Summary Simplify Publishers, 2021-04-12 Notice to Readers This is not the main book it is just a summary by simplify publishers It is not meant to replace the original book Bree is becoming more settled into her new life and responsibilities and she's trying to deal with some of her long standing trust issues I like the way the author dovetails Bree's work and home life into her stories He and Bree work together very well and I really enjoy their working dynamic Bree admits that her focus can be too narrow and she needs someone like Matt at her back someone who can see things she might have missed and more than anything someone she can trust implicitly Bree and Matt open their investigation by questioning Holly's husband the Thorpe's marriage was incredibly volatile with frequent rows that often saw Holly storming out to go and stay with her sister and their financial situation was precarious owing to their living beyond their means as well as having to pay towards the medical costs for Holly's mother who has Stage 4 cancer But when he's gunned down outside his own home shortly after another avenue of investigation into Holly's death is closed off and Bree has to consider the fact that the two murders may be linked And then there are Bree's personal relationships her past trauma she was just eight years old when her father shot her mother and then himself she protected her younger siblings but grew up apart from them when they went to live with one relative and Bree another isn't something she's dealt with all that well and growing up apart from her siblings has left a mark meaning she has to work hard at maintaining personal relationships and learn not to run from them especially if they could expose her vulnerability Their relationship is progressing slowly partly because Bree doesn't want to be the subject of yet more gossip she's had enough of that to last a lifetime and partly because she's still adjusting to the massive changes her life has gone through over the past few months GET A COPY NOW
