Unlocking World Hospitality Interventions Philosophy Ebook:

Unlocking the World Claudia W. Ruitenberg, 2015-12-03 *Unlocking the World* proposes hospitality as a guiding ethic for education. Based on the work of Jacques Derrida, it suggests that giving place to children and newcomers is at the heart of education. The primary responsibility of the host is not to assimilate newcomers into tradition but rather to create or leave a place where they may arrive. Hospitality as a guiding ethic for education is discussed in its many facets, including the decentered conception of subjectivity on which it relies, the way it casts the relation between teacher and student, and its conception of curriculum as an inheritance that asks for a critical reception. The book examines the relation between an ethic of hospitality and the educational contexts in which it would guide practice. Since these contexts are marked by gender, culture, and language, it asks how such differences affect enactments of hospitality. Since hospitality typically involves a power difference between host and guest, the book addresses how an ethic of hospitality accounts for power, whether it is appropriate for educational contexts marked by colonialism, and how it might guide education aimed at social justice.

Mobilizing Hospitality Sarah Gibson, 2016-09 The concept of mobility has sparked lively academic debate in recent years. Drawing on research from the fields of anthropology, geography, sociology, and tourism studies, this volume examines the intersection between mobility and hospitality, highlighting the issues that emerge as we encounter strangers in a mobile world. Through a series of diverse empirical accounts, it focuses on the transnational movement of people in the contexts of migration and tourism and examines how hospitality serves as a way of promoting and policing encounters, questioning how these relations are marked by exclusion as well as inclusion and by violence as well as by kindness. In addition to exploring the power relations between mobile populations, hosts and guests, and attitudes, hospitality and hostility, the book also examines spaces of hospitality and mobility such as cities, hotels, clubs, cafes, spas, asylums, restaurants, homes, and homepages. In doing so, it makes a significant contribution to the political and ethical dimensions of mobile social relations.

Mobilizing Hospitality Jennie Germann Molz, Sarah Gibson, 2007 *Radical Hospitality* Richard Kearney, Melissa Fitzpatrick, 2021 *Radical Hospitality* addresses a timely and challenging subject for contemporary philosophy: the ethical responsibility of opening borders, psychic and physical, to the stranger. The book engages urgent moral conversations concerning identity, nationality, immigration, peace, and justice for the work of living together. **The Conditions of**

Hospitality Thomas Claviez, 2022 Hospitality is a multifaceted concept that has been received by and worked into various academic realms and disciplines such as philosophy, politics, anthropology, aesthetics, ethics, and translation studies. The essays collected in this volume by a wide range of international contributors examine how, in the wake of the work of Levinas and the late Derrida, this concept has entered into and transformed the thinking of these disciplines.
