The Theater Of Truth The Ideology Of Neobaroque Aesthetics:

The Theater of Truth William Egginton, 2009-12-17 The Theater of Truth argues that seventeenth century baroque and twentieth century neobaroque aesthetics have to be understood as part of the same complex The Neobaroque rather than being a return to the stylistic practices of a particular time and place should be described as the continuation of a cultural strategy produced as a response to a specific problem of thought that has beset Europe and the colonial world since early modernity This problem in its simplest philosophical form concerns the paradoxical relation between appearances and what they represent Egginton explores expressions of this problem in the art and literature of the Hispanic Baroque's new and old He shows how the strategies of these two Baroque's emerged in the political and social world of the Spanish Empire and how they continue to be deployed in the cultural politics of the present Further he offers a unified theory for the relation between the two Baroque's and a new vocabulary for distinguishing between their ideological values Metatheater and Modernity Mary Ann Frese Witt, 2013 Metatheater and Modernity Baroque and Neobaroque is the first work to link the study of metatheater with the concepts of baroque and neobaroque Arguing that the onset of European modernity in the early seventeenth century and both the modernist and the postmodernist periods of the twentieth century witnessed a flourishing of the phenomenon of theater that reflects on itself as theater the author reexamines the concepts of metatheater baroque and neobaroque through a pairing and close analysis of seventeenth and twentieth century plays The comparisons include Jean Rotrou's The True Saint Genesius with Jean Paul Sartre's Kean and Jean Genet's The Blacks Pierre Corneille's L'illusion comique with Tony Kushner's The Illusion Gian Lorenzo Bernini's The Impresario with Luigi Pirandello's theater in theater trilogy Shakespeare's Hamlet with Pirandello's Henry IV and Tom Stoppard's Rosencrantz and Guildenstern are Dead Moliere's Impromptu de Versailles with impromptus by Jean Cocteau Jean Giraudoux and Eugène Ionesco Metatheater and Modernity also examines the role of technology in the creating and breaking of illusions in both centuries In contrast to previous work on metatheater it emphasizes the metatheatrical role of comedy Metatheater the author concludes is both performance and performative it accomplishes a perceptual transformation in its audience both by defending theater and exposing the illusory quality of the world outside **The Philosophical Baroque** Erik S. Roraback, 2017-04-18 In his pioneering study The Philosophical Baroque On Autopoietic Modernities Erik S Roraback argues that modern culture contemplated over its four century history resembles nothing so much as the pearl famously described by periodizers of old as irregular barroco Reframing modernity as a multi century baroque Roraback steepens texts by Shakespeare Henry James Joyce and Pynchon in systems theory and the ideas of philosophers of language and culture from Leibniz to such dynamic contemporaries as Luhmann Benjamin Blanchot Deleuze and Guattari Lacan and i ek The resulting brew high in intellectual caffeine will be of value to all who take an interest in cultural modernity indeed all who recognize that modernity was and remains a congeries of competing aesthetic economic historical ideological philosophical and political energies Emotion and the Seduction of

the Senses, Baroque to Neo-Baroque Lisa Beaven, Angela Ndalians, 2018-07-31 Emotion and the Seduction of the Senses Baroque to Neo Baroque examines the relationship between the cultural productions of the baroque in the seventeenth century and the neo baroque in our contemporary world The volume illuminates how rather than providing rationally ordered visual realms both the baroque and the neo baroque construct complex performative spaces whose spectacle seeks to embrace immerse and seduce the senses and solicit the emotions of the beholder

Adventures with the Theory of the Baroque and French Philosophy Nadir Lahiji, 2016-09-22 Analysing the reception of contemporary French philosophy in architecture over the last four decades Adventures with the Theory of the Baroque and French Philosophy discusses the problematic nature of importing philosophical categories into architecture Focusing particularly on the philosophical notion of the Baroque in Gilles Deleuze this study examines traditional interpretations of the concept in contemporary architecture theory throwing up specific problems such as the aestheticization of building theory and practice Identifying these and other issues Nadir Lahiji constructs a concept of the baroque in contrast to the contemporary understanding in architecture discourse Challenging the contemporary dominance of the Neo Baroque as a phenomenon related to postmodernism and late capitalism he establishes the Baroque as a name for the paradoxical unity of kitsch and high art and argues that the digital turn has enhanced the return of the Baroque in contemporary culture and architectural practice that he brands a pseudo event in the term neobaroque Lahiji's original critique expands on the misadventure of architecture with French Philosophy and explains why the category of the Baroque if it is still useful to keep in architecture criticism must be tied to the notion of Post Rationalism Within this latter notion he draws on the work of Alain Badiou to theorize a new concept of the Baroque as Event Alongside close readings of Walter Benjamin Theodor Adorno and Michel Foucault related to the criticism of the Baroque and Modernity and discussions of the work of Frank Gehry in particular this study draws on Jacques Lacan's concept of the baroque and presents the first comprehensive treatment of the psychoanalytical theory of the Baroque in the work of Lacan

Arts & Humanities Citation Index, 1997 *In Defense of Religious Moderation* William Egginton, 2011 William Egginton laments the current debate over religion in America in which religious fundamentalists have set the tone of political discourse no one

can get elected without advertising a personal relation to God for example and prominent atheists treat religious belief as the root of all evil Neither of these positions Egginton argues adequately represents the attitudes of a majority of Americans who while identifying as Christian Jewish or Muslim do not find fault with those who support different faiths and philosophies In fact Egginton goes so far as to question whether fundamentalists and atheists truly oppose each other united as they are in their commitment to a code of codes Fundamentalists and stringent atheists unconsciously believe that the methods we use to understand the world are all versions of an underlying master code This code of codes represents an ultimate truth explaining everything The moderately religious with their inherent skepticism toward a master code are best suited to protect science politics and other diverse strains of knowledge from fundamentalist attack and to promote a worldview based on the compatibility between religious faith and scientific method
