amid a maelstrom of local and international obstacles and influences Based on meticulous research of Toronto's postwar plans and supplemented by dozens of interviews Planning Toronto provides a comprehensive and lively explanation of how Toronto's postwar plans city metropolitan and regional came to be who devised them and what impact they had When it comes to the history of urban planning the question may not be whether a particular plan was good or bad but whether in the end it made a difference As White demonstrates in Toronto's case planning did matter just not always as expected

The Ashgate Research Companion to Planning Theory Patsy Healey, 2016-11-03 At a time of potentially radical changes in the ways in which humans interact with their environments through financial environmental and or social crises the raison d'être of spatial planning faces significant conceptual and empirical challenges This Companion presents a multidimensional collection of critical narratives of conceptual challenges for spatial planning The authors draw on various disciplinary traditions and theoretical frames to explore different ways of conceptualising spatial planning and the challenges it faces Through problematising planning itself the values which underpin planning and theory practice relations contributions make visible the limits of established planning theories and illustrate how by thinking about new issues or about issues in new ways spatial planning might be advanced both theoretically and practically There cannot be definitive answers to the conceptual challenges posed but the authors in this collection provoke critical questions and debates over important issues for spatial planning and its future A key question is not so much what planning theory is but what might planning theory do in times of uncertainty and complexity An underlying rationale is that planning theory and practice are intrinsically connected The Companion is presented in three linked parts issues which arise from an interactive understanding of the relations between planning ideas and the political institutional contexts in which such ideas are put to work key concepts in current theorising from mainly poststructuralist perspectives and what discussion on complexity may offer planning theory and practice

 Doyle,2007 This book addresses the increasing regionalisation of urban governance and politics in an era of industrialisation
 suburbanisation and welfare extension It provides an important reassessment of the role structure and activities of urban
 elites highlighting their vitality and their interdependence and demonstrating the increasing regionalisation of municipal
 politics as towns sought to promote themselves extend services and even expand physically onto a regional level Moreover it
 explores the discourses surrounding space in which gender class morality and community all feature prominently How urban
 space and its uses were defined and redefined became key political weapons across the regions of England in the nineteenth
 century and these chapters show how a range of sources maps poems songs paintings illustrated journalism social
 investigations historical texts were employed by contemporaries to shape the urban and its image often by placing it in a
 regional context or contributing to the creation of a regional image and identity This collection illustrates the continuing
 vitality of the study of urban politics and governance and presents a rare attempt to place English urban history in a regional
 context oeBarry Doyle has assembled an impressive team of experts on urban politics to examine not just party politics but
 the wider machinery of government the boards agencies and committees that shaped British towns and cities after 1830
 Space and place were contested and negotiated and a distinctive sense of local identity emerged In so doing the collection
 challenges some of the generalisations about the governance of urban Britain and reminds us that despite a shrinking globe
 the local and regional are crucial to our everyday lives The book should be read by all interested in and especially those
 working for local government Professor Richard Rodger University of Edinburgh oeIn *Urban Politics and Urban Space in the
 Nineteenth and Twentieth Centuries Regional Perspectives* Barry Doyle brings together nine original essays by both
 established and younger authors to explore three inter related themes in urban history politics space and region from the
 early to mid nineteenth century to the mid twentieth century The book is conveniently divided into three sections dealing
 with structures of politics politics institutions and urban management and governance discourses and space Each of the
 contributions to this volume promises to both enrich our knowledge of specific moments in British politico urban
 development through the study of discrete developments in time and space and to open up and extend the debate on the
 British variant of urban modernity Each examines the ways in which local power space and regional relations developed and

changed between the early nineteenth and mid twentieth century Localities their politics and communal identities are never really far from a national context indeed they largely shaped it as these essays make clear Doyle is to be commended for his endeavour not just as the editor but in particular for his introduction to the volume In a richly referenced essay that comes in at just over seven and half thousand words he casts a panoramic view over the field in the last few decades making connections where few contemporary urban historians care to tread Doyle gives us a forceful challenge to what he sees as a particularly English malaise in this period namely that of failing to recognise the potential of regional and local government to shape and manage the major reallocation of space and power a vital sphere of public life that is contemporary to our own times It is a masterly and well informed piece of writing that will set the standard for some years to come Professor Anthony McElligott University of Limerick
