The Time In Between A Novel:

The Time In Between Maria Duenas,2012-07-10 The Time In Between follows the story of a seamstress who becomes the most sought after couturiere during the Spanish Civil War and World War II Provided by publisher **Africa in the Contemporary Spanish Novel, 1990-2010** Mahan L. Ellison,2021-08-19 The time period of 1990 2010 marks a significant moment in Spanish literary publishing that emphasized a new focus on Africa and African voices and signaled the beginning of a publishing boom of Hispano African authors and themes Africa in the Contemporary Spanish Novel 1990 2010 analyzes the strategies that Spanish and Hispano African authors employ when writing about Africa in the contemporary Spanish novel Focusing on the former Spanish colonial territories of Morocco Western Sahara and Equatorial Guinea Mahan L Ellison analyzes the post colonial literary discourse about these regions at the turn of the twenty first century Heexamines the new ways of conceptualizing Africa that depart from an Orientalist framework as advanced by novelists such as Lorenzo Silva Concha L pez Saras a Ram n Mayrata and others Throughout Ellison also places the novels within their historical context specifically engaging with the theoretical ideas of Edward Said s Orientalism 1978 to determine to what extent his analysis of Orientalist discourse still holds value for a study of the Spanish novel of thirty years later *The Physiology of the Novel* Nicholas Dames,2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked andsoothed by authors newly aware of the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century The Physiology of the Novel challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture s way of reading responding and feeling **Year books of Edward II: 6 and 7 Edward II, A.D. 1313** ,1918
