THE P52 PROJECT Edward D. Andrews,2020-05-26 What are the churchgoers the Bible college students and seminary students to do when one Bible scholar says one thing and another Bible scholar says something quite different or worse still as is the case with P52 several Bible scholars are saying different dates for the time when the Greek New Testament fragment P52 was written P Papyrus a plant in Egypt the material that was used to make sheets of papyrus paper that were written on by scribes to make copies of Bible books 52 the number assigned to that discovered manuscript What makes it even more unnerving is when one is not an expert in the field of study only having basic knowledge How can they possibly know who is correct Worse still the Christian is put in the embarrassing position on social media of telling an atheist that P52 is dated to 100 150 C E and then the atheist responds to the Christian with no your evidence from 1935 is outdated as recent research points to a date of 200 C E or later What is the Christian to do What will be accomplished here in THE P52 PROJECT can be used at other times when the Christian is faced with two scholars or more offering conflicting conclusions We are going to use the common sense that God gave us and weigh the evidence from both sides We are going to treat THE P52 PROJECT like a criminal trial with P52 being on trial What the churchgoer serious Bible students and seminary students and hopefully all Christians will learn in this short publication concerning P52 will help them in their approach when Bible scholars are offering conflicting information on other issues as well The tiny Greek New Testament manuscript P52 is an invaluable artefact of early Christianity Andrews has made every effort to make this subject easier to understand THE P52 PROJECT is too important to leave it in the hands of
