The Unsubstantial Air American Fliers In The First World War:

The Unsubstantial Air Samuel Hynes, 2014-10-21 The vivid account of the young Americans who fought and died in the aerial battles of World War I told in their own words The Unsubstantial Air is the gripping story of the Americans who fought and died in the aerial battles of World War I Much more than a traditional military history it is an account of the excitement of becoming a pilot and flying in combat over the Western Front told through the voices and words of the aviators themselves A World War II pilot himself the memoirist and critic Samuel Hynes revives the adventurous young men who inspired his own generation to take to the sky By drawing on the letters sent home diaries kept and memoirs published in the years that followed he brings to life their emotions anxieties and triumphs They gasp in wonder at the world seen from a plane struggle to keep their hands from freezing in open air cockpits party with actresses and aristocrats rest of Voltaire's castle and search for their friends bodies on the battlefield The young pilots romantic war becomes more than that a harsh but often thrilling reality Weaving together their testimonies The Unsubstantial Air is a moving portrait of a generation coming of age under new and extreme circumstances Praise for The Unsubstantial Air Samuel Hynes is simultaneously a great gift to his complicated country and to our English language He vividly brings to life our earliest air warriors and does so with a seemingly effortless but exhilarating prose that soars in much the same way his aviators do Masterful Ken Burns A beautifully written evocation of the Ivy Leaguers farm boys and wild men who flew avions de chasse from mainly French airfields based on their letters flight diaries and memories Roy Foster *The Times Literary Supplement* Books of the Year 2014

States Army, 2016-05 **Reckless Fellows** Edward Bujak, 2015-09-25 The Royal Flying Corps later the Royal Air Force was formed in 1912 and went to war in 1914 where it played a vital role in reconnaissance supporting the British Expeditionary Force as air cavalry and also in combat establishing air superiority over the Imperial German Air Force Edward Bujak here combines the history of the air war including details of strategy tactics technical issues and combat with a social and cultural history The RFC was originally dominated by the landed elite in Lloyd George's phrase from the stateliest houses in England and its pilots were regarded as knights of the air Harlaxton Manor in Lincolnshire seat of landed gentry became their major training base Bujak shows how within the circle of the RFC the class divide and unconscious

superiority of Edwardian Britain disappeared absorbed by common purpose technical expertise and by an influx of pilots from Canada Australia New Zealand and South Africa He thus provides an original and unusual take on the air war in World War I combining military social and cultural history
