The Triune God A Historical Study Of The Doctrine Of The Trinity:

The Triune God Edmund J. Fortman,1999-02-23 A primary condition for fresh thinking on the Trinity is an accurate objective account of past and present thought wrote one reviewer when The Triune God first appeared in 1972 This is what Fortman has presented sensitively accurately and compactly The author sets out to trace the historical development of Trinitarian doctrine from its written beginnings to its contemporary status Thus he treats the biblical witness the Council of Nicea Augustine the Middle Ages and the development of this doctrine from the fifteenth century to the present in the Protestant Orthodox and Catholic traditions The Triune God Edmund J. The Trinitarian Ethics of Jonathan Edwards William J. Danaher,2004-01-01 Examining the theological ethics of Jonathan Edwards William Danaher Jr shows that Edwards s doctrine of the Trinity both was foundational to Edwards s thought and is the necessary framework for understanding the theological and moral vision expressed in his writings This Trinitarian interpretation identifies what distinctive contribution Edwards makes to contemporary Christian ethics particularly concerning the nature of virtue the will sin evil and love The Columbia Series in Reformed Theology represents a joint commitment by Columbia Theological Seminary and Westminster John Knox Press to provide theological resources from the Reformed tradition for the church today This series examines theological and ethical issues that confront church and society in our own particular time and place *A Virtue Ethical View of Trinitarian Sanctification* Ronald M. Rothenberg,2014-07-02 The thesis of this book is that virtue ethics is key to understanding Trinitarian progressive sanctification The thesis is supported by four reasons why virtue ethics is key to understanding Trinitarian progressive sanctification 1 the Trinity virtue ethics and sanctification are historically and conceptually interconnected in the tradition and Scripture 2 virtue ethics based on metaphysical realism is the most biblically consistent ethical framework for Trinitarian progressive sanctification 3 Jesus active roles as a teacher and example of virtue play an important part in Trinitarian sanctification and 4 Jesus priestly heavenly intercession aimed at manifesting virtue in believers is crucial to understanding how the Trinity progressively sanctifies believers The active roles of Jesus in sanctification ordered by the Triune premise indicate that the Trinity sanctifies such that 1 the value having its source from the Father is revealed through the teaching of the Son to motivate believers who are empowered to be motivated by the Spirit 2 the character that is from the Father is revealed through the Son s example that is to be imitated by the believer through habituation and reciprocity by the Spirit s leading and 3 believers are led by the Spirit s intercession into prayer Rom 8 14 16 26 27 to be helped through the Son s priestly intercession in order to receive an answer from the Father with the aim of manifesting the virtues of endurance and hope in the lives of believers *The Domestication of Transcendence* William Carl Placher,1996-01-01 Argues that contemporary discussion about God has a mistaken understanding of the classical Christian doctrines of God **The**

Character of Theology John R. Franke, 2005-07-01 Theology done in today's context is strikingly different from past evangelical approaches. In this new project John Franke, writing with our postmodern world in mind, reflects these directions. He offers an introduction to theology that covers the usual territory but does so attuned to today's ecclesial and cultural context. In contradistinction to more traditional works, Franke critiques traditional evangelical theological conceptions, emphasizes the local nature of theology, engages the postmodern context, contrasts conservative and postconservative approaches, interacts with the broader faith community, sure to provoke intense discussion. *The Character of Theology* will help Christians to be faithful in a world in which the spiritual and intellectual landscape is ever changing. ***The Triune God*** Fred Sanders, 2016-12-06 A constructive study of Trinitarian theology that aims to clarify our knowledge of the triune God by rightly ordering the theological language we use to praise him. *The Triune God* reaches its conclusions about how this doctrine should be handled on the basis of the way the Trinity was revealed. As such, theologian Fred Sanders invites a doxological invitation to the reader to contemplate the mystery of the Trinity. Establishes the biblical exposition and draws the doctrinal implications from it. Offers dogmatic principles for Trinitarian exegesis. Though Sanders does interact with major voices from the history of doctrine and his arguments are indebted to and informed by the great tradition of Trinitarianism, he is clear throughout that Trinitarianism is a gift of revelation before it is an achievement of the church. The most patristic way to proceed toward a well-ordered doctrine of the Trinity is after all to study Scripture. **ABOUT THE SERIES** *New Studies in Dogmatics* seeks to retrieve the riches of Christian doctrine for the sake of contemporary theological renewal. Following in the tradition of G. C. Berkouwer's *Studies in Dogmatics*, this series provides thoughtful, concise, and readable treatments of major theological topics, expressing the biblical, creedal, and confessional shape of Christian doctrine for a contemporary evangelical audience. The editors and contributors share a common conviction that the way forward in constructive systematic theology lies in building upon the foundations laid in the church's historic understanding of the Word of God as professed in its creeds, councils, and confessions and by its most trusted teachers. **What the Bible Says About God the Redeemer** Jack Cottrell, 2000-09-04 Part of a three-book series on theology which includes *God the Creator* and *God the Ruler*. Cottrell expounds upon the three major elements of God as revealed in the scriptures: providence, redemption, and creation. **The Evangelical Dictionary of World Religions** H. Wayne House, 2019-02-19 With all of the different religions, sects, denominations, and belief systems out there, it can be difficult to separate the facts from mere opinion, especially if one is relying solely on online sources which may or may not be vetted and which often have an ideological or political slant to them. How can we truly understand if we cannot even be sure we are getting the facts straight? In this comprehensive resource, more than 75 evangelical scholars offer a thoroughly researched guide to Christianity, other world religions, and alternative religious views, including entries on movements, theological terms, and major historical figures. Perfect for pastors, students, and anyone who wants ready access to information on today's religious landscape. **Flame of Love** Clark H.

Pinnock,2022-04-05 In what may be regarded as his magnum opus Clark Pinnock explores the vital Christian doctrine of the Holy Spirit restoring the Spirit to centrality in the life and witness of the church For this second edition theologian Daniel Castelo draws from his experience using this book in the classroom to add helpful commentary and brief reflections on each chapter *Beyond Foundationalism* Stanley James Grenz,John R. Franke,2001-01-01 Grenz and Franke provide a methodological approach for doing theology in the postmodern world They call for a theological method that moves beyond the Enlightenment way of ordering and understanding information foundationalism They propose a theological method that takes seriously the Spirit tradition and contemporary culture while stressing trinitarian structure community and eschatology

Philosophia Christi ,2003 *The Ampleforth Journal* ,1973 **A Scientific Theology: Reality** Alister E.

McGrath,2001 A Scientific Theology is a ground breaking work of systematic theology in three volumes Nature Reality and Theory Written by one of the world s best known theologians these volumes together represent the most extended and systematic exploration of the relation between Christian theology and the natural sciences yet produced Thoroughly ecumenical in approach A Scientific Theology is a significant work for Catholic Orthodox Protestant and evangelical readers Each volume is marked throughout by a sustained and critical engagement with the history and philosophy of the natural sciences and by a passionate commitment to the legitimacy of theology as an academic discipline The three volumes together attempt to present an essentially linear argument from nature to theory so that questions of how reality is represented will be dealt with entirely in the final volume though preliminary discussions of aspects of reality are naturally included in this present volume The second volume in the series thus provides a detailed and thorough examination and defense of theological realism Its themes are set against the backdrop of radical changes in Western philosophy and theology resulting from the collapse of the Enlightenment project and the consequent fragmentation of intellectual discourse Engaging critically with writers such as George Lindbeck and John Milbank McGrath offers a sparkling and sophisticated affirmation of theological realism against its modern and postmodern critics His refutation of the claim that the rise of philosophical nonfoundationalism entails the abandoning of any form of realism is of particular importance as is his application of the highly influential form of critical realism developed by Roy Bhaskar Viewed as a whole Reality represents a sustained engagement with natural theology as the basis of a broader dialogue between the Christian tradition and other religious traditions Book jacket *Tertullian's Theology of Divine Power* Roy Kearsley,1998 This book traces Tertullians handling of key doctrines and draws implications for some of todays crucial issues Trinitarian faith the status of creation gender authority and power abuse It takes the agenda of early Christian thought seriously and finds it profoundly relevant today

Professing the Faith Douglas John Hall,1993 What does it mean to profess the faith as North American Christians at the end of the second millennium What is Christian theology as consciously crafted in light of the distinctive history culture and experience of North America Hall marshalls doctrinal resources for a critical creative response that stresses God s necessary

involvement in an unfinished dynamic suffering world *Post-Reformation Reformed Dogmatics* Richard A. Muller, 2003-08
A major study reevaluating the primary sources of the post Reformation period to determine how consistent they are with the thinking of the Reformers on the triunity of God
