What Are Intellectuals Good For:

What Good are Intellectuals? Bernard-Henri Lévy, 2000 In an intimate dialogue with some of the world's best minds in the form of essays interviews and responses to the question What good are intellectuals 44 of the world's most respected authors reflect on life death and meaning Essays include remarks by Wietske Venema on the eve of his suicide and excerpts from Marc Lambron's journal detailing life in Paris from Egyptomania to astrology and lesbianism **What are Intellectuals Good For?** George Scialabba, 2009 Nonfiction Politics Literary Criticism WHAT ARE INTELLECTUALS GOOD FOR appraises a large gallery of twentieth century intellectuals including Randolph Bourne Dwight Macdonald Lionel Trilling Irving Howe Isaiah Berlin William F Buckley Jr Allan Bloom Richard Rorty Stanley Fish Christopher Lasch Edward Said Ellen Willis and Christopher Hitchens It also includes two essays on intellectuals and politics and concludes with one on moral consequences of our species cyber evolution George Scialabba a columnist for the Boston Globe and contributor to the Boston Review Dissent the American Prospect and the Nation is admired by a circle of discerning readers WHAT ARE INTELLECTUALS GOOD FOR his second essay collection brings his voice to a larger audience Scott McLemee the Intellectual Affairs columnist of InsideHigherEd has contributed a foreword Public Intellectuals and the Common Good Todd C. Ream, Jerry A. Pattengale, Christopher J. Devers, 2021-01-26 In the midst of a divisive culture public intellectuals speaking from an evangelical perspective have a critical role to play within the church and beyond Representing the church higher education journalism and the nonprofit sector these world class scholars and practitioners cast a vision for intellectuals who promote human flourishing **The Intellectual Species** John Rodden, 2022-01-17 This book explores the prospects for survival of what we have come to know as the intellectual in the post Gutenberg age It addresses the contemporary history of this species spawned in the print age meditating on the precarious future of international intellectual life in the digital era of nanosecond soundbites fake news smart phones and clicks and scrolls in lieu of reading The book ponders these issues as it addresses the examples of a diverse group of British American French and German intellectuals of the post World War II era These case histories showcase concretely the state of the culture in the context of particular lives offering diverse intellectual portraiture featuring a wide range of writers across the ideological spectrum The key family resemblance of these figures is that most of them are contrarians regardless of whether they were freelance writers or academic intellectuals American or British or European and chiefly imaginative writers or non fiction writers and scholars Among the intellectuals discussed are George Orwell Dwight Macdonald Irving Howe Camille Paglia Albert Camus Robert Havemann and others Regardless of which intellectual domains occupied their energies the histories of all of them yield insight into the transformation of cultural life in recent decades and the contrasting challenges faced by intellectuals of earlier eras versus our own These issues are of paramount significance for all those who care about the life of the mind and the future of homo sapiens *The New Public Intellectual* Jeffrey R. Di Leo, Peter Hitchcock, 2016-04-08 What are the theoretical parameters that produce the category

public intellectual By pondering the conceptual elements that inform the term this book offers not just a political critique but a sense of the new challenges its meanings present This collection complicates the notion of public intellectual while arguing for its continued urgency in communities formal and informal institutional and abstract While it is not quite accurate to say public intellectuals have disappeared entirely it is clear they function differently in an age of global neoliberalism and techno digital overdrive Today the idea of the public intellectual bears only the slightest resemblance to what it was fifty or even twenty five years ago The essays in this collection provide a number of different ways to imagine the fate of public intellectuals and offers a thorough exploration of the commonplace ideologies and politics associated with them

Intellectuals and Power François Laruelle, 2014-12-23 In this important new book the leading philosopher François Laruelle examines the role of intellectuals in our societies today specifically with regards to criminal justice He argues that rather than concerning themselves with abstract philosophical notions like justice truth and violence intellectuals should focus on the human victims Drawing on his influential theory of non philosophy he shows how we can submit the theorizing of intellectuals to the scrutiny of the everyday suffering of the victims of crime In the course of a wide ranging discussion with Philippe Petit Laruelle suspends the presumed authority of intellectuals by challenging the image of the dominant intellectual exemplified by philosophers such as Sartre Foucault Lyotard and Debray In place of domination he puts forward instead a theory of determination the determined intellectual is one whose character is conditioned by his relationship to the victim rather than one who attempts to dominate the victim sexperience through a process of theorizing While philosophy consistently takes the voice away from victims of suffering non philosophy is able to construct a theory of violence and crime that gives voice to the victim This highly original book will be essential reading for all those interested in contemporary French philosophy and all those concerned with justice in the modern world

Christian Intellectuals and the Roman Empire Jared Secord, 2021-05-06 Early in the third century a small group of Greek Christians began to gain prominence and legitimacy as intellectuals in the Roman Empire Examining the relationship that these thinkers had with the broader Roman intelligentsia Jared Secord contends that the success of Christian intellectualism during this period had very little to do with Christianity itself With the recognition that Christian authors were deeply engaged with the norms and realities of Roman intellectual culture Secord examines the thought of a succession of Christian literati that includes Justin Martyr Tatian Julius Africanus and Origen comparing each to a diverse selection of his non Christian contemporaries Reassessing Justin's apologetic works Secord reveals Christian views on martyrdom to be less distinctive than previously believed He shows that Tatian's views on Greek culture informed his reception by Christians as a heretic Finally he suggests that the successes experienced by Africanus and Origen in the third century emerged as consequences not of any change in attitude toward Christianity by imperial authorities but of a larger shift in intellectual culture and imperial policies under the Severan dynasty Original and erudite this volume demonstrates how distorting the myopic focus on Christianity as a religion

has been in previous attempts to explain the growth and success of the Christian movement It will stimulate new research in the study of early Christianity classical studies and Roman history **The New York Public Intellectuals and Beyond** Ethan Goffman, Daniel Morris, 2009 Here a variety of distinguished scholars revisit and rethink the legacy of the New York intellectuals showing how this small predominantly Jewish group moved from communist and socialist roots to become a primary voice of liberal humanism and in the case of a few to launch a new conservative movement *Reviewing Political Criticism* Elisabeth K. Chaves, 2016-04-08 *Reviewing Political Criticism* examines the rise of the review form of journal publication from the early eighteenth to the early twenty first centuries The review belongs to a long tradition of written political criticism that first advised then revised and with the increased confidence afforded to civil society by the rise of market capitalism subsequently challenged and even transformed the state s view on what and how it governed Chaves investigates the crucial nexus of intellectual debate with political judgment over this time and highlights the review s central role in upholding this connection Focusing upon critical moments that required the exercise of political judgment the book explains this journal form as a means of political practice one that essentially re views the state s view of how society should be ordered To understand critical activity one must reflect on where this activity takes place on the institutions of criticism that sustain it Referred to by some as the natural habitat of intellectuals journals as the institutionalized sites of theoretical discourse are often overlooked This groundbreaking book offers a concentrated critique of the review form of journal publication as a medium for political thought and action as a decisive site for political judgment by the state s conservers and critics *Intellectuals and the American Presidency* Tevi Troy, 2002 This book examines the contact relationships between U S presidents and America s intellectuals since 1960
