The Dynamics of Gender and Life Stephen Pirie,2023-03-03 The central concept within the ebook *The Dynamics of Gender and Life* is the universe as a self organizing system SOS wherein everything and everyone is engaged in an ongoing dynamic cyclical interactive dance between unity and individuality feminine and masculine wave and particle togetherness and separateness Yin and Yang possibility and actuality The exploration of this interactive possibility actuality feminine masculine dance yields valuable and useful insights into creativity identity politics personality structure belief systems intuition gender spirituality neuroplasticity peak states health well being and more Some reviews I liked Stephen's generalized summaries of what it all meant as I went along e.g. We and each part within creation are an active pivot point a doorway an active creative portal through which the creative potential and power of the quantum vacuum the implicate order the ground of being flows and creates We are the delivery vehicles and directors of where and how that energy is congealed into actuality Beautifully expressed These occasional boosts in his explication keeps the reader in touch with the overall context of what he is saying and sustains an emotional connection with the content All in all a wonderful piece of work which I earnestly hope will reach a vast multitude of readers Professor Emeritus Frank Juszczuk Western New Mexico University More reviews at <https://beliefinstitute.com/reviews>

Burnett,2016-06-25 Long Beach was one of the many Southern California cities that grew out of the railroad fare wars of the late 1880s It was built by men and women who toiled to make it the great metropolis it is today These are the tales of those who died or are buried in Long Beach Some were illustrious in their time others just common folk with interesting stories to tell Politicians city founders visitors influenza victims Civil War veterans and accident victims are all discussed here as well as the hospitals doctors undertakers and others who cared for the dead and dying But what makes Long Beachs Sunnyside and Municipal cemeteries different from all others is the question of whether the bodies said to be there still remain The cemetery wars of the 1920s erupted when oil was discovered on Signal Hill Oil and other debris ran over the graves and the promised mausoleum that many had already paid for was cast aside in favor of black gold People were angry barricading themselves by the cemeteries gates to prevent oil rigs from getting to the mausoleum site Slant drilling caused headstones and markers to sink into the ground graves were covered by the run off debris from the oil fields above Many bodies were moved their headstones left behind with haphazard records kept of where the corpses were relocated It would take a 10 year court case to determine if the dead still had rights In this book you will learn about the fascinating history of Long Beachs unique cemeteries the stories of those said to be buried in them and whether Long Beachs cities of the dead may be haunted by angry souls whose final abode did not allow them to rest in peace *Northrop Frye* Robert D. fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth s system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth
