Unnaturally French Foreign Citizens In The Old Regime And After:

Unnaturally French Peter Sahlins, 2018-08-06 In his rich and learned new book about the naturalization of foreigners Peter Sahlins offers an unusual and unexpected contribution to the histories of immigration nationality and citizenship in France and Europe Through a study of foreign citizens Sahlins discovers and documents a premodern world of legal citizenship its juridical and administrative fictions and its social practices Telling the story of naturalization from the sixteenth to the early nineteenth centuries *Unnaturally French* offers an original interpretation of the continuities and ruptures of absolutist and modern citizenship in the process challenging the historiographical centrality of the French Revolution *Unnaturally French* is a brilliant synthesis of social legal and political history At its core are the tens of thousands of foreign citizens whose exhaustively researched social identities and geographic origins are presented here for the first time Sahlins makes a signal contribution to the legal history of nationality in his comprehensive account of the theory procedure and practice of naturalization In his political history of the making and unmaking of the French absolute monarchy Sahlins considers the shifting policies toward immigrants foreign citizens and state membership Sahlins argues that the absolute citizen exemplified in Louis XIV's attempt to tax all foreigners in 1697 gave way to new practices in the middle of the eighteenth century This citizenship revolution long before 1789 produced changes in private and in political culture that led to the abolition of the distinction between foreigners and citizens Sahlins shows how the Enlightenment and the political failure of the monarchy in France laid the foundations for the development of an exclusively political citizen in opposition to the absolute citizen who had been above all a legal subject The author completes his original book with a study of naturalization under Napoleon and the Bourbon Restoration Tracing the twisted history of the foreign citizen from the Old Regime to the New Sahlins sheds light on the continuities and ruptures of the revolutionary process and also its consequences

The Return of Alsace to France, 1918-1939 Alison Carroll, 2018 In 1918 the end of the First World War triggered the return of Alsace and Lorraine to France after almost fifty years of annexation into the German Empire Enthusiastic crowds in Paris and Alsace celebrated the return of the lost provinces but return proved far more difficult than expected Over the following two decades politicians administrators industrialists cultural elites and others grappled with the question of how to make the region French again Differences of opinion emerged and reintegration rapidly descended into a multi faceted struggle as voices at the Parisian centre the Alsatian periphery and outside France's borders offered their views on how to introduce French institutions and systems into its lost borderland Throughout these discussions the border itself shaped the process of reintegration by generating contact and tensions between populations on the two sides of the boundary line and by shaping expectations of what it meant to be French and Alsatian *Borderland* is the first comprehensive account of the return of Alsace to France which treats the border as a driver of change It draws upon national regional and local archives to follow the difficult process of Alsace's reintegration into French society culture political and economic

systems and legislative and administrative institutions It connects the microhistory of the region with the macro levels of national policy international relations and transnational networks and with the cross border flows of ideas goods people and cultural products that shaped daily life in Alsace as its population grappled with the meaning of return to France In revealing the multiple voices who contributed to the region s reintegration it underlines the ways in which regional populations and cross border interactions have forged modern nations

Dual Nationality in the European Union Olivier

Vonk,2012-03-19 The book examines the phenomenon of dual nationality in the European Union particularly against the background of the status of European citizenship a status that is linked to the nationality of each EU Member State While the first part sets out the approach towards dual nationality in Public and Private International Law as well as in EU Law the second part consists of an overview of the dual nationality regimes in France Italy the Netherlands and Spain The book shows that the autonomy of Member States in the field of nationality law is becoming increasingly problematic for the EU and the author takes the position that there is arguably a need for the minimum harmonization of European nationality laws

a guide to the issues of immigration and migration including definitions primary sources important documents research tools organizations and notable persons So Far from Allah, So Close to Mexico Theresa Alfaro-Velcamp, 2007-07 Middle Eastern immigration to Mexico is one of the intriguing untold stories in the history of both regions In So Far from Allah So Close to Mexico Theresa Alfaro Velcamp presents the fascinating findings of her extensive fieldwork in Mexico as well as in Lebanon and Syria which included comprehensive data collection from more than 8 000 original immigration cards as well as studies of decades of legal publications and the collection of historiographies from descendents of Middle Eastern immigrants living in Mexico today Adding an important chapter to studies of the Arab diaspora Alfaro Velcamp s study shows that political instability in both Mexico and the Middle East kept many from fulfilling their dreams of returning to their countries of origin after realizing wealth in Mexico in a few cases drawing on an imagined Phoenician past to create a class of economically powerful Lebanese Mexicans She also explores the repercussions of xenophobia in Mexico the effect of religious differences and the impact of key events such as the Mexican Revolution Challenging the post revolutionary definitions of mexicanidad and exposing new aspects of the often contradictory attitudes of Mexicans toward foreigners So Far from Allah So Close to Mexico should spark timely dialogues regarding race and ethnicity and the essence of Mexican citizenship **The End of Bastardy** Matthew Dean Gerber, 2004 **The Politics of Citizenship in Germany** Eli Nathans, 2004-07 Why did German states for so long make it extraordinarily difficult for foreigners who were not ethnic Germans to become citizens In a study that begins in the early 19th century and reaches the Nazi period the author challenges the traditional interpretation of the role of ethnicity The Hispanic American Historical Review James Alexander Robertson, 2006 Includes Bibliographical section **Discourses of the Dispossessed** Jennifer Jane Pierce, 2005 *Jahrbuch des Simon-Dubnow-Instituts* , 2006 **The International Migration Review** , 2004 Quarterly journal on sociodemographic economic historical political and legislative aspects of human migration and refugee movements Each issue of IMR presents original articles research and documentation notes reports on key legislative developments both national and international an extensive bibliography and abstracting service the International Sociological Association s International Newsletter on Migration plus a scholarly review of new books in the field IMR also offers annual special issues Planned by the Editorial Board in conjunction with guest editors each of these issues provides an extensive and comprehensive analysis of a single topic of emerging relevance in migration studies *Acquisition and Loss of Nationality* Rainer Bauböck, 2006 Nationality and citizenship have been subjects of stormy policy debates in many EU countries in recent years Concerns over the integration of immigrants but also attempts to forge links with emigrants have led to changes in the laws regulating loss and acquisition of nationality and citizenship This title outlines the research conducted by a team of 30 researchers into the nationality laws and their implementation in 15 EU member states Volume 2 of this study presents detailed studies of each country s nationality laws their historical background and current provisions It is a companion to

volume 1 which contains comparative analyses based on a novel methodology that permits a detailed comparison how nationality can be acquired or lost across all 15 countries The results show divergent trends towards liberalization in some countries and new restrictions of access to nationality in others Volume 1 also examines the impact of international and European law presents statistical data on naturalisation and assesses administrative practices Although the European Union has no formal competence in regulating nationality the nationality laws of member states are linked to each other via the common citizenship of the Union Member States should therefore agree on common norms for their nationality laws Volume 1 contains detailed policy recommendations based on the idea that stakeholders in the political community should be given access to nationality In addition to the two volumes detailed statistics and further comparative analyses of legal regulations of nationality are available at www.imiscoe.org Volume 1 2 are also available as a set click here for more information This is the most comprehensive comparative study of the legal status of nationality so far and it will become an indispensable source of reference for further research For more information see <http://www.imiscoe.org/natac>
