Muhammad in the Digital Age Ruqayya Yasmine Khan, 2015-11-15 The early twenty first century has experienced an unrivaled dissemination of information and misinformation about Islam its prophet Muhammad and its followers largely facilitated by the fact that the tragedy of 9 11 roughly coincided with the advent of the digital age In the first collection of its kind Ruqayya Khan has compiled essays that treat Muhammad and the core elements of Islam as focal points in an exploration of how the digital era including social media and other expressions have both had an effect on and been affected by Islam Scholars from a variety of fields deal with topics such as the 2005 cartoon controversy in Denmark and the infamous 2012 movie trailer Innocence of Muslims that some believe sparked the attacks on the US consulate in Benghazi as well as how the digitization of ancient texts have allowed the origins of Islam to be studied in new ways Other essays examine how Muhammad s wives have been represented in various online sources including a web comic the contrasting depictions of Muhammad as both a warrior and peacemaker and how the widespread distribution of the look of Islamic terrorists has led to attacks on Sikhs whose only point of resemblance to them may be a full beard These findings illuminate the role of the Internet in forms of representation advocacy and engagement concerning Islam and Muslims in our world today **Islamic Algorithms** Gary R. Bunt, 2024-04-04 This book examines how Islam is digitally mediated at a time of technological change enhanced digital literacy and proactive engagement in Islamic online content by authorities and influencers What is the impact of this on societies believers and understandings of Islam Islamic Algorithms provides a thorough exploration of Cyber Islamic Environments CIEs through representations of significant historical and religious influences across contexts and

diversities This ranges from jinn and angels through to contemporary influencers Gary R Bunt raises issues of how digital content is embedded in contemporary understandings of Islam and their dissemination Bunt shows how the interpretation of pivotal figures in Islam including Muhammad and his family scholars and imams can be informed by new generations of digital influences such as apps and social networking which have become primary sources of information for many Muslims globally
