

شفافیت شیطانی

ژان بودریار

ترجمه پیروز ایزدی

چاپ دوم

رساله‌ای در باره پدیده‌های افراطی

بخش دوم کتاب اختصاص به بحث «خود و دیگری» دارد. بودریار در این بخش قصد دارد به تبیین از میان رفتن «خود» و این واقعیت بپردازد که ما دیگر قادر به کسب تجربیات «دست اول» و درک بی‌واسطه از جهان نیستیم. از سوی دیگر، از دست رفتن خود مستقل به معنای سلب مسئولیت از خود و تبعیت از دیگری است؛ گویی قرار گرفتن تحت سرکوب، استثمار، تعقیب و کنترل دیگری بهتر از آن است که خود سرنوازشمان را در دستمان داشته باشیم.

Experience of Human Communication Frank J. Macke, 2014-12-24 This book deals with matters of embodiment and meaning in other words the essential components of what Continental thought since Heidegger has come to consider as communication A critical theme of this book concerns the basic tenet that consciousness of one's Self and one's body is only possible through human relationship This is of course the phenomenological concept of intersubjectivity But rather than let this concept remain an abstraction by discussing it as merely a function of language and signs this work attempts to explicate it empirically That is it discusses the manner in which from infancy to childhood and adolescence and the dawning of our sexual identities through physical maturity and old age we come to experience the ecstasy of what Merleau Ponty has so poetically termed flesh It is rarely clear what someone means when she or he uses the word communication An important

objective of this book is thus to advance understanding of what communication is In academic discourse communication has come to be understood in a number of contexts some conflicting and overlapping as a process a strategy an event an ethic a mode or instance of information or even a technology In virtually all of these discussions the concept of communication is discussed as though the term s meaning is well known to the reader When communication is described as a process the meaning of the term is held at an operational level that is in the exchange of information between one person and another what must unambiguously be inferred is that communication is taking place In this context information exchange and communication become functionally synonymous But as a matter of embodied human psychological experience there is a world of difference between them As such this book attempts to fully consider the question of how we experience the event of human communication The author offers a pioneering study that advances the *raison d tre* of the emergent field of communicology while at the same time offering scholars of the human sciences a new way of thinking about embodiment and relational experience

Jean Baudrillard Richard G Smith,2015-07-01 This new collection gathers 23 highly insightful yet previously difficult to find interviews with Baudrillard ranging over topics as diverse as art war technology globalisation terrorism and the fate of humanity Jean Baudrillard: Live Theory Paul Hegarty,2004-03-01 Jean Baudrillard s work on how contemporary society is dominated by the mass media has become extraordinarily influential He is notorious for arguing that there is no real world only simulations which have altered what events mean and that only violent symbolic exchange can prevent the world becoming a total simulation An ideal introduction to this most singular cultural critic and philosopher Jean Baudrillard live theory offers a comprehensive critical account of Baudrillard s unsettling visionary and often prescient work Baudrillard s relation to a range of theorists as diverse as Nietzsche Marx McLuhan Foucault and Lyotard is explained and the impact of his thought on contemporary politics popular culture and art is analyzed Finally in the new interview included here Baudrillard outlines his own position and responds to his critics The Transparency of Val Stephen Belber,2003 THE STORY Val is born Within minutes he learns part of the entire history of the world By then having finished college he is faced with the task of actually living It s not quite the coconut he was taught what with all the twisted Buddhists

Baudrillard and Theology James Walters,2012-06-21 Jean Baudrillard was one of the foremost intellectual figures of the late twentieth century and his work is currently reaching a new prominence in the English speaking world Known as the high priest of postmodernity Baudrillard never directly addressed theological concerns However his provocative analysis of the changing nature of reality subjectivity and agency is of increasing importance to contemporary theology Furthermore his mode of cultural analysis which he himself describes as mystical provides fruitful possibilities for theological reasoning in the post idealist world he describes James Walters provides the context of Baudrillard s writing and identifies key influences He then sets out his core ideas drawing in theological responses and relating them to theological concerns Finally he highlights some areas of his work of particular theological interest **Finding Meaning** Steven DeLay,2023-10-13 The word nihilism

Smith, 2017-04-28 Originally published between 1968 and 2009 this collection of 25 pieces includes six interviews translated into English for the first time and a new transcription of a Q A session with Baudrillard following a lecture he gave in London in 1994 The guiding theme of the collection is Baudrillard s engagement with culture The implications of the implosion of Western culture are dissected and documented in the rich range of material included here D. G. Leahy and the Thinking Now Occurring Lissa McCullough, Elliot R. Wolfson, 2021-09-01 This book offers a critical introduction to the work of American philosopher D G Leahy 1937 2014 Leahy s fundamental thinking can be characterized as an absolute creativity in which all creating is live a happening occurring now that manifests a supersaturated polyontological actuality that is essentially created by the logic that characterizes it Leahy leaves behind the categorial presuppositions of modern thought eclipsing both Cartesian and Hegelian subjectivities and introducing instead an essentially new form of thinking founded in a nondual logic of creation The new thinking delineates the absolute unicity of existence as a creative interactivity beyond all traditional dichotomies such as one vs many unity vs plurality identity vs change a fully digitized actuality that is nothing but newness which inherently implies nothing but change Through this new form of thinking change itself is revealed to be the very essence of reality and mind Any reader looking for a quantum leap beyond the thrall of modern and postmodern fixations is invited to hear and apprehend this new thinking that refuses to be conditioned by paradigms categories species genera walls bridges boundaries or abstractions an essentially free thinking that embodies creative novelty itself **Digital Delirium** Arthur Kroker, Marilouise Kroker, 1997-05-15 Digital Delirium is a manifest against the right wing politics of cyberlibertarianism and for rewiring the question of ethics to digital reality Bringing together the most creative minds of the digital generation it explores what is lost and what is gained by being digital *Transparency* Rachel Adams, 2020-01-14 This book critiques the

contemporary recourse to transparency in law and policy This is ostensibly the information age At the heart of the societal shift toward digitalisation is the call for transparency and the liberalisation of information and data Yet with the recent rise of concerns such as fake news post truth and misinformation where the policy responses to all these phenomena has been a petition for even greater transparency it becomes imperative to critically reflect on what this dominant idea means whom it serves and what the effects are of its power In response this book provides the first sustained critique of the concept of transparency in law and policy It offers a concise overview of transparency in law and policy around the world and critiques how this concept works discursively to delimit other forms of governance other ways of knowing and other realities It draws on the work of Michel Foucault on discourse archaeology and genealogy together with later Foucaultian scholars including Gayatri Chakravorty Spivak and Judith Butler as a theoretical framework for challenging and thinking anew the history and understanding of what has become one of the most popular buzzwords of 21st century law and governance At the intersection of law and governance this book will be of considerable interest to those working in these fields but also to those engaged in other interdisciplinary areas including society and technology the digital humanities technology laws and policy global law and policy as well as the surveillance society

Great Satan's rage Scott Wilson, 2016-05-16 Newly available in paperback this book looks at how rap and metal have been highly engaged with America's role in the world supercapitalism and their own role within it This has especially been the case when genres hitherto clearly identified as indelibly black or white forms of music have crossed over as an effect of cross racial forms of identification and desire marketing strategy political engagement opportunism and experimentation It is how examples of these forms have negotiated contested raged against survived exploited simulated and performed Satan's rage that is the subject of this book The book offers a highly original approach in relating rap metal to critical theories of economy and culture introducing a new method of cultural analysis based on theories of negativity and expenditure that will be of great interest to students in media and cultural studies American studies critical and cultural theory advertising and marketing and sociology and politics

The Transparency Society Byung-Chul Han, 2015-08-19 Transparency is the order of the day It is a term a slogan that dominates public discourse about corruption and freedom of information Considered crucial to democracy it touches our political and economic lives as well as our private lives Anyone can obtain information about anything Everything and everyone has become transparent unveiled or exposed by the apparatuses that exert a kind of collective control over the post capitalist world Yet transparency has a dark side that ironically has everything to do with a lack of mystery shadow and nuance Behind the apparent accessibility of knowledge lies the disappearance of privacy homogenization and the collapse of trust The anxiety to accumulate ever more information does not necessarily produce more knowledge or faith Technology creates the illusion of total containment and

the constant monitoring of information but what we lack is adequate interpretation of the information In this manifesto Byung Chul Han denounces transparency as a false ideal the strongest and most pernicious of our contemporary mythologies
