopbouw boerenorganisaties met behulp van economische modellen koehandel met de melkprijs bedreven We zien ook hoe ambtenaren van ontwikkelingssamenwerking in hun poging het jongerenprotest buiten het departement te houden het lid op de neus kregen waarom gevangenen in de jaren zeventig geen tralies kregen en het milieubeleid in de jaren tachtig werd geïnspireerd door managementgoeroes Deze vier casestudies leggen de tijdgebonden en ideologische context van het beleid bloot **Jongerentaal** Cor Hoppenbrouwers, Cornelis Antonius Johannes Hoppenbrouwers, 1991 Overzicht van trendy taalgebruik van Nederlandse jongeren eind jaren 80 Met woordenlijst Bibliographie zur indogermanischen Wortforschung 3 Bde.
