**The Myths of Tet** Edwin Moise, 2017-11-21. Late in 1967, American officials and military officers pushed an optimistic view of the Vietnam War. Military Assistance Command Vietnam (MACV) said that the war was being won and that Communist strength in South Vietnam was declining. Then came the Tet Offensive of 1968. In its broadest and simplest outline, the conventional wisdom about the offensive was that it was a military defeat for the Communists but a political victory for them because it undermined support for the war in the United States. But much that has been written about the Tet Offensive has been misleading. Edwin Moise shows that the Communist campaign shocked the American public not because the American media exaggerated its success but because it was a bigger campaign, larger in scale, much longer in duration, and resulting in more American casualties than most authors have acknowledged. MACV, led by General William Westmoreland, issued regular estimates of enemy strength in South Vietnam. During 1967, intelligence officers at MACV were increasingly required to issue low estimates to show that the war was being won. Their underestimation of enemy strength was most extreme in January 1968, just before the Tet Offensive. The weak Communist force depicted in MACV estimates would not have been capable of sustaining heavy combat month after month like they did in 1968. Moise also explores the errors of the Communists using Vietnamese sources. The first wave of Communist attacks at the end of January 1968 showed gross failures of coordination. Communist policy throughout 1968 and into 1969 was wildly overoptimistic, setting impossible goals for their forces. While acknowledging the journalists and historians who have correctly reported various parts of the story, Moise points out widespread misunderstandings in regard to the strength of Communist forces in Vietnam, the disputes among American intelligence agencies over estimates of enemy strength, the actual pattern of combat in 1968, the effects of Tet on American policy, and the American media's coverage of all these issues.

**Enduring Controversies in Military History** Spencer C. Tucker, 2017-09-21. This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events. Why did Alexander the Great's empire fall apart so soon after his death? How did France win the Hundred Years War despite England winning its major battles? Was slavery the primary cause of the American Civil War? Would it have benefited

the Allies militarily to have gone to war against Germany in 1938 rather than in 1939 Should women be allowed to serve in combat positions in the U S military All of these questions and many other historical controversies are addressed in this thought provoking reference book By exploring every angle of some of the most contentious debates involving military history this book builds students critical thinking skills by supplying a complete background of the controversial topic to provide context and also by providing multiple perspective essays written by top scholars in the field The perspective essays present arguments for different positions on the controversy Readers will consider the cases for and against whether Hannibal should have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates

**New Zealand's Vietnam War** Ian McGibbon, 2014-06-18 This landmark publication provides a comprehensive and authoritative account of New Zealand's involvement in the Vietnam War and will remain the standard reference work on the subject for decades. Its publication completes the programme of official war histories that began in 1945. Ian McGibbon's primary focus is what New Zealand did in South Vietnam. He traces in detail the operations carried out by New Zealand forces and seeks to illuminate the experience of New Zealand soldiers fighting in a guerrilla war. The command structure, logistic support, and operational context of fighting within a primarily Australian framework are all covered. He addresses controversial aspects such as friendly fire incidents, atrocity allegations, and veterans' grievances, including over Agent Orange. Maori participation in V Force was substantial, and its impact is assessed. Although the book is

inevitably weighted towards the military the efforts of civilians in South Vietnam are also covered in depth The surgical team operated from 1963 until their evacuation from Qui Nhon just days before North Vietnamese columns entered the city Not forgotten are the efforts of courageous civilians like Sister Mary Laurence and of Red Cross volunteers to alleviate misery among refugees The book also describes the dramatic end of New Zealand s involvement in South Vietnam with the surgical team and the New Zealand Embassy evacuated by RNZAF Bristol Freighters just before the communist victory Finally McGibbon surveys the war s troubled aftermath culminating in the Prime Minister s apology to veterans in 2008
