particularly in non Western and non English speaking contexts i e outside the UK USA Australia NZ etc An important feature of the book is that it draws upon the experiences and research from local experts from an extremely diverse cohort across the world 25 countries and 2 regions in total The book addresses topics such as the development of environmental education in different countries its implementation the influence of political cultural societal or religious mores governmental or ministerial drives economic or other pressures driving curriculum reform the influence of external assessment regimes on environmental education and so on The souls of white folk Brett Shadle,2015-05-01 Kenya s white settlers have been alternately celebrated and condemned painted as romantic pioneers or hedonistic bed hoppers or crude racists The souls of white folk examines settlers not as caricatures but as people inhabiting a unique historical moment It takes seriously though not uncritically what settlers said how they viewed themselves and their world It argues that the settler soul was composed of a series of interlaced ideas settlers equated civilisation with a hard to define whiteness they were emotionally enriched through claims to paternalism and trusteeship over Africans they felt themselves constantly threatened by Africans by the state and by the moral failures of other settlers and they daily enacted their claims to supremacy through rituals of prestige deference humiliation and violence The souls of white folk will appeal to those interested in the histories of Africa colonialism and race and can be appreciated by scholars and students alike **Cassell & the Publishers Association Directory of Publishing** ,1988
