The Unfinished Work Of Elizabeth D A Novel:

Novel Bodies Jason S. Farr, 2019-06-07 *Novel Bodies* examines how disability shapes the British literary history of sexuality Jason Farr shows that various eighteenth century novelists represent disability and sexuality in flexible ways to reconfigure the political and social landscapes of eighteenth century Britain In imagining the lived experience of disability as analogous to and as informed by queer genders and sexualities the authors featured in *Novel Bodies* expose emerging ideas of able bodiedness and heterosexuality as interconnected systems that sustain dominant models of courtship reproduction and degeneracy Further Farr argues that they use intersections of disability and queerness to stage an array of contemporaneous debates covering topics as wide ranging as education feminism domesticity medicine and plantation life In his close attention to the fiction of Eliza Haywood Samuel Richardson Sarah Scott Maria Edgeworth and Frances Burney Farr demonstrates that disabled and queer characters inhabit strict social orders in unconventional ways and thus opened up new avenues of expression for readers from the eighteenth century forward Published by Bucknell University Press Distributed worldwide by Rutgers University Press

A Horror and a Beauty: The World of Peter Ackroyd's London Novels Petr Chalupský, 2016-02-01 Peter Ackroyd is one of the foremost contemporary British London writers He focuses on the capital its history development and identity both in his fiction and non fiction The London of his novels is thus a highly idiosyncratic construct which reflects and derives from its author's ideas about the actual city's nature as well as his concept of the English literary sensibility in general as he outlines them in his lectures and historical and literary studies It is an exceptionally heterogeneous city of enormous diversity and richness of human experience moods and emotion of actions and events and also of the tools through which these are re presented and reenacted According to Ackroyd this heterogeneity mostly originates outside the sites and domains of the established or mainstream cultural production and social norms and conventions particularly in occult practices subversive acts and the plotting of radical individuals or groups criminal and fraudulent activities of various kinds dubious scientific experiments and the popular dramatic forms of ritual and entertainment whose permanent encounters with and contesting of the officially approved and prescribed forms instigate the city's vitalising energy for dynamic change and spiritual renewal This book presents the world of Ackroyd's London novels as a distinct chronotope determined by specific spatial and temporal properties and their mutual interconnectedness Although such a concept of urban space in its essence defies categorisation the book is thematically organised around six defining aspects of the city as Ackroyd identifies them the relationship between its past and present its uncanny manifestations its felonious tendencies its inhabitants psychogeographic and antiquarian strategies its theatricality and its inherently literary character
