Wetland Design Principles And Practices For Landscape Architects And Land Use Planners

Robert L. France

Wetland Design Principles And Practices For Landscape Architects And Land Use Planners:

Wetland Design Robert Lawrence France, 2003 Wetlands combine the beauty of both aesthetic form and ecological function in a way that few other landforms can match

Restorative Redevelopment of Devastated Ecocultural Landscapes Robert L. France, 2016-04-19 A fusion of ecological restoration and sustainable development restorative redevelopment represents an emerging paradigm for remediating landscapes Rather than merely fixing the broken bits and pieces of nature restorative development advocates the reuse of devastated landscapes to improve the value and livability of a location for humans at the

Quality of Life in Urban Landscapes Roberta Cocci Grifoni, Rosalba D'Onofrio, Massimo Sargolini, 2017-12-14 This volume introduces an innovative tool for the development of sustainable cities and the promotion of the quality of life of city inhabitants It presents a decision support system to orient public administrations in identifying development scenarios for sustainable urban and territorial transformations The authors have split the volume into five parts which respectively describe the theoretical basis of the book the policies in question and indicators that influence them the decision support system that connects indicators to policies the case study of Ancona Italy and potential future directions for this work This volume is based on transdisciplinary research completed in May 2016 that involved about 40 researchers at The University of Camerino Italy and other European universities With purchase of this book readers will also have access to Electronic Supplementary Material that contains a database with groups of indicators of assessment of urban quality of life and a toolkit containing the data processing system and management information system used in the book's case study

Handbook of Regenerative Landscape Design Robert L. France, 2007-10-18 What if environmentally damaged landscapes could not only be remediated from an ecological standpoint but also designed to replenish an entire community as well as the nature surrounding it The Handbook of Regenerative Landscape Design incorporates ecology engineering sociology and design elements into a new paradigm for environmental r

Urban Ecology Richard T. T. Forman, 2014-02-13 The first richly illustrated worldwide portrayal of urban ecology tying together organisms built structures and the physical environment around cities

Dictionary of Sustainability Margaret Robertson, 2017-05-12 The Dictionary of Sustainability provides clear and accurate definitions of the extensive vocabulary that has developed in this emerging and interdisciplinary field saving considerable time from searching through the massive quantity of information of differing degrees of quality that is available through the Internet Providing authoritative definitions of standard terms used by scholars and practitioners it provides a clear and thorough conceptual framework and ensures those delving into topics for the first time or returning to them can quickly find what they need It also contains careful use of cross references and includes several expanded entries to provide readers with nuanced understanding of important topics The dictionary will be essential reading for all students studying sustainability topics as well as a handy reference for practitioners wanting to make a sustainable difference in the workplace

Wetland and Water Resource Modeling and Assessment Wei Ji, 2007-12-13 As a

wetland of international importance located in China the Poyang Lake Basin's incredible topographical and biological diversity has provided a congregating point for scientists from around the world to engage in cross disciplinary research In particular the International Conference on Poyang Lake Complex Environment System was instrumental in Introduction to Watershed Development Robert Lawrence France, 2006 Sprawl the spread of development from urban centers into the countryside is recognized as one of the most serious threats to watershed functionality and health Introduction to Watershed Development Understanding and Managing the Impacts of Sprawl presents a logical framework to measure minimize and manage the problem of development From the viewpoint of understanding the responses of watersheds to sprawl this book addresses issues such as how water bodies are linked to the land what the horizon issues and problems are in watershed management which surveying approaches can be used to monitor the change to watersheds and how new water sensitive developments can be planned Exploring what landscape architecture approaches can be used to mitigate the problems of development Introduction to Watershed Development is Robert L France's distinctive and extremely well informed perspective on watershed management culled from the author's many years of research scholarship consulting and teaching from back cover *Buildings Are for People* Bill Caplan, 2016-04-30 Buildings are for People Human Ecological Design offers a new approach to the process of conceiving architectural design one that considers the interactions of the built environment with people and the natural environment The book exposes our visceral and experiential connections to buildings and how buildings intervene directly with our ecosystem natural environment and sense of place It brings to light our ability to utilize a building's surfaces shape and materiality to synergize with the energy and forces of nature for a more green and sustainable architecture It points out many of the roadblocks to successful design including issues in education the profession regulation and the industry's institutions providing an awareness that heretofore is rarely discussed Most importantly Buildings are for People Human Ecological Design highlights the obvious that buildings are built for people a fact that seems to have been overlooked in the last half century **Waymarking Italy's Influence on the American Environmental Imagination While on Pilgrimage to Assisi** Robert Lawrence France, 2020-09-10 Undertaking a peripatetic pilgrimage that is equal parts a daily description of a 200 kilometre walk from the wounded mountain of La Verna to the tortured river in Assisi and an examination of the debt owed to Italy in terms of ecocultural and environmental scholarship this book provides an innovative addition to the nascent field of ecocritical narrative scholarship Through a process that has been referred to as deep travel or mind walking the text fulsomely reviews how time spent in Italy influenced the writings of notable North American environmental historians geographers scientists nature writers landscape architects and restoration theorists about the conception and manipulation of the natural world This literary field study highlights how the phenomenological co traversing of texts and trails can be a valued methodology for undertaking environmental criticism
