Urban World Richard Dobbs,Jaana Remes,James Manyika,Charles Roxburgh,Sven Smit,Fabian Schaer,McKinsey Global Institute,2012 Cities have long been the world s economic dynamos but today the speed and scale of their expansion are astonishing The latest research from the McKinsey Global Institute explores the phenomenon of urban growth and the one billion people in rapidly growing cities who will become consumers by 2025 Abstract No Ordinary Disruption Richard Dobbs,James Manyika,Jonathan Woetzel,2016-08-30 Our intuition on how the world works could well be wrong We are surprised when new competitors burst on the scene or businesses protected by large and deep moats find their defenses easily breached or vast new markets are conjured from nothing Trend lines resemble saw tooth mountain ridges The world not only feels different The data tell us it is different Based on years of research by the directors of the McKinsey Global Institute No Ordinary Disruption The Four Forces Breaking all the Trends is a timely and important analysis of how we need to reset our intuition as a result of four forces colliding and transforming the global economy the rise of emerging markets the accelerating impact of technology on the natural forces of market competition an aging world population and accelerating flows of trade capital and people Our intuitions formed during a uniquely benign period for the world economy often termed the Great Moderation Asset prices were rising cost of capital was falling labour and resources were abundant and generation after generation was growing up more prosperous than their parents But the Great Moderation has gone The cost of capital may rise The price of everything from grain to steel may become more volatile The world s labor force could shrink Individuals particularly those with low job skills are at risk of growing up poorer than their parents What sets No Ordinary Disruption apart is depth of analysis combined with lively writing informed by surprising memorable insights that enable us to quickly grasp the disruptive forces at work For evidence of the shift to emerging markets consider the startling fact that by 2025 a single regional city in China Tianjin will have a GDP equal to that of the Sweden of that in the decades ahead half of the world s economic growth will come from 440 cities including Kumasi in Ghana or Santa Carina in Brazil that most executives today would be hard pressed to locate on a map What we are now seeing is no ordinary disruption but the new facts of business life facts that require executives and leaders at all levels to reset their operating assumptions and management intuition The Oxford Handbook of Management in Emerging Markets Dr. Robert Grosse,Dr. Klaus E. Meyer,2019-01-08 For nearly two decades emerging markets have been a primary source of growth in the world economy They have become more international and compete more extensively with companies in developed countries For these reasons an understanding of managing businesses in emerging markets is a fundamental skill for competing in the twenty first century The Oxford Handbook of Management in Emerging Markets identifies key elements of the business systems and competition in emerging markets around the world and then looks at competitive strategies of companies going into and coming out of these countries While business is business the handbook s focus is on how management differs depending on

the different environmental characteristics in emerging markets such as the role of the government the potential weakness of infrastructure and the skill and innovation bases available locally in emerging markets among other elements The volume is organized into five sections The first section establishes conceptual perspectives for exploring the current business environment in emerging markets The second section focuses on questions surrounding governance and markets The third explores multinational enterprises MNEs in emerging economies while the fourth section looks at local firms and emerging market MNEs The fifth and final section looks at management in emerging markets within specific countries and regions around the world This handbook is a vital resource for scholars students and managers looking to expand into emerging economies by providing comprehensive analyses of functional areas from human resources to finance to marketing and on issues such as family businesses state owned enterprises and the bottom of the pyramid

Heritage, Culture and Rights

Andrea Durbach, Lucas Lixinski, 2017-05-18 Cultural heritage law and its response to human rights principles and practice has gained renewed prominence on the international agenda The recent conflicts in Syria and Mali China's use of shipwreck sites and underwater cultural heritage to make territorial claims and the cultural identities of nations post conflict highlight this field as an emerging global focus In addition it has become a forum for the configuration and contestation of cultural heritage rights and the broader politics of international law The manifestation of tensions between heritage and human rights are explored in this volume in particular in relation to heritage and rights in collaboration and in conflict and heritage as a tool for rights advocacy This volume also explores these issues from a distinctively legal standpoint considering the extent to which the legal tools of international human rights law facilitate or hinder heritage protection Covering a range of issues across Africa Asia Europe Latin America and Australia this volume will be of interest to people working in human rights heritage studies cultural heritage management and identity politics around the world This book fills an important gap in the literature on heritage and rights and in particular human rights law With articles from leading experts addressing the legal human rights dimensions of cultural heritage protection it makes a significant contribution to debates over issues such as Why should we safeguard heritage and for whom and What is the relationship between heritage safeguarding and protecting human rights These are deep questions of profound significance to individuals communities and even nations around the world and are of increasing urgency today It critically analyses the relationship between heritage and human rights that can be potentially pernicious as well as mutually reinforcing placing this analysis within the wider context and with a broad geographical scope with examinations of the heritage rights relationship in Southeast Asia Cambodia China and sub Saharan Africa Dr Janet Blake Associate Professor in Law Shahid Beheshti University Tehran Traversing the destruction of mausoleums in Timbuktu to war crimes trial by the International Criminal Court Heritage Culture and Rights explores the crucial links between human rights and the protection of cultural heritage The essays are accessible to all viewing the destruction of cultural heritage as a breach of human dignity and identity Unputdownable Professor Gillian Triggs President

of the Australian Human Rights Commission This collection of essays by leading scholars though primarily Australian in origin is universal in orientation Ranging from a broad survey of the applicable laws of armed conflict to a detailed consideration of urban design in Southeast Asia the essays offer significant insights into the relationship between the protection and use of cultural heritage on one hand and fundamental human rights on the other Ultimately the mutual reinforcement of the two disciplines of law prevails over carefully acknowledged tensions between them Readers at all levels of expertise will find the book of great interest Professor James Nafziger Thomas B Stoel Professor of Law and Director of International Programs at the Willamette University College of Law Reflections on Architecture, Society and Politics Graham Cairns,2016-10-04 Reflections on Architecture Society and Politics brings together a series of thirteen interview articles by Graham Cairns in collaboration with some of the most prominent polemic thinkers and critical practitioners from the fields of architecture and the social sciences including Noam Chomsky Peggy Deamer Robert A M Stern Daniel Libeskind and Kenneth Frampton Each chapter explores the relationship between architecture and socio political issues through discussion of architectural theories and projects citing specific issues and themes that have led to and will shape the various aspects of the current and future built environment Ranging from Chomsky s examination of the US Mexico border as the architecture of oppression to Robert A M Stern s defence of projects for the Disney corporation and George W Bush this book places politics at the center of issues within contemporary architecture The World's Search for Sustainable Development Mukul Sanwal,2015-11-05 This text traces the evolution of sustainable development and climate change from the time it emerged in international consultations and agreements The three sections of the book focusing on the framework climate change and sustainable development seek to cover the essentials of the politics of natural resource usage at the global level The book explores the evolution of sustainable development and climate change within the framework of the United Nations and the way the concept has been defined through intergovernmental meetings agreements and consensus within the multilateral system It also explores the best ways of reducing the risk to the planet while enabling societies to pursue sustainable development paths The challenges call for a transformation of social systems to facilitate a broadly acceptable change The book also explores the adoption of low carbon models different from the high carbon socio technical systems and related social practices **The Routledge Handbook of Planning for Health and Well-Being** Hugh Barton,Susan Thompson,Sarah Burgess,Marcus Grant,2015-05-22 Urban planning is deeply implicated in both the planetary crisis of climate change and the personal crises of unhealthy lifestyles Worldwide health issues such as obesity mental illness growing health inequalities and climate vulnerability cannot be solved solely by medicines but also by tackling the social economic and environmental determinants In a time when unhealthy and unsustainable conditions are being built into the physical fabric of cities a new awareness and strategy is urgently needed to putting health and well being at the heart of planning The Routledge Handbook of Planning for Health and Well being authoritatively and comprehensively integrates health into

Consumer Packaging Strategy Huda Khan, Richard Lee, Polymeros Chrysochou, 2022-08-18 The consumer packaged goods CPG industry is dominated by major Western brands The dominance of such major brands extends to burgeoning Asian markets These conglomerates often rely on packaging as a strategic tool to entice Asian consumers This book illustrates how packaging as a marketing tool is more than simply changing the label or translating the brand into vernacular language It examines how different packaging elements e g information imagery packaging type can help to communicate product values to Asian consumers Drawing upon rich knowledge of the Asian CPG markets with extensive findings from fieldworks in the key Asian markets this book explains how Western brands are localising their packaging design in Asian markets It provides invaluable insight into how major Western CPG brands have relied heavily on their packaging strategies to compete not only against domestic brands but also against other foreign brands The book includes in depth interviews with brand managers of several major Western CPG brands and retailers and sheds light on emerging trends of CPG packaging in Asia

Winning Global Markets Philip Kotler, Milton Kotler, 2014-08-06 A new marketing paradigm focuses on the concentrated economic power of 600 global cities City Centered Marketing Why Local is the Future of Global Business is a compelling practical analysis of a new direction of marketing within the context of intensifying urbanization and the shift of global economy from West to East Philip Kotler one of the world's foremost marketing experts and his brother Milton an international marketing strategist explain why the future of marketing must focus on top global cities and their metro regions and not squandered resources on small cities Marketing is city centered activity 600 global cities will contribute 65 percent of the global GDP of 67 trillion by 2025 The top 100 cities will contribute 25 percent of GDP and 440 of these top 600 cities will be in the developing world Top cities have to improve their marketing prowess in compete for the right companies and settling on the best terms By 2025 the vast majority of consuming and middle income households will be in developing regions While New York Los Angeles and Chicago will remain major players because of high per capita GDP and capital and intellectual assets companies will pay more attention to growing city regions in the developing world Multinational businesses must change the culture of their headquarters divisions and branches as well as their value chain stakeholders to take advantage of these market changes The book details the strategies for sustainable growth with topics like Resource allocation in developed versus developing city markets Shifting the focus to city regions instead of central governments The rise of new multinational corporations from

developing economies Declining consumer and business growth in developed cities Cities in China Brazil India and throughout the Middle East and Latin America are rising to become major players in the global marketplace Philip and Milton Kotler argue that an inversion is taking place and top cities are growing economically faster than their national rate of growth These emerging city markets are critical to company growth and City Centered Marketing Why Local is the Future of Global Business provides the vital information and guidelines that companies need to plan accordingly Ghost Cities of China Wade Shepard,2015-04-09 Featuring everything from sports stadiums to shopping malls hundreds of new cities in China stand empty with hundreds more set to be built by 2030 Between now and then the country s urban population will leap to over one billion as the central government kicks its urbanization initiative into overdrive In the process traditional social structures are being torn apart and a rootless semi displaced consumption orientated culture rapidly taking their place Ghost Cities of China is an enthralling dialogue driven on location search for an understanding of China s new cities and the reasons why many currently stand empty The Consumer Society Jean Baudrillard,2016-12-13 Jean Baudrillard s classic text was one of the first to focus on the process and meaning of consumption in contemporary culture Originally published in 1970 the book makes a vital contribution to current debates on consumption The book includes Baudrillard s most organized discussion of mass media culture the meaning of leisure and anomie in affluent society A chapter on the body demonstrates Baudrillard s extraordinary prescience for flagging vital subjects in contemporary culture long before others This English translation begins with a new introductory essay **From Asia-Pacific to Indo-Pacific** Robert G. Patman,Patrick Köllner,Balazs Kiglics,2021-11-24 This book brings together a unique team of academics and practitioners to analyse interests institutions and issues affecting and affected by the transition from Asia Pacific to Indo Pacific The Indo Pacific has emerged as the world s economic and strategic centre of gravity in which established and rising powers compete with each other As a strategic space the Indo Pacific reflects the rise of geo political and geo economic designs and dynamics which have come to shape the region in the early twenty first century These new dynamics contrast with the neo liberal ideas and the seemingly increasing globalisation for which the once dominant Asia Pacific regional label stood **Make, Think, Imagine** John Browne,2019-08-28 Today s unprecedented pace of change leaves many people wondering what new technologies are doing to our lives Has social media robbed us of our privacy and fed us with false information Are the decisions about our health security and finances made by computer programs inexplicable and biased Will these algorithms become so complex that we can no longer control them Are robots going to take our jobs Can we provide housing for our ever growing urban populations And has our demand for energy driven the Earth s climate to the edge of catastrophe John Browne argues that we need not and must not put the brakes on technological advance Civilization is founded on engineering innovation all progress stems from the human urge to make things and to shape the world around us resulting in greater freedom health and wealth for all Drawing on history his own experiences and conversations with many of today s great

innovators he uncovers the basis for all progress and its consequences both good and bad He argues compellingly that the same spark that triggers each innovation can be used to counter its negative consequences Make Think Imagine provides an eloquent blueprint for how we can keep moving towards a brighter future *Metadata and Semantics Research* Juan Manuel Dodero, Manuel Palomo-Duarte, Pythagoras Karampiperis, 2012-11-07 This book constitutes the refereed proceedings of the 6th Metadata and Semantics Research Conference MTSR 2012 held in C diz Spain in November 2012 The 33 revised papers presented were carefully reviewed and selected from 85 submissions The papers are organized in a general main track and several others a track on metadata and semantics for open access repositories research information systems and infrastructures a second on metadata and semantics for cultural collections and applications and finally one on metadata and semantics for agriculture food and environment The Laws of Globalization and Business Applications Pankaj Ghemawat, 2017 This book explains not only why the world isn't flat but also the patterns that govern cross border interactions **International Business: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2016-03-17 Business transactions and partnerships across borders have become easier than ever due to globalization and global digital connectivity As part of this shift in the business sphere managers executives and strategists across industries must acclimate themselves with the challenges and opportunities for conducting business globally International Business Concepts Methodologies Tools and Applications presents the latest research innovations focusing on cross cultural communications and training international relations multinational enterprises outsourcing international business strategies and competitive advantage in the global marketplace This publication is an exhaustive multi volume work essential to academic and corporate libraries who serve researchers scholars business executives and professionals and graduate level business students
