Jeffrey M Shaw, 2014-12-25 Contemporary technology has the potential to hinder humanity's attainment of freedom in the opinion of Thomas Merton and Jacques Ellul Both thinkers offer unique perspectives on the impact that they believe technology has had on society in the twentieth century and they both offer unconventional definitions of the concept of freedom Shaw compares their views on technology and its impact on freedom and in doing so allows those who may not be familiar with either of these thinkers to investigate some of their other writing more thoroughly **Contemplation and Freedom**

Benedict R. Shoup, Mary Frohlich, 2025-04-22 How does prayer shape action How does sustained engagement in deep prayer shape our very freedom to act This volume explores the relationship between Christian contemplative prayer and the exercise of freedom Over the past half century the desire for a better integration of spirituality and theology has emerged as a significant theme in theological writing While the question of freedom has not been absent from this discourse this volume highlights it by bringing it to the very center of the conversation Eleven theologians explore the dialectical relationship between contemplation and freedom by engaging with a wide array of sources ranging from Maximus the Confessor to Edith Stein from Howard Thurman to Bernard Lonergan from the Tibhirine martyrs to M Shawn Copeland This symphony of voices unveils the methodological fruitfulness of placing contemplative prayer at the center of life theory and practice **Freedom**

Alice Groff, 1904 **Playing a Happy Life with Great Freedom**

Zhi Xin, 2021-12-20 This book tells us how to understand the nature of life that is life habit energies and habitual mental operation modes how to observe the life benefits projected by different mental models and see through the causes behind them In this book teacher Zhi Xin shared the mystery of how ordinary people can really play to lead a happy life Everything he shared comes from his own spiritual practice for decades through which he has successfully proved in person all kinds of mysterious manifestations and then summed them up into a very clear principal and shared it with everyone without reservation This mystery lies in every one of us Although everyone is born with self sufficient innate freedom and perfect wisdom in life one may descend from realization to confusion because one may acquire wrong knowledge or understanding during the course of life Such false belief may

even evolve or expand to become the confusion and or pain of life the joys and sorrows of families the contradictions and struggles between countries and the various crises that mankind is currently facing Under any of these circumstances it will become an unattainable luxury for one to live happily and freely Even the most basic demands of human beings who just want to survive can be totally destroyed by the driving mode of opposition and confrontation with each other Therefore the launch of this book is like a lighthouse in the dark night making it full of hope as long as he or she truly masters the mystery of operating life shared in this book As this book says it only takes three years to cleanse our destiny and then we can get back all the innate good things that we owned at birth This book emphasizes this dharma of mind repeatedly With the help of the complete wisdom arising from the book we can break the delusion layer by layer until we can see clearly the truth of life It is the moment when we will free ourselves from eternal imprisonment and give out a hearty laugh from the bottom of our heart
