Urban Myths About Learning And Education:

Urban Myths about Learning and Education Pedro De Bruyckere, Paul A. Kirschner, Casper D. Hulshof, 2015-03-06
Many things people commonly believe to be true about education are not supported by scientific evidence Urban Myths about Learning and Education examines commonly held incorrect beliefs and then provides the truth of what research has shown Each chapter examines a different myth with sections on learning the brain technology and educational policy A final section discusses why these myths are so persistent Written in an engaging style the book separates fact from fiction regarding learning and education Recognize any of these myths People have different styles of learning Boys are naturally better at mathematics than girls We only use 10% of our brains The left half of the brain is analytical the right half is creative Men have a different kind of brain from women We can learn while we are asleep Babies become smarter if they listen to classical music These myths and more are systematically debunked with useful correct information about the topic in question Debunks common myths about learning and education Provides empirical research on the facts relating to the myths Utilizes light hearted approachable language for easy reading More Urban Myths About Learning and Education Pedro De Bruyckere, Paul A. Kirschner, Casper Hulshof, 2019-10-18 More Urban Myths About Learning and Education Challenging Eduquacks Extraordinary Claims and Alternative Facts examines common beliefs about education and learning that are not supported by scientific evidence before using research to reveal the truth about each topic The book comprises sections on educational approaches curriculum educational psychology and educational policy concluding with a critical look at evidence based education itself Does playing chess improve intelligence Should tablets and keyboards replace handwriting Is there any truth to the 10 000 hour rule for expertise In an engaging conversational style authors Pedro De Bruyckere Paul A Kirschner and Casper Hulshof tackle a set of pervasive myths effectively separating fact from fiction in learning and education Liberation and Freedom in an Urban Learning Community Walter Norman Watts, 1973 Adult Education in an Urban Context: Problems, Practices, and Programming for Inner-City Communities Larry G. Martin, Elice Rogers, 2004-04-07 This sourcebook offers adult education scholars and practitioners in academic community and work related urban settings insight into the education and learning problems and needs confronted by low income residents of inner city communities Additionally it offers fresh perspectives and approaches to practice that can assist these residents in crossing the socioeconomic and race ethnicity borders that separate them from more affluent urban communities This is the 101st issue of the quarterly higher education series New Directions for Adult and Continuing Education *Comprehensive Urban Education* Patricia B. Kopetz, Anthony J. Lease, Bonnie Z. Warren-Kring, 2006 This text presents a compassionate view of teaching in an urban setting with practical suggestions recommendations and examples for powerful and effective teaching aimed at improving student academic performance Each chapter explores major considerations related to educating students of diverse cultures typical of urban classroom settings Preservice teachers are able to better understand the

complex social academic emotional and economic factors that define today's urban classrooms. The needs of urban schools, their students, teachers, community supporters, and stakeholders are identified, and various strategies are explored. The authors' combined experiences represent over a half century of dedication to improvements in diverse classrooms that ensure best practices for effective instruction.

Dr. Patricia Kopetz, Associate Professor of Graduate Studies Education, is an experienced teacher and university professor and administrator. Dr. Anthony Lease is presently an Associate Dean and is an experienced teacher, principal, school superintendent, and university instructor/administrator. Analytic Methods for Educational Productivity Herbert J. Walberg, 1993 **Readings in Education**, 1973 **Changing Urban Education** Clarence Nathan Stone, 1998

With critical issues like desegregation and funding facing our schools, dissatisfaction with public education has reached a new high. Teachers decry inadequate resources, while critics claim educators are more concerned with job security than effective teaching. Though urban education has reached crisis proportions, contending players have difficulty agreeing on a common program of action. This book tells why *Changing Urban Education* confronts the prevailing naivete in school reform by examining the factors that shape, reinforce, or undermine reform efforts. Edited by one of the nation's leading urban scholars, it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities. Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education. The contributors show how urban political contexts vary widely with factors like racial composition, the role of the teachers' union, and relations between cities and surrounding metropolitan areas. Presenting case studies of original field research in Baltimore, Chicago, Houston, and six other urban areas, they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and suggest how cities can build support for reform through the involvement of business and other community players. By demonstrating the complex interrelationship between urban education and politics, this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars. It also introduces the concept of civic capacity, the ability of educators and non-educators to work together on common goals, and suggests that this key issue must be addressed before education can be improved. *Changing Urban Education* makes it clear to educators that the outcome of reform efforts depends heavily on their political context, as it reminds political scientists that education is a major part of the urban mix. While its prognosis is not entirely optimistic, it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future.
