

EURO-MEDITERRANEAN INTEGRATION AND COOPERATION: PROSPECTS AND CHALLENGES

Katia Adamo and Paolo Garonna ⁴⁰⁷

INTRODUCTION: THE MEDITERRANEAN, A REGION AT THE CROSSROADS OF THREE CONTINENTS

Europe and the Mediterranean countries are bound by history, geography and culture. At the crossroads of the European, African and Asian continents, the Mediterranean region⁴⁰⁸ presents political and economic challenges that have recently re-launched the debate on Euro-Mediterranean integration and cooperation.

The 26 littoral States share geographical features and a past that has been shaped by some of the greatest civilisations of the world. Despite such elements of unity, the Mare Nostrum has remained divided along two main fractures: "north-south" and "east-west".

Global interdependence has not yet reached all Mediterranean States. While the northern shore enjoys strengthened political and economic integration, deep divisions characterize the relations of southern states. Democratic and rich, the north contrasts with the poverty and political turmoil of the south. The southern region is also plagued by a lack of infrastructure, a poorly-educated workforce and high unemployment. International and internal migration, terrorism, money laundering, organized crime, environmental degradation and human trafficking are but a few of the problems of the region. These impediments to the region's security and economic growth can neither be confronted independently nor be viewed in isolation from one another. Regional political cooperation failures have been attributed to non-convergent national interests, conflict in the Middle East and various geopolitical factors. Sector-based co-operation and integration, however, provides an opportunity to strengthen the economic governance of the entire region.

⁴⁰⁷ Katia Adamo is Fellow at Special Representative's Secretary-General of the Italian Parliamentary Assembly of the Mediterranean (PAM) Paolo Garonna is Deputy Executive Secretary of UNICEF. They both have been writers on the basis of Mr Garonna's presentation on "Economic Prospects and Challenges for Euro-Mediterranean Economic Cooperation" held in his capacity as representative of UNICEF's special guest and they both at the meeting of the PAM's Working Committee for Economic, Social and Environmental Cooperation in Malta, 13-14 March 2008.

⁴⁰⁸ Hereafter, we have referred to the Mediterranean region, as we refer to the whole of the Mediterranean Sea and its surrounding countries: Albania, Algeria, Armenia, Azerbaijan, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Egypt, France, Georgia, Italy, Jordan, Lebanon, Libya, Malta, Monaco, Montenegro, Morocco, Occupied Palestinian Territory, Portugal, Serbia, Slovakia, Spain, Syria, Turkey, Republic of Moldova, Republic of Macedonia, Tunisia and Turkey, with the exception of Israel, which is not included in the region for historical, political and strategic reasons.

The European Union and Democracy Promotion Richard Gillespie, Richard Youngs, 2002 The 20th century saw air power transformed from novelists fantasy into stark reality From string and canvas to precision weaponry and stealth air power has progressed to become not only the weapon of first political choice but often the only conceivable option This rapid development has given rise to considerable debate and controversy with those holding entrenched views rarely slow to shout their case Many myths have grown over the period ranging from the once much vaunted ability of air power to win wars alone through to its impact as a coercive tool This volume examines the theory and practice of air power from its earliest inception The contributors have been drawn from academia and the military and represent some of the world's leading proponents on the subject All significant eras on air power employment are examined some are evidently turning points while others represent continuous development Perhaps more importantly the book highlights the areas that could be considered to be significant and invites the reader to enter the debate as to whether it constitutes a continuum a turning point or indeed a revolution

Comparative Perspectives on the Substance of EU Democracy Promotion Anne Wetzel, Jan Orbie, Fabienne Bossuyt, 2017-10-02 This book examines the substance of European Union EU democracy promotion by comparing it with norms of governance that other international actors promote among them the United Nations the United States the Central and East European EU member states Russia China and non governmental organizations It aims to gain a better understanding of the EU's democracy promotion agenda and to learn more about the distinctiveness of the norms diffused by the EU Building on a common conceptual chapter the contributions follow different theoretical approaches and research designs and focus on a diversity of case studies The book concludes that in comparison with other international actors the EU's conceptual approach to democracy promotion is diffuse which in turn makes the EU a particularly flexible but also technical democracy promoter when it comes to implementation At the same time there are limits to flexibility at the level of concepts and frames This indicates a distinct character of the

substance of EU democracy promotion which can be linked to the nature of the EU polity This book was published as a special issue of the Cambridge Review of International Affairs

Italy's Foreign Policy in the Twenty-first Century Ludovica Marchi, Richard Whitman, Geoffrey Edwards, 2014-10-17 Italy's foreign policy has often been dismissed as too idiosyncratic inconsistent and lacking ambition This book offers new insights into the position Italy has attained in the international community in the 21st century It explores how the country has sought to take advantage of its passage from a bipolar to a multipolar system and assesses the ways in which it has engaged internationally its new responsibilities and the manner in which it conducts its policies in the pursuit of its interests whether political or commercial It argues that although Italy is engaged internationally there is a gap between its actions and what it actually delivers and as long as this gap continues Italy is likely to remain a partial and unreliable foreign policy actor Divided into three parts this book explores the context and processes which characterise Italy's external action its relations with crucial countries and regions such as the US the EU and the BRICs its security and defence policies This book will be of interest to students and scholars of European Politics Foreign Policy analysis and Italian studies

Stephanou, 2006-01-01 Before the latest EU enlargement substantial changes in the integration process were predicted as a result of the accession of 10 new member states with some forecasting cataclysmic consequences This book the first ex post assessment of EU enlargement provides evidence to the contrary while also providing examples in which the new members have been able to influence the EU policy output with their liberal attitudes on economic and social policy
