Us Uk Counter Terrorism After 911 A Qualitative Approach Contemporary Terrorism Studies:

US-UK Counter-Terrorism after 9/11 Edgar Tembo, 2014-01-10 This book provides a qualitative analysis of post 9 11 counter terrorism strategy undertaken by the United Kingdom and United States of America Since 9 11 both the UK and the U S have significantly revamped their counter terrorism approaches The approaches apply to varying degrees three key policy instruments intelligence law enforcement and military force However the success or failure of these counter terrorism strategies has never been satisfactorily validated Analysts and policymakers alike have assumed success due to the inability of terrorists to conduct 7 7 and 9 11 respectively scale attacks upon each state This assumption has existed despite the fact that it fundamentally underestimates the impact of transnational terrorism This volume provides an in depth qualitative assessment of the three primary policy instruments implemented to counter the transnational threat of terrorism during the period 2001 2011 an approach somewhat neglected by the current body of literature which focuses on a purely quantitative methodology Drawing upon previously unpublished data collected from interviews with policymakers specialists and academics the book fills this lacuna by ascertaining and analysing both the UK s and USA s counter terrorism strategies and developing a holistic approach to understanding these strategies This book will be of interest to students of terrorism and counter terrorism studies security studies and IR in general

Counter-Terrorist Financing Law and Policy Burke Uğur Başaranel, Umut Türkşen, 2019-04-09 Since the 9 11 attacks the world has witnessed the creation of both domestic and international legal instruments designed to disrupt and interdict the financial activities of terrorists This book analyses the counter terrorist financing law CTF policy and practice at the national level focusing on Turkey The work examines the limits and capabilities of CTF efforts on terrorism threats and determines the effectiveness of CTF efforts in Turkey a country which has a pivotal role in terms of countering terrorism regionally and internationally The Turkish case study is supported by an empirical study involving 37 semi structured interviews with CTF practitioners and law enforcement experts with different affiliations and backgrounds The findings illustrate that Turkey s CTF system has not obtained an adequate level of effectiveness as a result of lack of proper implementation of its policy in the bureaucratic legal and operational spheres It is evident that the administrative and legal systems in Turkey are established according to the one size fits all international CTF standards and thus are compliant with the international CTF benchmarks yet the interviews reveal significant challenges at the implementation level including lack of training and financial security heavy handed bureaucracy inadequate coordination and communication between international and national levels The book will be an invaluable resource for academics students and policy makers working in the areas of financial crime and terrorism

9/11 and Collective Memory in US Classrooms Cheryl Lynn Duckworth, 2014-10-17 While current literature stresses the importance of teaching about the 9 11 attacks on the US many questions remain as to what teachers are actually teaching in their own classrooms Few studies address how teachers are using of all of this advice and curriculum what sorts of activities they are undertaking and how they go about

deciding what they will do Arguing that the events of 9 11 have become a chosen trauma for the US author Cheryl Duckworth investigates how 9 11 is being taught in classrooms if at all and what narrative is being passed on to today s students about that day Using quantitative and qualitative data gathered from US middle and high school teachers this volume reflects on foreign policy developments and trends since September 11th 2001 and analyzes what this might suggest for future trends in U S foreign policy The understanding that the post 9 11 generation has of what happened and what it means is significant to how Americans will view foreign policy in the coming decades especially in the Islamic World and whether it is likely to generate war or foster peace *Propaganda, Communication and Empire* Sumanth Inukonda, Oliver Boyd-Barrett, Lara

Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state s role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section re present specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations **International Terrorism Post-9/11** Asaf Siniver, 2010-04-05 This edited
