On African Music Kofi Agawu, Victor Kofi Agawu, 2023

Written by one of the best known academic writers on African music On African Music is a collection of seven essays addressing various techniques influences and scholarly approaches to African music After a concise introduction spelling out the rationale for the book successive chapters develop answers to questions such as How does a minimalist impulse animate creativity in Africa and does Western minimalism differ from African minimalism How do we explain the prevalence of iconic effects in African expressive forms How has European tonality functioned as a colonizing force in African music Why is the written art music of the continent talked about so little when it has been in existence since the middle of the nineteenth century How might the discipline of music theory be rejuvenated by aid from Africa What are the strengths and limitations of ethnotheory as a methodology Who is who in theorizations of African rhythm and how might we explain the shape of the existing archive This book thus deals with analytical and interpretive issues the politics of scholarship and salient features of African music Laced with provocative viewpoints on each page On African Music should appeal not only to readers curious

about the structural underpinnings of African music but also to those who wish to reflect critically and philosophically on how we study and write about the music of the continent how we might approach its global status with a firm understanding from the inside and what our priorities might be in promoting an empowering cosmopolitan discourse *Chiefs of the Plantation* Lincoln Addison, 2019-08-15 South African agriculture is characterized by growing labour unrest evinced in recent years by high profile strikes but little is known about the sources and forms of day to day struggle In *Chiefs of the Plantation* Lincoln Addison examines how labour conflict is fuelled by changing management practices and how workers respond and resist across spatial sexual and spiritual domains Depicting in rich ethnographic detail daily life on a plantation Addison describes how agriculture has been restructured in the post apartheid era through a delegation of authority from white landowners to black intermediaries He explains that while this labour regime enables the profitability of plantations it gives rise to a fragile moral economy in which perceptions of what is tolerable and what is exploitation frequently clash In this environment transactional sex and Christian worship emerge as important terrains of gendered and spiritual contestation where women and low ranking workers remain resilient in the face of unequal power relations Meanwhile plantations project an appearance of benevolent paternalism particularly in the narratives and self identity of white landowners This book reveals how in the everyday life of the community both the plantation and the compound where the workers live serve as central grounds for the negotiation of labour relations A groundbreaking study that uncovers how migrant plantation workers challenge their exploitation *Chiefs of the Plantation* is a rare glimpse into the often hidden world of labour struggle on contemporary plantations [Sustainable Management Development in Africa](#) Hamid Kazeroony, 2016-04-14 *Sustainable Management Development in Africa* examines how African management and business scholarship can serve African and multinational management and organizations operating in Africa In a broader sense this book within an African context explores how human capital and intellectual capabilities can be organized at the higher education level describes the cultural social and political influencers impacting management and organization helps conceptualize African management theories to address organizational effectiveness addresses the current management and organizational practices in Africa in identifying challenges and provides guidance for more effective management and organizational operation Aimed at researchers academics and advanced students alike this book lays the groundwork for the application of uniquely African theoretical and practical perspectives for sustainable management and organizational operation as explained from a contemporary African point of view In addition and most important this book contains a uniquely African content that allows for developing new theories and examining new ways of doing business thus reaffirming the rise of African scholarship in the fields of management organization and business **Autophagy - A Double-Edged Sword** Yannick Bailly, 2013-04-17 The chapters in this book review the latest advances in the molecular mechanisms of autophagy highlighting some of the most challenging research topics The focus is mainly on how this basic cell defense mechanism comes into play in various pathologies

including liver diseases myopathies infectious diseases cancers and neurodegenerative diseases In these diseases the contradictory autophagy roles of cell survival versus cell death emphasize the necessity of taking into account this double edged nature in future development of already promising autophagy modulating therapies
