city and more recently the pop up city have become pervasive monikers that identify a new type of urbanism that has sprung up globally produced and managed by the business improvement district and known colloquially by its acronym BID With this case study Susanna F Schaller draws on more than fifteen years of research to present a direct focused engagement with both the planning history that has shaped Washington D C s segregated landscape and the intricacies of everyday life politics and planning practice as they relate to BIDs Schaller offers a critical unpacking of the BID ethos which draws on the language of economic liberalism individual choice civic engagement localism and grassroots development to portray itself as color blind democratic and equitable Schaller reveals the contradictions embedded in the BID model For the last thirty years BID advocates have engaged in effective and persuasive storytelling as a result many policy makers and planners perpetuate the BID narrative without examining the institution and the inequities it has wrought as BID urbanism has oiled the urban gentrification machine Schaller sheds light on these oversights thus fostering a critical discussion of BIDs and their collective influence on future urban landscapes

Main Street Mindy Thompson Fullilove,2020-09-08 Mindy Thompson Fullilove traverses the central thoroughfares of our cities to uncover the ways they bring together our communities After an 11 year study of Main Streets in 178 cities and 14 countries Fullilove discovered the power of city centers to help us name and solve our problems In an era of compounding crises including racial injustice climate change and COVID 19 the ability to rely on the power of community is more

important than ever However Fullilove describes how a pattern of disinvestment in inner city neighborhoods has left Main Streets across the U S in disrepair weakening our cities and leaving us vulnerable to catastrophe In the face of urban renewal programs built in response to a supposed lack of personal responsibility Fullilove offers a different story that of a series of forced displacements that had devastating effects on inner city communities Through that lens we can appreciate the strength of segregated communities that managed to temper the ravages of racism through the Jim Crow era and build political power and many kinds of wealth Only a very well integrated powerful community one with deep spiritual principles could have accomplished such a feat This is the power she hopes we will find again Throughout Main Street readers glimpse strong vibrant communities who have conquered a variety of disasters from the near loss of a beloved local business to the devastation of a hurricane Using case studies to illustrate her findings Fullilove turns our eyes to the cracks in city centers the parts of the city that tend to be avoided or ignored Providing a framework for those who wish to see their communities revitalized Fullilove s Main Street encourages us all to look both inward and outward to find the assets that already exist to create meaningful change

Undoing the Knots Maureen O'Connell,2022-01-25 A personal and historical examination of white Catholic anti Blackness in the US told through 5 generations of one family and a call for meaningful racial healing and justice within Catholicism Excavating her Catholic family s entanglements with race and racism from the time they immigrated to America to the present Maureen O Connell traces by implication how the larger Catholic population became white and why despite the tenets of their faith so many white Catholics have lukewarm commitments to racial justice O Connell was raised by devoutly Catholic parents with a clear moral and civic guiding principle those to whom much is given much is expected She became a theologian steeped in social ethics engaged in critical race theory and trained in the fundamentals of anti racism And still she found herself failing to see how her well meaning actions affected the Black members of her congregations It seemed that whenever she tried to undo the knots of racism she only ended up getting more tangled in them Undoing the Knots weaves together narrative history theology and critical race theory to begin undoing these knots to move away from doing good and giving back and toward dismantling the white

Catholic identity and the economic and social structures it has erected and maintained

The Black Butterfly Lawrence T. Brown, 2021-01-26 The best selling look at how American cities can promote racial equity end redlining and reverse the damaging health and wealth related effects of segregation Winner of the IPPY Book Award Current Events II by the Independent Publisher The world gasped in April 2015 as Baltimore erupted and Black Lives Matter activists incensed by Freddie Gray s brutal death in police custody shut down highways and marched on city streets In *The Black Butterfly* a reference to the fact that Baltimore s majority Black population spreads out like a butterfly s wings on both sides of the coveted strip of real estate running down the center of the city Lawrence T Brown reveals that ongoing historical trauma caused by a combination of policies practices systems and budgets is at the root of uprisings and crises in hypersegregated cities around the country Putting Baltimore under a microscope Brown looks closely at the causes of segregation many of which exist in current legislation and regulatory policy despite the common belief that overtly racist policies are a thing of the past Drawing on social science research policy analysis and archival materials Brown reveals the long history of racial segregation s impact on health from toxic pollution to police brutality Beginning with an analysis of the current political moment Brown delves into how Baltimore s history influenced actions in sister cities such as St Louis and Cleveland as well as Baltimore s adoption of increasingly oppressive techniques from cities such as Chicago But there is reason to hope Throughout the book Brown offers a clear five step plan for activists nonprofits and public officials to achieve racial equity Not content to simply describe and decry urban problems Brown offers up a wide range of innovative solutions to help heal and restore redlined Black neighborhoods including municipal reparations Persuasively arguing that since urban apartheid was intentionally erected it can be intentionally dismantled *The Black Butterfly* demonstrates that America cannot reflect that Black lives matter until we see how Black neighborhoods matter

Whiteout Helena Hansen, David Herzberg, Jules Netherland, 2025-02-11 The first critical analysis of how Whiteness drove the opioid crisis In the past two decades media images of the surprisingly white new face of the US opioid crisis abounded But why was the crisis so white Some argued that skyrocketing overdoses were deaths of despair signaling deeper socioeconomic anguish in white communities *Whiteout* makes the counterintuitive case that the opioid crisis was the product of white racial privilege as well as despair Anchored by interviews data and riveting firsthand narratives from three leading experts an addiction psychiatrist a policy advocate and a drug historian *Whiteout* reveals how a century of structural racism in drug policy and in profit oriented medical industries led to mass white overdose deaths The authors implicate racially segregated health care systems the racial assumptions of addiction scientists and relaxed regulation of pharmaceutical marketing to white consumers *Whiteout* is an unflinching account of how racial capitalism is toxic for all Americans
