Japanese battleships including the dreadnoughts Yamato and Musashi plus a fleet of heavily armored cruisers and destroyers. The sky fills with multihued bursts of anti aircraft fire. The flak a Helldiver pilot would write in his action report was so thick you could get out and walk on it. Half a dozen Intrepid aircraft are blown from the sky but they sink the Musashi. A few months later off Okinawa they again meet her sister ship the mighty Yamato. In a two hour tableau of hellfire and towering explosions Intrepid's warplanes help send the super battleship and 3 000 Japanese crewmen to the bottom of the sea. We re next to nineteen year old Alonzo Swann in Gun Tub 10 aboard Intrepid as he peers over the breech of a 20 mm anti aircraft gun. He s heard of kamikazes but until today he s never seen one. Swann and his fellow gunners are among the few African Americans assigned to combat duty in the U S Navy of 1944. Blazing away at the diving Japanese Zero Swann realizes with a dreadful certainty where it will strike directly into Gun Tub 10. The authors follow Intrepid's journey to Vietnam. MiG 21 high crackles the voice of Lt Tony Nargi in his F 8 Crusader. It is 1968 and Intrepid is again at war. Launching from Yankee Station in the Tonkin Gulf Nargi and his wingman have intercepted a flight of Russian built supersonic fighters. Minutes later after a swirling dogfight over North Vietnam Nargi and Intrepid have added another downed enemy airplane to their credit. Intrepid The Epic Story of America's Most Legendary Warship brings a renowned ship to life in a stirring tribute complete with the personal recollections of those who served aboard her dramatic photographs time lines maps and vivid descriptions of Intrepid's deadly conflicts. More than a numbers and dates narrative Intrepid is the story of people those who sailed in her fought to keep her alive perished in her defense and powerfully captures the human element in this saga of American heroism.

The narrative provides an in depth discussion of the ship's origins as the collier USS Jupiter which was built with a first of propulsion system that has been adapted for use in present day Ford class carriers. Author David F Winkler considers the post World War I debate for procuring carriers the decision to convert Jupiter and the identification of constructor Clayton Simmers as the father of the American aircraft carrier. The evolution of the Langley as an experimental ship was tied to the introduction of new doctrine for the United States. Promoting an independent naval air arm against Brig Gen Billy Mitchell's vision of an independent air force the U S Navy saw Langley as an operational aircraft carrier that would change the way the Navy fought wars at sea. While the story of Langley is that of the origins of naval air combat it is also a record of the vessel's service in World War II until the ship's final posting to the Asiatic Fleet where she met her demise on February 27 1942 off the southern coast of Java. Many of the U S Navy's pioneering naval aviators are closely associated with this ship including Kenneth Whiting John H Towers Godfrey DeCourcelles Chevalier Virgil C Griffith Mel Pride Patrick N L Bellinger Joseph M
